Aarhus University

English & Applied Linguistics: Lecturer, Aarhus University

<http://linguistlist.org/issues/20/20-147.html>

Rank: Lecturer
 Posted on: 16-Jan-2009
 Deadline: 09-Mar-2009
 Ling Field(s): Applied Linguistics
 Language(s): English
 Employer: Aarhus University
 Department: Institute of Language, Literature
 and Culture

Job Description

Department of English, Aarhus University

Applications are invited for the post of native-speaker-of-English lecturer ("foreign lecturer") within the general field of Applied Linguistics. Applicants must be native speakers of English, and must hold an academic degree in Applied Linguistics or a related field at Master's Degree level or higher. Expertise in other fields relevant to the Department of English, such as Phonetics, Syntax, Semantics and Pragmatics, History, Anglophone Societies and Cultures, Media, Anglophone Literature, or Danish-English translation would be an advantage. Ability to speak Danish is not a requirement for this post.

This is a teaching post (maximum twelve hours per week during two 12-week semesters, plus related examining and supervision work) with no administrative responsibilities. Research work is not a requirement of the post, but there will be time for the lecturer to pursue his or her own research and it is hoped that s/he will participate in and contribute to the research work of the Department.

The exact teaching programme allocated to the foreign lecturer will depend in part on his/her precise interests, but adaptability will be necessary. Teaching will be at both Bachelor's and Master's degree levels. Courses to be taught will include theoretical courses in Second Language Acquisition, Second Language Teaching, or some other aspect of Applied Linguistics, as well as Introduction to Academic Research Methods, and Written and Spoken Communication in English.

The appointment is for one year in the first instance and is renewable by mutual agreement for a total of up to six years.

The position is tenable from 1 August 2009.

Applicants are urged to consult the Department's web site at engelsk.au.dk/en. The salary will be approximately DKK 24,942.17 per month. No pension rights are attached to this position.

Applications (four copies marked 2009-212/1-161 including CV, names and addresses of two referees and details of research and teaching experience) must reach the address provided below by 12:00 noon on Monday 9 March 2009. Further information about the position may be obtained from Associate Professor Tim Caudery, Institute of Language, Literature and Culture, Aarhus University, DK-8000 Aarhus C, Denmark. Tel.: +45 8942 6507; e-mail: engtc@hum.au.dk. Prospective applicants are invited to view the web pages of the Department of English.

Please mark the application: 2009-212/1-161.

Aarhus University offers a good and inspiring education and research environment for 35,000 students and 8,500 members of staff, who produce academic results of a high international standard. The budgeted turnover for 2009 amounts to EUR 700 million. The university's strategy and development contract are available at www.au.dk.

Aston University
Applied Linguistics: Senior Lecturer,
Aston University

<http://linguistlist.org/issues/20/20-1156.html>

Rank: Senior Lecturer
Posted on: 30-Mar-2009
Deadline: 24-Apr-2009
Ling Field(s): Applied Linguistics
Business English
Language(s): English
Employer: Aston University
Department: School of Languages and Social Sciences

Job Description

Senior Lecturer in Applied Linguistics £44,930 - £52,086 p.a.

Applications are invited for a new Senior Lectureship in Applied Linguistics to provide academic leadership to the English group. Working in an energetic and expanding subject group you will have the ability to teach courses in business English, the language of work, the language of advertising and cognate areas and to contribute more generally to the courses offered by the English Group. You will also have an excellent record of securing research funding and of publication. Your research will contribute to one or more of the four identified research focus areas in linguistics: Corpus Linguistics; Critical Discourse Analysis; Forensic Linguistics; and Language Education.

The successful candidate must be willing to take on leadership roles within the English group to reinforce its academic leadership and also similar roles in the wider School therefore experience in this area is desirable. For further information please contact Dr Tim Grant (see contact information below).

Application forms and further details are available on the application website provided below, or by telephoning: 0121 359 0870 (24 hour answer phone), or by e-mail: recruitment@aston.ac.uk, quoting reference number R090068.

AT&T Interactive
Computational Linguistics: Analyst,
AT&T Interactive

<http://linguistlist.org/issues/20/20-380.html>

Rank: Analyst
Posted on: 04-Feb-2009
Deadline: 04-Aug-2009
Ling Field(s): Computational Linguistics
Language(s):
Employer: AT&T Interactive
Department:

Job Description

Analyst - Labeling Team

Are you looking for a fast moving, creative environment where you can use your expertise to develop and market cutting-edge interactive and digital products?

AT&T Interactive connects consumers and advertisers across multiple digital platforms - online, mobile and even TV. You can help create and support exciting new products and services for our growing portfolio of brands including yellowpages.com, the most preferred Internet Yellow Pages in the US, AnyWho and Keen. We also develop the technology behind Ingenio Pay Per Call. AT&T Interactive is a wholly owned subsidiary of AT&T. Join our dedicated and talented team of individuals all focused on creating the best products in the marketplace. We currently have an opportunity for an experienced Analyst - Labeling Team in our Glendale, California offices. Responsibilities:

- Search Quality Evaluation: rate the quality of search results.
- Data Labeling: Label speech and text data.

Requirements:

- In depth, up-to-date familiarity with English-speaking

web culture and media.

- Broad ranges of interests.
- Strong ability to read and write in the English language.
- Excellent web research skills and analytical abilities.
- Excellent written communication skills.
- Bachelor's degree in English, Linguistics, Information Management or equivalent.

Desired Skills:

- Comfortable working in a UNIX environment
- Fluency in Perl or another scripting language.
- Experience or interest in search engines and information retrieval.
- Involvement in language engineering projects
- SQL
- Familiarity with Ontology development

We offer competitive salaries, excellent benefits including a 401(k), bonuses, and a casual yet high-energy work environment. Jobs are located in Glendale California, near downtown Los Angeles. Send us your resume today.

All applicants must apply online (see application URL provided below). Equal Opportunity Employer

Austrian Res.Inst. for AI (OFAI) Comp Ling: Researcher, Austrian Res.Inst. for AI (OFAI)

<http://linguistlist.org/issues/20/20-1158.html>

Rank: Researcher
 Posted on: 30-Mar-2009
 Deadline: Until Filled
 Ling Field(s): Computational Linguistics
 Language(s):
 Employer: Austrian Res.Inst. for AI (OFAI)
 Department: Language Technology

Job Description

The Austrian Research Institute for Artificial Intelligence (OFAI) in Vienna, Austria offers two research positions in its Language Technology group. Candidates are expected to have a degree in computational linguistics or computer science with a background in language technology. She/he will be an open minded team worker, who is able to work creatively in an interdisciplinary context. She/he will have good programming skills and be able to flexibly use different programming languages. She/he likes to work in a research environment constantly learning and developing fresh concepts and ideas. Publishing research results is part of the job and actively encouraged.

The successful candidates will have a strong background in one or more of the following areas: ontology engineering, semantic systems, text mining and machine learning.

Fluency in English is expected.

Both positions are in the framework of a project aiming at advancing speech recognition by the integration of (context-dependent) semantic knowledge. The project is ongoing and will continue until April 2010.

Contracts will be for the duration of the project.

Continued employment after the end of the project is possible.

Depending on academic credentials and experience of the candidate, the yearly gross salary will be in the range of EUR 42000 - 54000.

Both positions are to be filled asap.

Please email applications including a CV to Harald Trost.

More information on OFAI's LT Group can be found at ofai.at/research/nlu/

Bangor University

Text/Corpus Ling: Research Project Support Officer, Bangor U

<http://linguistlist.org/issues/20/20-684.html>

Rank: Research Project Support Officer
Posted on: 04-Mar-2009
Deadline: 20-Mar-2009
Ling Field(s): Sociolinguistics
Text/Corpus Linguistics
Language(s):
Employer: Bangor University
Department: ESRC Centre for Research on Bilingualism

Job Description

Two Research Project Support Officers-ESRC Centre for Reserach on Bilingualism Grade 6: £23,449 - £28,839 p.a.

1. Research Project Support Officer (Project on Welsh-English code-switching) A Research Project Support Officers is required for a project funded by the Arts and Humanities Research Council on code-switching and convergence in Welsh, which is being conducted by Professor Margaret Deuchar, Director of the ESRC Centre for Research on Bilingualism. The person appointed will work in the dedicated Centre building alongside other researchers working on related projects.

The intention is to appoint one full-time postdoctoral candidate if possible. However, applications for a part-time post will also be considered, especially from

able candidates with an M.A. or M.Sc. who would be interested in also registering for a Ph.D. The main responsibilities will be to transcribe, code and analyse conversational data and assist with publications on the evaluation of competing models of code-switching. Candidates should be native or near-native speakers of Welsh. They should have a post-graduate degree in linguistics or a closely related subject and should have experience in the transcription and/or analysis of linguistic data. Knowledge of another language such as Spanish could be an advantage. The successful candidate will be expected to start as soon as possible and the position is available until end of August, 2010.

Please quote reference number 09-8/108 when applying.

Closing date: Wednesday 20th March, 2009.

2. Research Project Support Officer (Corpus-based research group) A Research Project Support Officer is required to assist with the research programme being conducted by the corpus-based research group of the ESRC Centre for Research on Bilingualism (see www.bilingualism.bangor.ac.uk). This programme includes the collection, transcription and analysis of Welsh-Spanish bilingual conversational data in Patagonia as well as the transcription and analysis of Spanish-English data which have already been collected.

The position will start as soon as possible and will last for two years in the first instance, with the possibility of renewal. The intention is to appoint a full-time postdoctoral candidate if possible. However, applications for a part-time post will also be considered, especially from able candidates with an M.A. or M.Sc. who would be interested in also registering for a Ph.D. The main responsibilities will be to collect, transcribe, code and analyse conversational data, depending on the appointee's language competence, and to participate in the writing of research papers. The person appointed will be one of eight researchers appointed to the Centre and will work as part of a team.

Candidates should be native or near-native speakers of either Welsh or Spanish, or both. They should have a post-graduate degree in linguistics or a closely related subject and should have experience in the transcription and/or analysis of linguistic data.

Please quote reference number 09-8/114 when applying.

Closing date: Wednesday 25th March, 2009.

Application forms and further particulars should be obtained by contacting Human Resources, Bangor University; tel: (01248) 382926/388132; e-mail: personnel@bangor.ac.uk; web: www.bangor.ac.uk

Informal enquiries can be made by contacting Professor Margaret Deuchar (see contact information below).

BCBL English & Neurolinguistics: Senior Researcher, BCBL

<http://linguistlist.org/issues/20/20-609.html>

Rank: Senior Researcher
 Posted on: 26-Feb-2009
 Deadline: 31-Mar-2009
 Ling Field(s): Neurolinguistics
 Language(s): English
 Employer: BCBL
 Department:

Job Description

The Basque Center on Cognition Brain and Language (San Sebastián, Basque Country, Spain) offers senior research staff positions in several areas: language acquisition, production, multilingualism, neurodegeneration of language, language and learning disorders and advanced methods for cognitive neuroscience. The center promotes a rich research environment without teaching obligations with access to the most advanced behavioral and neuroimaging techniques, including MRI 3 Tesla, a whole-head MEG system, four ERP labs, a TMS lab, an eyetracking lab, and several behavioural labs well equipped, as well as to technical support and research personnel (Ph.D. and postdoctoral students). The senior positions are permanent appointments and most likely involving group leading duties. We are looking for experimental scientists with a background in psycholinguistics and/or cognitive neuroscience neighbor areas for the content areas and physics and/or engineers for the methodological areas. All interested in undertaking research in the fields described in www.bcbl.eu (research).

Candidates should have a strong publication track record. A track record in supervising Ph.D. students would be welcome.

Applications should include:

- (i) a curriculum vitae.
- (ii) a list of publications.
- (iii) two letters of recommendation.
- (iv) examples of published work.
- (v) a cover letter describing research interests.

For more information about the positions and how to apply please check the web page www.bcbl.eu and click on Jobs.

Bielefeld University

Cognitive Science, Psycholing: Post Doc,

Bielefeld University

<http://linguistlist.org/issues/20/20-200.html>

Rank: Post Doc
Posted on: 22-Jan-2009
Deadline: 28-Feb-2009
Ling Field(s): Psycholinguistics
Cognitive Science
Language(s):
Employer: Bielefeld University
Department: CITEC

Job Description

The Center of Excellence 'Cognitive Interaction Technology' (CITEC) at Bielefeld University, Germany conducts interdisciplinary research into understanding the functional processes of cognitive interaction with the goal of replicating them in technical systems, including developing relevant evaluation methodologies and toolkits. For more details, see our website.

Within CITEC, the newly established research group 'Language and Cognition' conducts research on online language processing, also in interaction with other cognitive sub-systems, and is leading a project that explores how humans interact linguistically with one another and with virtual characters. In this context, we are inviting applications for the following position, available immediately:

Postdoc position (TV-L E13) with an initial duration of 2 years with the possibility of extension (ref. 2568). Candidates should have a degree in Cognitive Science, Psychology, (Psycho-) linguistics or a related discipline. Additional programming knowledge would be an asset. Candidates will design and conduct experiments. They will also be responsible for analyzing the results and writing them up for publication.

All candidates should have excellent command of English. Candidates will be affiliated with the CITEC graduate school, with a structured training program that offers support for scientific career advancement and professional orientation.

We welcome applications from severely handicapped people. We particularly welcome applications from women. Given equal suitability, qualifications and professional achievement women will be given preference, unless particular circumstances pertaining to a male applicant predominate. Applicants should submit relevant documents (a cover letter indicating research interests, curriculum vitae including list of publications, and pdfs of two sample publications). In addition, they should arrange for two letters of recommendation to be emailed directly to Pia Knoeferle. Please be sure to specify the reference number of the position.

For more information, please contact: Dr. Pia Knoeferle (see contact information below). Applications will be considered until all positions have been filled. For full consideration please submit applications by the deadline.

Please send applications in PDF Format via email to Dr. Pia Knoeferle, Research Group "Language and Cognition".

Pia Knoeferle
knoeferl@cit-ec.uni-bielefeld.de

Bielefeld University

Cognitive Sci , Psycholing: Post-doc & PhD Student, Bielefeld U

<http://linguistlist.org/issues/20/20-590.html>

Rank: Post Doc, PhD Student
Posted on: 25-Feb-2009
Deadline: Until Filled
Ling Field(s): Psycholinguistics
Cognitive Science
Language(s):
Employer: Bielefeld University
Department: Graduate School Cognitive Interaction Technology

Job Description

The Graduate School Cognitive Interaction Technology at Bielefeld University, Germany offers research grants for Ph.D. students and Postdoc researchers. Deadline for applications is 22 March 2009. Please find the official announcement at CITEC's webpage

(cit-ec.uni-bielefeld.de/index.php?page=open_pos).

Interdisciplinary research topics in the Graduate School cover a wide range of psychological domains, e.g. memory, learning, action control, language and communication, attention, and motion intelligence.

Several labs and methodologies are available within the Cluster of Excellence, such as an embodied agent lab and a biomechanics lab (real-time full-body tracking; cyber glove for manual action recording). An eye tracker and an EEG/ERP lab is also available next to an augmented and a virtual reality environment.

For more information, please visit our webpage. For further informal discussions, contact Dirk Koester

(Neurocognition and Action group; or researchers within CITEC).

Applications should be sent in PDF Format via email to Prof. Thomas Schack, Head of Graduate School. Application email is provided below.

Bowling Green State University

Applied Linguistics, Phonetics: Post Doc, Bowling Green State U

<http://linguistlist.org/issues/20/20-1215.html>

Rank: Post Doc
 Posted on: 31-Mar-2009
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 Phonetics
 Language(s):
 Employer: Bowling Green State University
 Department:

Job Description

Post-doctoral research position in acoustic-phonetic characteristics of speech. Applications are invited for a postdoctoral scientist to conduct research on properties of maternal speech input, particularly acoustic and prosodic factors, and how these factors predict language development in children with and without hearing loss. The researcher will be responsible for conducting acoustic, prosodic, and linguistic analyses of recorded maternal speech to children with normal hearing and/or hearing impaired children with cochlear implants or hearing aids and communicating the research through presentations and papers. The successful candidate will be also responsible for oversight of undergraduate and graduate students working on the project.

The candidate should have background in an area related to auditory perception, ideally speech perception, speech production, and/or acoustics. Relevant areas for the Ph.D. include, but are not limited to, Speech and Hearing Science, Linguistics, Psychology, and/or Cognitive Science. The successful candidate will have excellent organization and communication skills and strong personal motivation. A clinical speech-language background is not necessary, but is a plus. Experience with acoustic analysis of speech segments and/or speech prosody, computer programming skills, and/or experience with and knowledge of hearing impaired populations are helpful. English language proficiency required. Publications in English-language peer-reviewed journals are preferred. USA citizen or permanent resident is preferred.

The researcher will have the opportunity to work with

individuals across a variety of departments (e.g., Psychology, Linguistics, Communication Sciences and Disorders) in a welcoming, active, and interdisciplinary research environment. Research will take place at one of two sites: (1) Michigan State University, East Lansing, MI, and/or (2) Bowling Green State University, Bowling Green, OH. The salary is commensurate with NIH guidelines for post-doctoral researchers. The starting date is negotiable; we anticipate a target start date in the range June 1 through August 16, 2009. The position is contingent on the availability of funding. To apply, please send the following information to Dr. Laura Dilley (dilley@bgsu.edu): (1) detailed CV, (2) abbreviated, 2-page CV in NIH biosketch format (see personal.bgsu.edu/~dilley/nih-biosketch.htm for examples), (3) names and contact information for three references, and (4) brief (1 page or less) statement of research interests and career goals. Review of applications begins immediately; please submit materials as soon as possible. Applications received by April 15 will receive full consideration; applications received later than April 15 will be considered until the position is filled or August 16, 2009, whichever is earlier. Inquiries can be sent to Dr. Laura Dilley (dilley@bgsu.edu), Department of Psychology and Department of Communication Disorders, Bowling Green State University, Bowling Green, OH.

Chinese & Syntax, Semantics: Research Assoc/Consultant, Bradeis U

<http://linguistlist.org/issues/20/20-626.html>

Rank: research associate/consultant
 Posted on: 01-Mar-2009
 Deadline: Until Filled
 Ling Field(s): Semantics
 Syntax
 Lexical Semantics, Natural
 Language Processing
 Language(s): Chinese, Mandarin

Employer: Brandeis University
Department: Department of Computer Science

Job Description

Applications are invited for Research Associate or Linguistics Consultant positions in the Language and Linguistics Lab, Department of Computer Science at Brandeis University to work on a large-scale Chinese language processing project funded by the U.S. Government. The Research Associate or Linguistics Consultant is expected to perform syntactic and semantic analysis on Chinese language data such as newswire, broadcast news, and weblogs. The Research Associate/Linguistics Consultant is expected to initially work on a part-time basis, and if there is mutual interest and upon availability of additional funding, which is expected, the Research Associate/Linguistics Consultant will continue either on a full-time or part-time basis, depending on individual circumstances.

Qualifications:

- Native or near-native level of proficiency in Mandarin Chinese
- M.A. or Ph.D. in linguistics, especially in theoretical syntax and lexical semantics
- Strong interest in language and linguistics, enjoying working with linguistic data
- Comfortable working with computer Operating Systems such as Unix/Linux and windows
- Eligible to work in the U.S..
- Able to commit at least 20 hours/week to the project

Desirable traits/skills

- Living in Boston area or within commuting distance of Brandeis University, Waltham, Massachusetts.
- Programming skills with scripting languages such as Perl and Python. Applications including a CV and the contact information of three references should be sent via email to Prof. Nianwen Xue, Department of Computer Science, Brandeis University.

Brock University English & Applied Linguistics: Other, Brock University

<http://linguistlist.org/issues/20/20-1004.html>

Rank: Instructor/Assistant Professor
Posted on: 20-Mar-2009
Deadline: 01-May-2009
Ling Field(s): Applied Linguistics
Language(s): English
Employer: Brock University
Department: Applied Linguistics

Job Description

Instructional Limited-Term Appointment (ILTA)

The Department of Applied Linguistics at Brock University offers undergraduate majors in Applied Linguistics, Applied Linguistics/TESL, Hearing Sciences and Speech and Language Sciences; the Department also offers a Master of Arts degree program in Applied Linguistics/TESL. Applications are now invited for a 12-month Instructional Limited-Term Appointment, subject to final budgetary approval, to begin officially on July 1, 2009—June, 30, 2010. We seek applicants with successful teaching experience. The successful candidate will teach 8 courses (4 in each semester) in Advanced English as a Subsequent Language for Academic Purposes. Candidates should hold a minimum of an M.A. in Applied Linguistics (with a specialization in EAP), but a Ph.D. in Applied Linguistics (with a specialization in EAP) is preferred. The successful candidate will be expected to teach all 8 courses in Advanced English as a Subsequent Language for Academic Purposes, and participate in the academic and administrative activities of the Department. The appointment will be made at the rank of Lecturer or Assistant Professor, depending on qualifications and experience. Review of applications will commence on May 1st, 2009, and will continue until the position is filled. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Brock University is actively

committed to diversity and the principles of Employment Equity and invites applications from all qualified candidates. Women, Aboriginal peoples, members of visible minorities, and people with disabilities are especially encouraged to apply and to voluntarily self-identify as a member of a designated group as part of their application. Candidates who wish to have their application considered as a member of one or more designated groups should fill out the Self-Identification Form available at

brocku.ca/humanrights/images/selfIdentification.doc, and should include the completed form with their application.

To be given full consideration, interested applicants should send a cover letter and current curriculum vitae, including the full names of three referees, by May 1st, 2009, to Dr. Thomas S.C. Farrell at the address provided below. Please arrange for each letter of recommendation to be sent directly to Dr. Farrell, without awaiting solicitation; to assure that letters are as specific as possible (i.e. related to the ability of the candidate to teach EAP courses), candidates are advised to apprise referees of the nature of the Department and of the advertised position.

Cataphora, Inc.

Computational Linguistics: Linguist /

Senior Linguist, Cataphora

<http://linguistlist.org/issues/19/19-3834.html>

Rank: Linguist / Senior Linguist

Posted on: 12-Dec-2008

Deadline: Until Filled

Ling Field(s): Computational Linguistics
Natural Language Processing

Language(s):

Employer: Cataphora, Inc.

Department: Linguistics

Job Description

Cataphora is a dynamic young company, focused on the analysis of large electronic datasets. We have a core technology, a working product, and a focused team of experienced and passionate software professionals with broad expertise. Our customer base is expanding and we are profitable. We seek individuals with outstanding skills in the analysis of multi-lingual electronic corpora. Relevant areas of training and interest include linguistics, computational linguistics, natural language processing, natural language engineering, artificial intelligence, knowledge engineering, data mining. We are especially interested in individuals comfortable with the techniques and relative merits of both symbolic and statistical approaches. We actively engage in the development of new advances of our core technology and product line and in the application of stable technology to customer needs. In the long run, both are essential to the health of our company. If you are interested in constructing working systems with demonstrated and growing value, we want to hear from you. (It is not our policy to handle relocations; TN visas or H1 visa transfers, however, are conceivable.)

Requirements:

- familiarity with basic search techniques and ontology development
- background in theoretical linguistics, computational linguistics, pragmatics, discourse analysis
- artificial intelligence and their applications to search techniques and

- experience, proficiency, facility in programming
- intellectual curiosity
- appreciation for working with great people in a promising young company Strongly preferred (the more the better!):
- knowledge of other major world languages (in addition to English)
- active programming experience (Java, Python, ...)
- familiarity with large database applications
- strong data visualization design and development skills

To apply, send your resume (as a text file, a Word Doc, or a PDF file) to Dick Oehrle at the application email listed below.

We will be interviewing at the LSA Annual Meeting in San Francisco in January.

Central Intelligence Agency

You can make a world of difference.

National Clandestine Service Careers - Linguists

Are you up to the challenge of achieving our mission abroad? The CIA's National Clandestine Service (NCS) is seeking highly qualified applicants with foreign language and cultural expertise that can make a difference to protect our country's security. NCS Language Officers engage in translation, interpretation and other language-specific functions in support of the intelligence issues of critical importance to US national security. This career track offers rewarding, fast-paced and high-impact challenges.

Applicants must possess a high degree of personal integrity, a love of country, a team-player attitude, strong interpersonal skills and advanced English and foreign language skills. We welcome applicants from various academic and professional backgrounds. All applicants

must successfully undergo several personal interviews, medical and psychological exams, aptitude and language testing, a polygraph interview, and a background investigation. Following entry on duty, candidates will undergo job-specific training. US citizenship required. An equal opportunity employer and a drug-free work force.

For more information and to apply please visit the application website listed below.

City University of Hong Kong English & General Ling: Various Ranks, City U of Hong Kong

<http://linguistlist.org/issues/20/20-761.html>

Rank:
Posted on: 09-Mar-2009
Deadline: 31-May-2009
Ling Field(s): General Linguistics
Nil
Language(s): English
Employer: City University of Hong Kong
Department: Department of Chinese, Translation

and Linguistics

Job Description

In order to fulfill our aspiration of achieving a position of global leadership and regional pre-eminence in research and education in the 21st century, the University is launching a worldwide search for talent of the highest calibre.

Within the next five years, the University will:

- require 200 more scholars across all areas, covering science, engineering, business, social sciences, humanities, law and creative media;

- seek experts to help develop new ventures which address the pressing issues of our time and meet regional demand, including energy, environment, and biomedical and veterinary sciences;

- expand its campus area by 60 percent, including a state-of-the-art Multimedia Building designed by the world-renowned architect, Mr Daniel Libeskind.

City University of Hong Kong is one of eight tertiary institutions funded by the Government of the Hong Kong Special Administrative Region through the University Grants Committee of Hong Kong. The University is committed to nurturing and developing the talents of students and creating applicable knowledge in order to support social and economic advancement. Currently, approximately 20,000 students are enrolled in over 130 programmes ranging from associate degrees to Ph.D. The medium of instruction is English. Applications and nominations are invited for:

Chair Professor/Professor/Associate Professor/Assistant Professor in Linguistics (2 posts; Ref. C/943/09)

Duties: Teach and supervise students at both undergraduate and postgraduate levels, including B.A., M.A., M.Phil. and Ph.D.

Requirements: A Ph.D. in Linguistics or related disciplines. Undertake research and teaching in the areas of Phonology and Forensic Linguistics. The appointee should have a good command of written and spoken English and Chinese, and the ability to work well with colleagues. Candidates with a proven record of

publications or excellent research potential expected. (The successful candidates are expected to assume duty in 2009-2010. Please specify discipline(s) in the application.)

Salary and Conditions of Service

Remuneration package will be highly competitive, commensurate with qualifications and experience. Initial appointment will be made on a fixed-term gratuity-bearing contract. Fringe benefits include leave, medical and dental schemes, housing benefit and passage allowance where applicable. (The remuneration package is currently under review.) Information and Application

Information on the posts and the University is available on our website or from the Human Resources Office (see application address and contact information below). Please send the nomination or application in the form of an application letter enclosing a current curriculum vitae to the Human Resources Office by the deadline. Please quote the reference of the post in the application and on the envelope. The University reserves the right to consider late applications and nominations, and not to fill the positions. Personal data provided by applicants will be used for recruitment and other employment-related purposes.

City University of Hong Kong was ranked among the world's top 150 universities according to The Times Higher Education Supplement 2008 survey.

Concordia Language Villages Arabic, Standard & Lang Acq: Other, Concordia Language Villages

<http://linguistlist.org/issues/19/19-3349.html>

Rank:

Posted on: 03-Nov-2008

Deadline: Until Filled

Ling Field(s): Language Acquisition

Language(s): Arabic, Standard

Employer: Concordia Language Villages

Department:

Job Description

Responsibilities:

The Dean of the Arabic Language Village is responsible for program and curriculum development, staff management and overall administration of one-, two-, and four-week sessions in the summer. The Arabic Language Village summer dean's position is a summer appointment of five weeks plus one week of orientation, in July and August; the site is located near Sandstone, Minn. Attendance is required at Village Leadership Council meetings during the academic year. The Dean of the Arabic Language Village reports to the summer programs director of Concordia Language Villages and to the summer programs administrative team as a whole.

Concordia Language Villages is a program of Concordia College in Moorhead, Minnesota. The summer programs of Concordia Language Villages serve about 6000 young people ages 7-18 from all 50 of the United States and several other countries; families are participants in some summer one-week sessions. Language-centered, cultural immersion instruction is offered in 15 languages.

The contract offer will be extended contingent on the availability of the finalist to work and/or observe in the Villages in early summer 2009, if the finalist is new to Concordia Language Villages.

Criteria for selection:

- Fluency in English and Arabic
- Commitment to the importance of immersion language and culture education

- Knowledge of effective teaching strategies and methodologies for second language learning
- Strong organizational and management skills
- Excellent oral and written communication skills
- Previous leadership position at Concordia Language Villages or in a similar language immersion environment, preferred
- B.A. degree required, with advanced degree preferred
- Minimum age of 25 (American Camp Association Standard)
- Ability to perform the essential functions of the dean position (see job description)
- Ability and willingness to make a several-year commitment, at a minimum, to the dean position (contingent on all parties agreeing to continuation), preferred
- Eligibility to be employed legally in the USA; assume responsibility and costs for any visa requirements
- Residency in United States for at least the first two years of position
- Sympathy with the mission of a liberal arts college affiliated with the Evangelical Lutheran Church in America

Application deadline:

25 November 2008, 10 a.m. CST, or until position is filled

Application process:

Electronically submit letter of application, resume and names of two references to Denise Phillippe, Associate Director, Concordia Language Villages, at the application email provided below.

For job description or questions, contact Sarah Shelton (see contact details below).

Concordia University

English & Applied Linguistics: Asst Prof, Concordia University

<http://linguistlist.org/issues/19/19-3224.html>

Rank: Assistant Professor
 Posted on: 24-Oct-2008
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 TESOL
 Language(s): English
 Employer: Concordia University
 Department: Education, Arts & Science

Job Description

Concordia University - The Department of Education invites applications for one tenure-track position in Applied Linguistics, in the area of language testing and evaluation. The candidate must have a Ph.D., an excellent command of English, and a strong record of publications and conference presentations. In addition to expertise in language testing and evaluation, the candidate should have research and/or teaching experience in at least one of the following areas: teacher supervision, research methodologies, and curriculum development. A functional knowledge of another language is an important asset; this language should be French for candidates who indicate teacher supervision as an area of expertise. The successful candidate will join a dynamic team of researchers and will have the opportunity to make use of Concordia's state of the art language learning research facility.

Subject to budgetary approval, we anticipate filling this position, normally at the rank of Assistant Professor, for July 1, 2009. Please forward all applications and questions to the department contact listed below. Review of applications will begin on November 15, 2008 and will continue until the position is filled. Applications should consist of a letter of intent (addressed to the Chair of the Department of Education, Dr. Richard F. Schmid), a curriculum vitae, copies of recent publications, a

statement of teaching interests, a statement of research achievements and objectives, and three letters of reference.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Concordia University is committed to employment equity.

Deloitte

Applied Ling: Communication Excellence Lead, Deloitte

<http://linguistlist.org/issues/20/20-775.html>

Rank: Communication Excellence Lead
 Posted on: 10-Mar-2009
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 General Linguistics
 Language(s): English
 Employer: Deloitte
 Department:

Job Description

Deloitte LLP has an opening for a Communication Excellence Lead. The purpose of this position is to design, build, enhance and manage a state of the art communication program focused on the improvement of overall communication skills of Deloitte professionals. This program will focus on the basic development of US English skills of non-native English speakers, while simultaneously enhancing professionals' skills in critical thinking, cross-cultural communication and other language skills. This role will include thought leadership in the areas of assessment, diagnostics, design, identification and training of facilitators,

identification of appropriate and state of the art learning aids with the aim of helping Deloitte professionals

upgrade their overall communication competency in our India offices.

Key Responsibilities:

General:

- Provide program leadership that promotes program growth by implementing strategies which maximize the retention and development of our professionals in the area of communication.

- Demonstrate a commitment to establishing/maintaining the CE

(Communication Excellence program) as one of the leading innovative corporate programs in the development of global professionals. Operations:

- Develop, oversee and direct the CE program operations including budgeting, scheduling, staffing, hiring and management of all program curriculum, facilities, tools and initiatives.

Assess and Testing:

- Overseeing and managing an efficient operation of test delivery and all aspects of the assessment process.

- Identifying, reviewing and implementing external recognized testing programs, including establishing and building relationships with vendors.

- Creating of all policy documentation related to the delivery of the tests, including analyzing and creating test reports.

- Implementing and maintaining quality assurance procedures to ensure strict compliance with all regulations/guidelines associated with the development, delivery and assessment of the applicable tests.

Program Curriculum:

- Administer all aspects of the curricular offerings, to include development, implementation, and evaluation of program requirements, modifications, and approvals, as well as course development, review and scheduling. Ensure an effective, professional and responsive program.

Knowledge, Skills & Abilities:

The successful candidate will require excellent

academic qualifications in Applied Linguistics or related field such as English Bilingual Education, Foreign Language Education with special language certifications such as TEFL, TESOL, TOEIC, etc. They must have native-speaker-level proficiency in English. This position will be required to be based in India for 2+ years.

Five or more years of administrative or management experience in an environment which involves planning, budgeting, supervision, curriculum development and community relations.

Educational Testing Service Speech Technology: Research Scientist, ETS

<http://linguistlist.org/issues/19/19-3483.html>

Rank: Research Scientist
Posted on: 14-Nov-2008
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Speech Technology
Language(s):
Employer: Educational Testing Service
Department:

Job Description

Headquartered in Princeton, NJ, ETS is the world's premier educational measurement institution and a leader in educational research. As an innovator in developing achievement and occupational tests for clients in business, education and government, we are determined to advance educational excellence for the communities we serve.

ETS Research & Development has a Research Scientist opening in the Automated Scoring and Natural Language Processing Group. This group conducts research focusing on the development of new capabilities in automated scoring and NLP-based analysis and evaluation systems, which are used to improve assessments, learning tools and test development practices for diverse groups of users that

include K-12 students, college students, English Language Learners and lifelong learners. The Research Scientist position involves applying scientific, technical and software engineering skills to designing and conducting research studies and developing capabilities in support of educational products and services.

Requirements:

Job level to be determined based on qualifications and experience. Associate Research Scientist:

- PhD in Natural Language Processing, Computational Linguistics, Computer Science or Electrical Engineering with a focus on speech technology, particularly speech recognition. Knowledge of linguistics is a plus.

- Demonstrable contributions to new and/or modified theories of speech processing and their implementation in automated systems.

- Practical expertise with speech recognition systems and fluency in at least one major programming language (e.g., Java, Perl, C/C++, Python).

- Experience conducting substantive research and/or experience in developing and deploying speech technology capabilities, preferably in educational environments.

Research Scientist:

- In addition to the above requirements, three years of independent substantive research experience and/or experience in developing and deploying speech technology capabilities, preferably in educational environments.

Interested candidates are invited to visit our Career page on our Web site at www.ets.org and apply directly online for position #65339.

ETS offers competitive salaries, outstanding benefits, a stimulating work environment and attractive growth potential. ETS is an Equal Opportunity, Affirmative Action Employer.

English Language Fellow Program Applied Linguistics: Fellow, English Language Fellow Program

<http://linguistlist.org/issues/20/20-211.html>

Rank: Fellow
Posted on: 23-Jan-2009
Deadline: Until Filled
Ling Field(s): Applied Linguistics
Teaching English as Second or
Foreign Language
Language(s):
Employer: English Language Fellow Program
Department:

Job Description

Rewarding, exciting professional and personal development opportunities in AY 2009-2010.

Several openings in: Chile, Indonesia, Russia, and Turkey and additional projects in approximately 80 other countries worldwide.

Apply online now for an English Language Fellowship sponsored by the U.S. Department of State.

Eligibility requirements:

- U.S. Citizenship*
- Master's degree with a focus in TEFL/TESL
- Degree must be conferred by end of spring term 2009
- Fellows must have a minimum 2 years professional TESL/TEFL experience; both teacher training and curriculum/materials development experience are helpful.
- Senior Fellows must have a minimum four years of teacher training experience; overseas experience preferred.

*U.S. citizenship is a MUST

Fellows serve as full-time ESL/EFL instructors and may be engaged in some teacher training, ESP instruction, curriculum/materials development, test design, assessment, evaluation, programming, summer camps,

and outreach projects.

Senior Fellows serve primarily as teacher trainers and may be engaged in supervision, advising, ESP instruction, curriculum/materials development, test design, assessment, evaluation, programming, research, and outreach projects.

Assignments are for a 10-month period typically beginning in September 2009, following a mandatory 3-day pre-departure orientation conference in Washington, DC. Some projects may begin in October, other begin in early 2010. Project descriptions for AY 2009-2010 will be available on our website in March 2009.

The English Language (EL) Fellow Program fosters mutual understanding between the people of the United States and those of other countries by sending talented, highly qualified U.S. educators in the field of Teaching English to Speakers of Other Languages (TESOL) on ten-month fellowships to overseas academic institutions in all regions of the world. The program promotes English language learning and enhances English teaching capacity abroad. Through U.S. embassy projects, Fellows share their expertise, hone their skills, gain international experience, and learn other cultures. Upon returning to the United States, they share their experiences and acquired knowledge with their communities and professional colleagues.

The EL Fellow Program is funded by the U.S. Department of State, Bureau of Educational and Cultural Affairs. As a program administrator, Georgetown University's Center for International Education and Development is recruiting applicants for approximately 100 positions for the 2009-2010 academic year.

Complete on-line application dossier must contain the following:

- Application
- Résumé
- Two 1-page lesson plans/teacher training modules
- Statement of purpose (not to exceed 500 words)
- Applying fellowship experience (not to exceed 500 words)

- Two current reference letters

- Graduate transcript

Program provisions:

- Stipend: Fellows - \$25,000; Senior Fellows - \$35,000

- Living allowance

- Round trip airfare to the United States to the host country

- Supplemental health benefit plan

- Miscellaneous allowances (shipping, educational materials, program activities, and pre-departure expenses).

For more information about the Program and to apply, please visit our website. The deadline for priority consideration is March 31, 2009; however, applications will be accepted until all positions are filled.

General Ling & Germanic; Romance:

Prof W2/W3, Freie Universität

<http://linguistlist.org/issues/20/20-557.html>

Rank: Professor W2/W3

Posted on: 21-Feb-2009

Deadline: 19-Mar-2009

Ling Field(s): General Linguistics

Morphology, Syntax, Semantics, Pragmatics, Acquisition, Psycholinguistics

Language(s):

Employer: Freie Universität Berlin

Department: Institut für Deutsche und
Niederländische Philolog

Job Description

The Freie Universität Berlin is hiring five Professors (tenured). We are looking for

1) a professor for Modern English (W2/W3)

2) a professor for Romance linguistics (Galloromanistik) (W2/W3) 3) a professor for Romance linguistics (Italoromanistik) (W2)

4) a professor for German linguistics / historical linguistics (W2) 5) a professor for German linguistics / pragmatics (W2)

For the pragmatics position a background in semantics and/or

psycholinguistics is desirable. The area of specialization for the other positions is not fixed. We try to hire a balanced team. In particular we are looking for morphology, semantics, psycholinguistics, language acquisition. We already have people working in syntax and phonology, but outstanding researchers working in these domains are welcome to apply as well, provided they have a focus on the languages mentioned in the official job descriptions.

We are a very open group of linguists at the FU coming from different frameworks like Minimalism, HPSG, and CxG. We are looking for people who want to contribute to our lively discussions and to respective research projects that are planned in the future.

The official announcement can be found here:

fu-berlin.de/service/stellen/prof/

For questions regarding the positions for German linguistics, please contact Stefan Müller. For questions of Romance linguistics, please contact Guido Mensching or Uli Reich.

Questions regarding English should be addressed to one of the persons mentioned above.

 Latin
 Employer: Freie Universität Berlin
 Department: Exzellenzcluster 264 TOPOI

Job Description

3 Postdoctoral Stipends in Language Studies and/or Archaeologists, Egyptologists or Art Historians

Research Group C-I-1 and/or C-II

In Research Area C “Perception and Representation of Space”, Research Group C-I-1 “The Conception of Spaces in Language“ and/or Research Group C-II „Images“ three doctoral or postdoctoral stipends are being offered for Linguists (preferably with an expertise in Ancient Greek and/or Latin) and/or Archaeologists, Egyptologists or Art Historians (specialized in the study of images and visual representation).

The core of Research Group C-I-1 is a graduate group consisting of young scholars who work on the representation of space and spatial configurations in language. At present projects on Akkadian, Egyptian, Hittite, and Hurritic are included. It is expected that the applicants show a strong interest and competence not only in individual language data but also in more general and theoretical aspects of linguistics of space (e.g., diachronic semantics, language typology, Cognitive Linguistics, Psycholinguistics). The successful candidate(s) will conduct research focussing, e.g., on the diachronic analysis of how spatial relations and dimensions are encoded in a particular language or its sub-corpora, how the respective means of expression may be transferred to indicate other (e.g., temporal, social) relations. A project dealing with Ancient Greek in a methodologically

advanced and transdisciplinary perspective will be especially welcome.

Research Group C-II is investigating the representation of space in two-dimensional depictions and covers Greece and Rome from Early Greek to Late Antique times, the Ancient Near East and Pharaonic Egypt. It is linked with Research Group C-I-1 by projects on the interrelationship between linguistic and pictorial representations of spatial configurations in ancient cultures. Candidates who intend to study the specific manners of depicting three-dimensional objects, the emergence and development of perspective drawing or the combination of images and writing in the above mentioned cultures are encouraged to apply.

Requirements:

- a doctoral degree in Greek Philology (with emphasis on linguistics), in Linguistics, in Classical Archaeology, in Egyptology, or in Art History — the grade should be significantly above the average

- Fluency in German or English

- Willingness and ability to collaborate within the respective research group The grants are initially offered for 2 years and can be extended for one additional year. The postdoctoral stipend provides € 1,500 per month. An additional children’s supplement can be granted.

Applicants shall submit a CV, copies of transcripts, a list of publications where applicable, a short description of what they intend to contribute to the respective research group, and the code number. Applications shall be submitted in English or German.

English Ling: Rank Open,
Friedrich-Schiller-Universität Jena

<http://linguistlist.org/issues/20/20-36.html>

Rank: Rank Open
Posted on: 06-Jan-2009
Deadline: Until Filled
Ling Field(s): General Linguistics
English Linguistics
Language(s): English
Employer: Friedrich-Schiller-Universität Jena
Department: English linguistics

Job Description

Applications are invited for a position as a researcher and lecturer in English Linguistics at the Friedrich-Schiller-Universität Jena

(uni-jena.de). The position is available for two years, commencing April 2009. An extension is possible. Successful candidates should hold a degree in English linguistics, comparative linguistics or general linguistics. Expertise in one or more of the following fields is desired: linguistic typology, semantics, methods of data collection (esp. elicitation, questionnaires).

The position will be full-time for candidates holding a Ph.D. and part-time otherwise. The teaching load is two courses per week for full-time employees and one course per week for part-time employees. The salary is according to the German public service pay scale (TV-L, Group E 13). The Friedrich-Schiller-Universität Jena is an equal opportunity employer.

Rank: Chair of Department
Posted on: 28-Oct-2008
Deadline: Until Filled
Ling Field(s): General Linguistics
Writing
Language(s):
Employer: Georgia Southern University
Department: Writing & Linguistics

Job Description

Georgia Southern University's Department of Writing & Linguistics invites applications for Chair of the Department. The Department offers a B.A. with concentrations in Creative Writing, Linguistics, Professional and Technical Communication, and Writing Studies. The Chair, through a 12-month appointment, would help strengthen the first-year writing program and the major, and support departmental initiatives through collaborative and visionary leadership. Chair should demonstrate teaching excellence in first-year composition and one of the concentrations.

The full text advertisement, including information about the department, faculty, and the complete position announcement with all qualifications and application instructions, is available at the website provided above. Screening of applications begins November 14, 2008, and continues until the position is filled.

Georgia Southern seeks to recruit individuals who are committed to excellence in teaching, scholarship, and professional service within the University and beyond and who are committed to working in diverse academic and professional communities.

Applied Linguistics: Asst Prof, Georgia State University

<http://linguistlist.org/issues/19/19-3160.html>

Rank: Assistant Professor
 Posted on: 17-Oct-2008
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 Language(s):
 Employer: Georgia State University
 Department: Applied Linguistics and ESL

Job Description

Georgia State University's Department of Applied Linguistics/ESL is accepting applications for two anticipated tenure-track positions at the assistant professor level. The Department of Applied Linguistics and ESL consists of three interrelated academic programs (B.A., M.A., and Ph.D. in Applied Linguistics), an English as a Second Language (ESL) program that provides instruction for university matriculated ESL students at undergraduate and graduate levels, and a large Intensive English Program (IEP) that provides a comprehensive pre-academic course of study in academic language development for ESL students who wish to matriculate at Georgia State University (GSU) or other post-secondary institutions. Candidates will have a doctorate in Applied Linguistics or a closely related field by the time of the appointment. One position is for a specialist in second language acquisition. Specializations of interest for the other position include L2 reading and the development of second language teachers. The ideal candidates will also have strong background and interest in one or more of the following: syntax and morphology, psycholinguistics, assessment, and quantitative research methods. Successful candidates must demonstrate a coherent research agenda, record of relevant publications, and demonstrated ability to teach undergraduate and/or graduate courses, particularly with applications to second language pedagogy. Preferred candidates will also have experience teaching ESL/EAP and a record of external funding.

Letters of application, a curriculum vitae, copies of research

publications, evidence of teaching effectiveness, and 3 letters of professional recommendation should be sent to the address listed below. Review of the applicants will begin November 4, 2008 but will continue until successful candidates are identified. The preferred starting date is fall semester, 2009. Salary is commensurate with experience.

Atlanta is a multi-cultural urban setting. Georgia State University, a unit of the University System of Georgia, is an Equal Opportunity Educational Institution and an Equal Opportunity, Affirmative Action Employer. For further information about our programs visit the Department's website.

Goethe-University Frankfurt Syntax: Post Doc, Goethe-University Frankfurt

<http://linguistlist.org/issues/20/20-460.html>

Rank: Post Doc
Posted on: 13-Feb-2009
Deadline: 10-Mar-2009
Ling Field(s): Syntax
Language(s):
Employer: Goethe-University Frankfurt
Department: Institute for Cognitive Linguistics

Job Description

The department of Cognitive Linguistics at Goethe University in Frankfurt am Main, Germany, invites applications for a post-doc position in German linguistics at the level of a research fellow, commencing April 1, 2009, at the earliest. The appointment period is three years. The appointment is renewable. The general restrictions of the German

'Wissenschaftszeitvertragsgesetz' and 'Hessisches Hochschulgesetz' apply. Applicants must hold a doctoral degree or an equivalent qualification in linguistics (completed by the start of the appointment) with evidence of strong research potential: speciality generative syntax. The appointed candidate will be expected (a) to participate in the university's self-administration, (b) to teach at least four courses or seminars per year on some topic within the area of German linguistics at the undergraduate level and in the B.A./M.A. program 'Kognitive Linguistik'. Preference will be given to candidates able to teach in German and English. (c) Independent research is possible and desired.

Applicants should submit a c.v., representative samples of their research, and arrange for two letters of recommendation to be sent directly to Prof. Dr. Günther Grewendorf at the address given below.

The salary is determined in accordance with the

'Bundesangestelltentarifvertrag' (BAT) at the level of IIa. All qualified candidates are encouraged to apply. Goethe University Frankfurt is an equal opportunity employer. Women are strongly encouraged to apply. Applications of individuals with disabilities are preferred if equally well qualified.

Gwangju Institute of Science and Technology English & Applied Linguistics: Lecturer, GIST

<http://linguistlist.org/issues/19/19-3908.html>

Rank: Lecturer
Posted on: 19-Dec-2008
Deadline: Until Filled
Ling Field(s): Applied Linguistics
Language(s): English
Employer: Gwangju Institute of Science and
Technology
Department: Center for International Students
and Scholars

Job Description

The Gwangju Institute of Science and Technology (GIST) is a

government-funded graduate school in Gwangju, South

Korea. GIST is currently seeking one or more native speakers of English to teach graduate students (MS/PhD students majoring in science and engineering) starting from January or March, 2009. GIST was established in 1993 by the Korean Ministry of Science and Technology as a government-funded graduate school to produce elite scientists and engineers. All programs (and associated courses) are conducted using English as the language of instruction. All students must publish their MS/PhD theses in English as a requirement of graduation.

I: Required Qualifications:

1. MA in Education, TESOL or related fields including science and engineering (MA/MS or higher required for position).

2. Minimum of 2 years ESL teaching experience in a university setting teaching English conversation, presentation skills, and/or technical writing. 3. Must be a native English speaker from Australia, Canada, Ireland, New Zealand, South Africa, UK, or the USA.

II: Salary and Benefits:

1. Salary ranges from 2,400,000 to 2,700,000 won/month

2. Small class sizes

3. 10 weeks/year of paid vacation

4. Severance bonus (one month's salary)

5. Medical Insurance & National Pension: 50/50 split

6. Furnished apartment on campus with minimal rent.

III: Job Description:

1. 15 hours of instruction with 5 office hours per week during the Spring and Fall terms.

2. Instructors will be required to teach one (1) of the 6-week intensive Winter/Summer sessions at 16 hours per week.

3. Program management, research instructional content, prepare lesson plans, evaluate academic progress, and attend official meetings working with two other instructors.

4. Paid overtime (W30,000 per hour) will be provided for any additional work (W35,000 per hour for proofreading).

5. Applicants should have an ability to cooperate with colleagues as well as a successful record of accomplishment in academic teaching, class management, and student relations at the university level.

6. It should be noted that due to the nature of the program at GIST, this position requires a strong background in academic writing/publishing. 7. Ability to use MS Office suite, Adobe Acrobat, Moodle, and LaTeX is recommended.

IV: Contract Period

1. One year, from March 1, 2009 to February 28, 2010.

2. Annually renewable (no 'year' limits).

V: Required Documents for Application:

1. A copy of your passport.

2. A copy of your alien registration card (if applicable).

3. Cover letter.

4. Curriculum vitae.

5. Copies of your transcripts (all degrees) and diplomas (all degrees) from accredited universities.

6. 2-3 letters of recommendation (at least one from current position). 7. A statement of your teaching philosophy and career objectives. 8. (Optional) A portfolio that shows your teaching objectives and style, and includes sample lessons/materials and a teaching demonstration. * Note that all documents will be checked during the

pre-screening/short-listing process.

VI: Successful applicants will also be required to submit (for E-1 visa): 1. Original diplomas.

2. Two copies of original transcripts (signed/sealed) mailed directly from appropriate universities.

3. Record of criminal background check issued within the last 3 months. 4. A health check.

5. Certified letters that prove your past and present work experience written by respective employers (needed for salary settlement and visa issuance).

Job Description

Linguist - Knowledge Base team

Natural language processing software company, based in Montreal, Canada, seeks a linguist with solid (fluent or native) English skills.

Candidate will be part of an R&D team responsible for architecting, developing and maintaining the one of the world's largest general-domain semantic knowledge base. This involves:

- working with computational linguists and software engineers to research and develop techniques for automatic knowledge extraction and linking of general domain knowledge from unstructured and semi-structured sources

- updating and refining semantic content, managing and editing semantic and lexical hierarchies, and improving ambiguity resolution.

Candidate Qualifications and Characteristics:

Requirements:

- Degree in Linguistics
- Excellent academic record

- Proven ability to work well in teams
- Strong dedication and commitment
- Interest in lexicology
- Broad knowledge of popular/world culture

In addition, the following would be helpful but are not required:

- Experience with semantic disambiguation and semantic relations

- Familiarity with Linux

Compensation:

- Competitive compensation, stock options and full benefits

Starting date:

- Immediate

 Employer: Indiana University Bloomington
 Department: Robert A. & Sandra S. Borns
 Jewish Studies Program

Job Description

The Robert A. and Sandra S. Borns Jewish Studies Program at Indiana University-Bloomington invites applications for a non-tenure track position as a full-time Modern Hebrew Lecturer. The position will begin in the fall of 2009 and is for a 3-year term that is potentially renewable, contingent upon satisfactory performance. Proficiency in native Modern Hebrew is required as well as a minimum baccalaureate degree. Preference will be given to candidates with a post baccalaureate degree in a field related to languages or Modern Hebrew studies, and/or with previous experience in teaching Modern Hebrew to American students at an institution of higher education.

The Lecturer will teach three classes per semester at one or more levels of Modern Hebrew, under the supervision of the Modern Hebrew Program Director, and following the curriculum and texts in use in the Jewish Studies Program. Applications should include a letter of interest spelling out the candidate's language teaching philosophy, objectives and goals, a curriculum vitae, and three letters of recommendation. Applications received by December 1st, 2008 will be assured consideration. Review of applications will continue until the position is filled.

Indiana University is an Equal Opportunity/Affirmative Action Employer that encourages applications from under represented minorities and women.

INSERM

French & Neuropsychology: Post Doc,

INSERM

<http://linguistlist.org/issues/20/20-329.html>

Rank: Post Doc
 Posted on: 02-Feb-2009
 Deadline: Until Filled
 Ling Field(s): Cognitive Science
 Neuropsychology
 Language(s): French
 Employer: INSERM
 Department: Neuroscience

Job Description

A 1-year post-doctoral position is open at the Department of Cognitive Studies (Département d'Etudes Cognitives) of Ecole Normale Supérieure (Paris) to work in the Laboratoire de Sciences Cognitives et

Psycholinguistique (E. Dupoux) and the 'Neuropsychologie interventionnelle' team (AC Bachoud-Lévi), in collaboration with the linguistics group at Institut Jean-Nicod. The post-doc will preferably start in early 2009. The salary will be of approximately 2500 euros/month (net salary of approximately 2080 euros/month).

Our group aims to better understand the role of the striatum in language processing in healthy subjects, but also in patients with Huntington's disease. The successful applicant should be able to collaborate with linguists, neuropsychologists and specialists of brain imaging and ERPs. He or she should impulse a multidisciplinary approach and be a link between basic research and applied research in the domain of language. Thus, the background needed includes linguistics and neuropsychology and/or experimental psychology. In addition, because our subjects and patients speak French, the candidate should be skilled in French. Patients will be seen at the Henri Mondor hospital at Créteil, healthy subjects might be seen in both places (ENS and Henri Mondor)

For full consideration, please send an application and arrange for letters of reference. All materials should be sent to the application e-mail address provided below (letters of reference may be sent in scanned form). The file should include a CV, a brief statement of research

interests, a writing sample, as well as links to papers (or electronic versions thereof). Selection Committee: E. Dupoux, AC Bachoud-Lévi, P. Schlenker

Institute for Dutch Lexicology

Dutch & Comp Ling: Researcher,

Institute for Dutch Lexicology

<http://linguistlist.org/issues/20/20-366.html>

Rank: Researcher
 Posted on: 04-Feb-2009
 Deadline: 22-Feb-2009
 Ling Field(s): Computational Linguistics
 Historical Dutch and English
 language
 Language(s): Dutch
 Employer: Institute for Dutch Lexicology
 Department: Taalbank

Job Description

The Institute for Dutch Lexicology has a vacancy for an experienced computational linguist for the development of Named Entity Processing tools as part of the IMPACT project. IMPACT, started in January 2008, is a European research project in the field of informatics for the humanities, in which 15 national libraries and research institutes from Europe, Israel and Russia are working together. The main objective of IMPACT is to significantly improve access to historical text. To achieve this, the following tasks will be dealt with:

1. Current OCR software is not suitable for mass digitization of historical documents. Within the project, OCR software will be developed that significantly improves the accuracy of state-of-the-art systems, enabling for the first time reliable full-text mass digitization of historical documents.

2. Information in historical documents is not easily

accessed by modern users because of the historical language barrier. Within the project, historical lexica and linguistic processing tools will be developed to enable enriched indexing, thus providing access to historical material with contemporary query techniques.

In order to be effective, the lexica will also have to contain Named Entity data, and tools will have to be developed for NE recognition and NE classification for historical language material.

Tasks:

The computational linguist will be responsible for the development of a toolbox for NE lexicon building and NE lexicon deployment to tackle historical language material to be used for the improvement of OCR of historical texts and for better retrieval on historical text material. The work will imply the implementation as well as the design of relevant algorithms.

Profile:

- relevant background in computational linguistics, computer science or applied mathematics (master level, preferably PhD level)
- sufficient knowledge of and experience with the development and implementation of NLP algorithms, preferably in the field of NE processing
- sufficient experience in developing complex software systems; preferably proficiency in C, C++ and/or Java
- knowledge of Dutch is required, preferably also knowledge of historical Dutch language material

Offer:

An INL contract for two years. The salary is dependent on relevant experience and skills, with a maximum of 4326 Euros, - gross per month (scale 11) on a full-time basis. In addition you will be entitled to 42 days holiday per year plus holiday pay, according to the

cao-Onderzoekinstellingen.

Job Description

Well-established language training company seeks qualified individuals to apply for position in a highly competitive, fast-paced environment as the Director of its Foreign Language Division.

The Director is responsible for recruiting, training, developing and supervising Language and Culture Instructors, who deliver job-related proficiency-based language training at all levels, beginning to advanced, to adult professionals from the US government and private sector. The Director supervises an administrative team

that manages all aspects of running language programs, including business development activities for the company. Candidates must possess professional language training skills in order to direct language training programs and materials development which bring students to high levels of language proficiency in speaking, listening and reading. Candidates must be current in the application of technology to the language learning process and current best practices in the areas of distance learning, classroom and computer-assisted instruction. The Director oversees testing, the design of new courses and/or extensive revisions to existing training courses, as well as monitors and evaluates students' progress in order to ensure that students are meeting their language goals. The Director keeps in close contact with client agencies and promotes the language programs to develop new clients for the company.

We are looking for energetic enthusiastic individuals with the following requirements:

- Masters Degree in Teaching, Linguistics, Education or related field
- Knowledge and skills in foreign language curriculum design, teacher training and classroom pedagogy, and student counseling
- Supervisory and/or management knowledge and/or abilities
- Experience with Federal Government procurement requirements, especially the Department of Defense and GSA schedule
- Experience with project and contract management
- Experience in developing technical and pricing proposals for government and private clients
- Ability to communicate effectively in oral and written English and a foreign language
- Knowledge of educational and training technologies and instructional methodologies
- Experience in teaching language to adult professionals
- Knowledge of proficiency-based language training and testing formats
- Knowledge of ILR skill levels

- Ability to work in a multicultural setting
- Strong interpersonal skills
- Strong leadership qualities

Job Description

Applications are invited to fill one postdoctoral fellowship at the Institute for Scientific Interchange Foundation (ISI) in Turin, Italy. The candidate is expected to work in the stimulating area of quantitative approaches to language dynamics and cognitive science.

A strong interest towards working in a highly interdisciplinary area is an imperative requisite, the object of the postdoc involving issues from different fields such as hard sciences (physics, mathematics and computer science), linguistics, cognitive science and economics. Good modeling abilities and computer programming skills are appreciated, but not mandatory. The selected candidate will be able to design and perform research, and he/she will have the freedom and the charge to help shaping the research lines of the group. Creative and motivated individuals are therefore strongly encouraged to apply, regardless of their specialties.

The ISI Foundation offers a stimulating environment with different groups working in interdisciplinary

research on complex systems. The duration of the fellowship is one year, and it is renewable for a second year. We are able to guarantee competitive salaries.

Applications including a CV, a list of publications, and a description of past research and future research interests, should be sent to Vittorio Loreto (see application email below). Applicants might be later required to arrange for two letters of recommendation.

Applications will be considered upon their reception. Though we do not fix a strict deadline we invite candidates to send their applications by March 15th, 2009.

Ling Field(s): Anthropological Linguistics
Language Description
Language(s):
Employer: James Cook University
Department: The Cairns Institute

Job Description

Postdoctoral Research Fellow in Anthropological Linguistics (Two Positions)

- Ref. No. 9037

Applications are invited for two three year Postdoctoral Research Fellowships in the Cairns Institute to work as part of a team headed by Professor Alexandra Y. Aikhenvald and Professor R.M.W. Dixon, within the framework of their joint project 'World through the prism of language: a cross-linguistic view of genders, noun classes and classifiers'. Applicants must have a doctorate or equivalent qualification, preferably awarded within the last five years. Cases in which the period since the award of the doctorate is in excess of five years may also be considered, as will applications from candidates whose

thesis is currently under examination. Experience of linguistic fieldwork is required and ideally the appointee will have already completed a grammatical description of a language that has not previously been described (not their native language) in terms of basic linguistic theory. A Fellowship will not normally be awarded to an applicant who already holds an appointment within the University. Ideally, we are seeking to make one appointment to work on a language from South America with the other to work on a language from New Guinea. However applicants with primary interest in another area will be considered. The appointees will be required to undertake extensive fieldwork and will produce a comprehensive description of a previously undescribed language.

It is essential that prospective applicants contact Professor Aikhenvald (contact information is provided below).

Employment Type: Appointment will be full-time for a fixed-term from 1 May 2009 to 30 April 2012 subject to a probationary period.

Salary: Academic Level A - \$59,478 - \$63,733 per annum or Academic Level B

- \$67,009 - \$79,289 per annum. Benefits include generous employer superannuation contribution and attractive options for salary packaging. Level of appointment and commencing salary will be in accordance with qualifications and experience.

Applicants must follow the Method of Application procedures (including systematically addressing the Selection Criteria). Further information is available at jcu.edu.au/jobs/ or by contacting the Recruitment Officer, Faculty of Arts, Education and Social Sciences telephone: (07) 4781 6207; e-mail renee.joyce@jcu.edu.au

Korea National University of Education

English & TESOL: Visiting Prof, Korea National U of Education

<http://linguistlist.org/issues/19/19-3776.html>

Rank: Visiting Professor
 Posted on: 09-Dec-2008
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 TESOL, English Writing
 Language(s): English
 Employer: Korea National University of Education
 Department: Department of Education

Job Description

The department of English Education at Korea National University of Education (KNUE) invites two native speakers of English for a non-tenure track full-time visiting professor position, with specialization in TESOL and English writing. KNUE is the nation's leading university for teacher education collectively preparing and educating kindergarten, primary school, and secondary school teachers.

This position requires an M.A. or higher degree in TESOL, English Linguistics, Literature, or a related field. Applicants should have a strong background in teaching English writing. Candidates will teach a combination of 3~5 undergraduate-level writing and conversation courses per semester. The appointment is under renewable one-year contract. Candidates with an interest in the position should send electronic files (MS Word or PDF format only) containing the following to the application e-mail below:

- cover letter including summaries of teaching experience and of research interest
- curriculum vitae
- three writing samples
- scanned images of diploma(s) and transcript(s).

Interviews will take place for short-listed candidates and hard copies of the diploma(s) and transcript(s) and

references will later be requested. Screening of applicants will begin on December 22, 2008 and continue until the position is filled. Earlier applications will be given the highest priority. Successful applicants shall be entitled to use one on-campus staff apartment according to KNUE housing regulations. Further details can be found at knue.ac.kr/ and inquiries about the salary and benefits can be forwarded to hchung@knue.ac.kr.

Leiden University Centre for Linguistics

English & Theoretical Syntax: PhD student, Leiden University

<http://linguistlist.org/issues/20/20-765.html>

Rank: PhD student
Posted on: 09-Mar-2009
Deadline: 03-Apr-2009
Ling Field(s): Syntax
Language(s): English
Employer: Leiden University Centre for Linguistics

Department:

Job Description

The Leiden University Centre for Linguistics (LUCL) announces a Ph.D. position in Theoretical Syntax, within the NWO-funded project Focus and ellipsis (project leader Anikó Lipták). The position is available from 1 September 2009.

The project Focus and ellipsis aims at investigating the syntactic role of focus in the formation of forward and backward ellipsis in languages with different focus-marking strategies. The investigation will address the complete range of ellipsis constructions (sluicing, stripping, (pseudo-) gapping, fragments, verb phrase ellipsis, comparative deletion, noun phrase ellipsis, etc) within generative grammar, specifically the Minimalist framework.

The Ph.D. student's task will be to address the properties of backward ellipsis. The Ph.D. student's project includes the following research goals and areas:

- a) exploring the differences between remnants in backward ellipsis and remnants in forward ellipsis
- b) the role of focus in the formation of backward ellipsis;
- c) the nature of the mechanisms at work in backward ellipsis
- d) building up an empirical database from 6 typologically distinct languages (Hungarian, English, Spanish, and three African languages to be determined);

The full description of the whole project can be found at:

hum.leiden.edu/lucl/research/focus-and-ellipsis.jsp

The Ph.D. candidate will need to:

- attend the one-year Ph.D. program of LUCL
- present research results at international conferences
- help to organize a conference on the project topic
- write articles for international journals

- write a dissertation under the direction of the project supervisors

- collaborate with the principal investigator of the project, dr. Anikó Lipták Candidates should have an M.A. degree in Linguistics with a strong background in syntactic research; fluency in English, affinity with consulting informants and ability to work independently but in close collaboration with the project supervisors.

The successful applicant will be appointed at LUCL for one and a half year and after a positive evaluation, followed by a fixed-term period of two and a half years.

Gross salary will be € 2042,- per month in the first year, gradually rising, also depending upon the evaluation, to € 2612,- per month in the final year conform the Collective Labour Agreement Dutch Universities. The application should include:

- a letter of motivation with a description of the applicant's background and past research
- a curriculum vitae (a complete list of publications)
- M.A. thesis (when not yet available, other representative material)
- a 2-page research proposal about the Ph.D. project "Focus in backward ellipsis"
- names and e-mail addresses of two referees

More information can be obtained from Anikó Lipták (see contact information below).

Please send your application indicating the application number 9-033 to the address below before the deadline. Applicants are encouraged to send an additional electronic copy of the application package.

Parsing

Language(s):
Employer: Logical Properties Inc.
Department:

Job Description

The Company:

Logical Properties is a global leader in the design and delivery of dedicated software systems for the customs compliance and international trade industries. The company's flagship solution, 3CE, is widely recognized as the state-of-the-art for automated commodity classification. Our growth has enabled us to create a new position of Scientific Researcher. Job Description:

The successful candidate will be leading the research of statistical natural language processing algorithms and applications. As an experienced researcher and developer, the candidate has a keen interest in developing real-world software through applied research in the fields of statistical NLP, machine learning and data mining. The candidate will work with a team of computational linguists and software developers and report to the chief software architect.

Job Requirements:

Required Skills

- Extensive knowledge and understanding of Machine Learning applied to Natural Language Processing (NLP), Data Mining, or Text Mining
- Solid background in statistical methods in NLP
- Experience in robust linguistic parsing of user queries

- Experience in building proof of concept systems
- Experience in programming
- Excellent communication and documentation skills

Desired Skills

- 5+ years of industry experience
- Understanding of semantic representations and ontology construction
- Understanding of information retrieval

Benefits:

Logical Properties offers a competitive salary and employee benefits. The company also offers an informal and harmonious work environment, as well as an opportunity to work closely with a team of highly educated, diverse and self-motivated individuals. Above all, the company encourages

communication, and values new ideas and innovation.

Loyola College in Maryland General Ling: Lang Learning Center Manager, Loyola College in ...

<http://linguistlist.org/issues/20/20-1216.html>

Rank: Language Learning Center
Manager
Posted on: 31-Mar-2009
Deadline: Until Filled
Ling Field(s): General Linguistics
Language(s):
Employer: Loyola College in Maryland
Department: Modern Languages & Literatures

Job Description

The Department of Modern Languages & Literatures of Loyola College in Maryland seeks a Language Learning Center Manager. The Manager is responsible for the daily operation of the Language Learning Center including the supervision and training of student workers. The Manager hires, trains, directs, and evaluates the student staff, assists Modern Languages & Literatures faculty in implementing courseware and technology, takes the initiative in investigating and implementing new technologies, develops proposals for the outside funding of larger projects, and teaches two language courses per semester.

The Manager of the Language Learning Center must be both a capable administrator and a knowledgeable technician. The successful candidate will have the organizational skills to support language, culture and literature materials for four major/minor programs as well as a core-language sequence in six languages. He or she will have a knowledge of and experience with computers, satellite transmission, network interfacing, and emerging technologies. An applicant should possess an M.S. or M.A. in Instructional Technology, a modern language other than English, Linguistics,

Foreign-Language Pedagogy, or Education. He or she should also have experience teaching language classes in a modern language.

Loyola College is a dynamic, highly selective, Jesuit Catholic institution in the liberal arts tradition and is organized as a leading independent, comprehensive university in the northeastern United States. Located in a beautiful residential section of Baltimore with Graduate Centers in Timonium and Columbia, Loyola enrolls over 3200 students in its undergraduate programs and 3000 students in its graduate programs. The College welcomes applicants from all backgrounds who can contribute to its educational mission. Loyola is an Equal Opportunity Employer, seeking applications from underrepresented groups. Additional information is available at www.loyola.edu and

www.loyola.edu/academics/alldepartments/modernlanguages/index.html

. Review of applications will begin April 1, 2009, and will continue until position is filled. Applicants must submit the following materials online: letter of application, curriculum vita, evidence of excellence in teaching, and a statement of teaching philosophy. Three letters of

recommendation should be sent to Natalie Rock, Administrative Assistant, Department of Modern Languages & Literatures, Loyola College in Maryland, 4501 N. Charles St., Baltimore, MD 21210.

Language(s): English
Employer: Lund University
Department: Centre for Languages and Literature

Job Description

Lund University invites applications for the post of Professor of English, especially the English Language. The post is a permanent appointment at the Centre for Languages and Literature.

The Professor will be expected to carry out research in his/her own specialist field/s, lead and develop the doctoral programme in the English language, and supervise doctoral and master's students as well as students at advanced levels of undergraduate studies. In addition, the person appointed will be expected to teach courses for doctoral students and advanced courses at the undergraduate level. He/she will also be expected to participate actively in the development and planning of courses in the subject. Some administrative duties may be involved. The successful candidate will be expected to participate actively in the research and research environments at the Centre for Languages and Literature, and also in interdisciplinary and cross-faculty initiatives. He/she will also be expected to represent the discipline both nationally and internationally. This will involve the

establishment and maintenance of scholarly contacts, as well as cooperation with other subjects and research teams and other departments and institutions of higher education,

both nationally and internationally. The Professor will also be expected to initiate and run projects that are externally financed.

Deadline: 08-Mar-2009
Ling Field(s): Computational Linguistics
Dialog Management, Utterance
Interpretation

Language(s):
Employer: Macquarie University
Department: Centre for Language Technology

Job Description

Macquarie University is a member of a consortium of Australian universities that has been awarded a prestigious A\$3.4M ARC/NHMRC 'Thinking Systems' grant to develop a 'thinking head' - a breakthrough system that can learn from humans and will lead to advances in everything from hearing aids to mobile phones and video games. The consortium, led by the University of Western Sydney, also includes Flinders University and the University of Canberra, with international input from the Technical University of Denmark and the University of Berlin.

The successful applicant will be responsible for spoken language utterance interpretation aspects of the project at Macquarie's Centre for Language Technology, and will contribute to the development of the general framework and the design, implementation and integration of various parts of the project. Reporting to Professor Robert Dale, you will work closely with the interdisciplinary team of engineers, computer scientists and psychologists spread across the project sites. Applicants should indicate the level at which they are applying or whether they wish to be considered at both levels. Enquiries: clt.mq.edu.au/thinkinghead or Professor Robert Dale (see contact information below)

The position is available on a full-time (fixed-term) basis for a period of two years and subject to probationary conditions. Selection criteria must be addressed in the application.

Package (Level A): From \$59,694 pa, including base salary from \$50,442 to \$68,224 pa, 17% employer's superannuation and annual leave loading. An appointee with a Ph.D. will be appointed to a minimum of Step 6 on the salary scale, currently \$63,601 pa.

Package (Level B): From \$84,949 pa, including base salary \$71,783 to \$85,121 pa, 17% employer's superannuation and annual leave loading. Applications must be made via the University's online position application system (see application URL below); look for job reference 20860.

Deadline: 15-May-2009
Ling Field(s): Computational Linguistics
Historical Linguistics
Typology
Anthropological Linguistics
Genetic Classification
Language(s):
Employer: Max Planck Institute for
Psycholinguistics
Department: Evolutionary Processes in
Language and Culture

Job Description

A Ph.D. Position is available in the Max Planck Research Group: 'Evolutionary Processes in Language and Culture' at the Max Planck Institute for Psycholinguistics in Nijmegen, The Netherlands. The research group 'Evolutionary Processes in Language and Culture' is a small, independent group funded by the Max Planck Society to investigate structural variation in language and culture from an evolutionary perspective. We seek a talented and motivated student to carry out a mutually agreed research project in an area complementary to the interests of the group.

The Ph.D. project will involve investigation of the determinants of variation in one or more large language families, e.g. Austronesian, Bantu and/or Indo-European (other families/regions can be considered on the basis of data access). The precise nature of the project will be agreed in collaboration with the successful candidate, but we envisage that it will be interdisciplinary in orientation, encompassing some of the following areas: Linguistic Typology, Social Anthropology, Evolutionary Anthropology, Historical Linguistics, Phylogenetics.

The successful candidate will have access to the

research group databases, and will have the opportunity to participate in group projects. Technical skills in computing (esp. sql, python, R) and statistics would be advantageous. The Max Planck Institute for Psycholinguistics is a vibrant research environment in a charming university town. Nijmegen is situated 1.5 hours from Amsterdam, and has easy access to Belgium and Germany.

The Ph.D. position is funded for 3 years (2 year initial contract with a 1 year extension). The research group provides fully equipped research facilities, technical support and research assistance, as well as a generous conference and travel budget, and support for possible fieldwork. The Max Planck Society is an equal opportunity employer. The business of the institute is conducted in English.

Applicants should send their CV, a short statement of research interests, a sample of their writing, and the names and e-mail addresses of at least two potential referees to the address provided below, and an electronic version (pdf preferred) to Michael Dunn (michael.dunn@mpi.nl). Further enquiries may be sent by email.

 Syntax

Language(s):
 Employer: McMaster University
 Department: Linguistics and Languages

Job Description

The Department of Linguistics and Languages at McMaster University invites applications for a two year Contractually Limited Appointment in Linguistics, at the rank of Assistant Professor. The successful candidate will hold a Ph.D. in linguistics, with specialization in Syntax. The ability to teach a foreign language or a secondary specialization in one of the following areas is desirable: semantics, computational linguistics, or applied linguistics. Applicants should have a strong background in linguistic theory, demonstrated teaching ability, and be willing to participate fully in departmental research and teaching.

The Department of Linguistics and Languages presently offers undergraduate degrees (Honours) in Linguistics and Linguistic Cognitive Science, and is the home of a new interdisciplinary graduate program (M.Sc./Ph.D.) in the Cognitive Science of Language.

The starting date for the appointment is July 1, 2009. Starting salary will be based on experience and qualifications. Applications, including curriculum vitae, transcripts, samples of publications, and letters from three academic referees should be addressed to: Dr. John Connolly, Chair, Selection Committee, at the address provided below. Applications received by May 29, 2009 will be assured of consideration.

For further information on the Department of Linguistics and Languages, please see our website.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. McMaster University is strongly committed to employment equity within its community, and to recruiting a diverse faculty and staff. The University encourages applications from all qualified candidates, including women, members of visible minorities, Aboriginal persons, members of sexual minorities, and persons with disabilities.

Job Description

The Department of Linguistics and Languages at McMaster University invites applications for a three year Contractually Limited Appointment in Linguistics, at the rank of Assistant Professor. The successful candidate will hold a Ph.D. in Linguistics with specialization in Phonetics or Speech Science. The ability to teach a foreign language or a secondary specialization in one of the following areas is desirable: speech technology, communication disorders, or neurolinguistics. Applicants should have a strong background in acoustic phonetics, demonstrated teaching ability, and be willing to participate fully in departmental research and teaching.

The Department of Linguistics and Languages presently offers undergraduate degrees (Honours) in Linguistics and Linguistic Cognitive Science, and is the home of a new interdisciplinary graduate program (M.Sc./Ph.D.) in the Cognitive Science of Language

The starting date for the appointment is July 1, 2009. Starting salary will be based on experience and qualifications. Applications, including curriculum vitae, transcripts, samples of publications, and letters from three academic referees should be addressed to: Dr. John Connolly, Chair, Selection Committee, at the address provided below. Applications received by May 29, 2009 will be assured of consideration.

Deadline: Until Filled
Ling Field(s): Psycholinguistics
Language(s):
Employer: Michigan State University
Department: Linguistics & Languages

Job Description

The Department of Linguistics and Germanic, Slavic, Asian and African Languages at Michigan State University seeks to fill a tenure-track appointment in Psycholinguistics at the Assistant Professor level to begin on August 16, 2009.

Ph.D. in Linguistics, Psychology, or a closely related field required by time of appointment. Candidates should be able to demonstrate the relevance of their research interests to other areas of linguistics, such as syntax, phonology, formal semantics, language acquisition, neurolinguistics or sociolinguistics. We especially welcome candidates whose research is crosslinguistic in nature. We seek a person who will be active in graduate teaching and who also has a strong commitment to undergraduate teaching. This position will complement strengths in formal linguistics and psycholinguistics in the Linguistic Program. The successful candidate should have a record of publication and/or presentations and expertise in language processing (comprehension or production). We welcome applicants who can contribute to collaborative research and teaching across subdisciplines within linguistics and to interdisciplinary research in Cognitive Science. The successful candidate will also be expected to develop a research agenda for which external funding can be sought. Review of applications will begin on December 1, 2008 and will continue until the position is filled. Email questions to Alan Munn at the email address provided below. Send letters of application describing research and teaching interests, vita, three letters of recommendation to: David Prestel at the address provided below. Applicants who are not U.S. citizens or permanent residents must provide documentation

evidencing employment authorization in the U.S.

Deadline: Until Filled
Ling Field(s): Computational Linguistics
General Linguistics
Language(s):
Employer: Microsoft
Department:

Job Description

Microsoft European Product Development Centre

Information Worker Division

A Requirement exists for a current degree or post-grad student to secure an internship within Microsoft Ireland in Dublin.

Role: Computational Linguist

Start: July 2009

Duration: 12 Months

Ref: TEC05

Summary

Would you like the opportunity to contribute to Microsoft language technology development? Are you interested in machine translation, controlled language, computational lexicography and morphology or contextual spelling correction? If so we'd like you to join our Ireland teams working on Microsoft word-leading proofing tools, machine translation solutions, and more.

The Language Technology Team is a member of Information Worker division of Microsoft responsible for providing proofing tools to several Microsoft applications including the 2007 Microsoft® Office system. They source, license, test and release over 70 different languages, everything from established European languages such as French and Spanish to minority languages such as Maori and Zulu!

This team is looking for interns that will help develop and test linguistic quality metrics and evaluation tools for spellers, grammars, thesauri and autocorrect lists and potentially also on controlled language and translation memory solutions and machine translation systems. The successful candidate will also help test the quality of new spellers for the Local Language Program which promotes minority languages through technology. If you have a passion for language and technology, this is an ideal opportunity to gain experience in the world of computational linguistics.

We also have a position available focused on language technology integration in the translation process. Here we look at integrating recycling and translation memory with machine translation and post-editing. Responsibilities:

- Understand internal linguistic metrics methodologies for all Proofing Tools (Speller, Thesaurus, Hyphenator, Grammar, Autocorrect lists, Wordbreakers and Stemmers).

- Define linguistic quality bars; developing linguistic quality strategy, and/or metrics for all languages of Proofing Tools that can easily be used to verify the linguistic quality of the Proofing Tools.

- Work on development of linguistic test tools

- Ancillary functional testing of proofing tools may be required

- Work alongside linguistic vendors and team in US to determine the quality of the Proofing Tools

- Help to ship Proofing Tools in over 70 languages for next version of Office

- Work on Machine translation, translation memory and controlled language integration, validation and testing.

Requirements:

- Current student of linguistics or computer science with an interest in natural language processing or computational linguistics

- Good communication skills are a must, both written and verbal

- Some knowledge of any of the following languages, either C#, Java, Visual Basic.Net or C++ would be advantageous

- Fluency of a foreign language would be advantageous but not essential

- Passion for Technology

- Drive for results

- Interpersonal Awareness

- Passion for problem solving

- Ability to deal with ambiguity

If you are interested in learning more about this job, please contact colinla@microsoft.com or dags@microsoft.com to learn more about this exciting job opportunity by finding out in more detail what the job entails and the team that you would be working in.

Middlebury College

Arabic, Standard & Teaching Arabic:

Teacher, Middlebury College

<http://linguistlist.org/issues/20/20-247.html>

Rank: Teacher

Posted on: 26-Jan-2009

Deadline: Until Filled

Ling Field(s): Applied Linguistics

Arabic Language Teacher

Language(s): Arabic, Standard

Employer: Middlebury College

Department: MMLA

Job Description

Middlebury-Monterey Language Academy (MMLA) Summer Language Immersion Program is now accepting applications at our Vermont location for Arabic Teachers.

About our program: Teachers are part of a community that creates an intensive four-week immersion program for middle and high school students each summer. Located on two college campuses, MMLA offers students the opportunity to study Arabic, Mandarin Chinese, French or Spanish with skilled language educators. Teachers teach grammar, language, literature and culture through a hands-on experiential approach. All courses and daily events are taught in the target language and a typical teacher will teach a grammar based course and a project based course, as well as participate in afternoon and evening activities, unless scheduled for time off. MMLA follows the traditions and success of the Middlebury College immersion programs and the Monterey Institute of International Studies curriculum development expertise. Teachers are expected to participate in most formal and informal events, and many will live in close proximity to students. This allows students to learn the language by interacting in different contexts and through diverse experiences. Whatever students are involved in, so are teachers. This ensures that every moment is a learning moment and, most importantly, that every child is safe, both physically and emotionally. All staff and students adopt the Middlebury Language Pledge, modified as needed for the student age group and language level, so that a full-immersion environment is created.

Arabic Teachers should command a high degree of spoken and written proficiency in Arabic, they should

have experienced working with middle or high school students, and should have the ability and flexibility to work as part of a team. This is a residential position. All employees will be provided room and board and will have scheduled time off each day and week. All employees pay for their travel to and from program locations. Housing is not provided for family members of faculty.

Program duration: June 22 - July 27, 2009

For more information about the program visit our website (provided above). To view complete job descriptions and to apply on-line via the Middlebury College website, please visit the application website. Please call Human Resources for assistance (see contact information below).

Job Description

Language Instructor

Summer Intensive Language Program

2009 Program Dates: June 18-August 6, 2009

Definition:

The Summer Intensive Language Program (SILP) provides beginning, intermediate level, and some advanced language instruction in an intensive format to approximately 150 undergraduate and graduate students as well as professionals for 8 weeks every summer.

Under supervision of the Language Program Coordinator and the SILP Director, language instructors provide intensive instruction through a communicative approach to language teaching using authentic contexts, assessments and materials for the Summer Intensive Language Program.

Essential duties/Responsibilities:

- Teaches assigned language and level half or full-time
- Collaborates with the language program coordinator, other instructors and teaching assistant/activity guide to provide integration between curricular and extra-curricular programming as well as cultural relevance
- Prepares comprehensive syllabus including course description, course goals and objectives, assessment guidelines for students as well as required class material(s)
- Prepares classes and provides instruction focusing on communicative language teaching and the use of authentic materials
- Adjusts intensity of program as needed in collaboration with language program coordinator and SILP director
- Keeps track of student progress by regularly implementing assessment mechanisms and completing grade reports as requested
- Attends pre-program (June 17) and end of program (August 6) meetings
- Participates in first-day student orientation and placement testing Employment Standards:

Education/Experience

- M.A. or Ph.D. in language, language teaching or related field preferred

- 2+ years of previous language teaching experience

- Native or near-native language ability

- Previous experience teaching in intensive program preferred

Skills/Abilities/Knowledge

- Excellent teaching and interpersonal communication skills

- Familiarity with communicative teaching practices and use of authentic materials to teach foreign language

- Proven dedication to excellence in language teaching

- Willingness and ability to become acquainted and comply with SILP processes and regulations as well as Institute policies.

Physical Requirements/Environment

- The Monterey Institute maintains a smoke-free/drug-free workplace
Required Application Materials:

- Curriculum Vitae and cover letter detailing all relevant teaching and language experience, a brief description of your teaching philosophy, and your interest in the position

- Two letters of recommendation from previous teaching experience (evaluations are not required but would be appreciated)

- Video demo of teaching demonstrating your teaching approach

Ref. No.: 3222

Job Description:

The Graduate School of Language and Linguistics Studies (GSLEL) is looking to hire a full-time, visiting faculty appointment in TESOL/TFL for one academic year August 2009 to May 2010.

Responsibilities:

- Teach up to 12 weekly contact hours per semester

- Hold weekly office hours

- Attend monthly faculty meetings

- Participate in evaluation of M.A. Program Portfolios (submitted twice per semester)

Requirements:

Minimum Requirements

- Ed.D. or Ph.D. in Applied Linguistics or TESOL (ABD considered)
- Experience in teaching graduate courses for TESOL and Foreign Language (FL) teachers
- Experience in teaching various graduate level courses in applied linguistics, including research methods, assessment, and SLA
- Proven record of teaching excellence in teaching as demonstrated in supervisor and peer observations, student evaluations, original materials, etc.
- Ability to collaborate effectively as a team member
- Ability to work with graduate students from varied linguistic, educational, and experiential backgrounds

Desirable Qualifications

- Record of presentations and publications
- Willingness to participate in curriculum innovation

Additional Information:

Please submit application online and the following materials:

- Current CV
- Letter of interest specifying particular suitability for the position
- Names and full contact information for three references
- Student evaluations from applied linguistics courses for TESOL and FL teachers.

Motorola Computational Linguistics: Researcher, Motorola

<http://linguistlist.org/issues/19/19-3179.html>

Rank: Researcher
Posted on: 20-Oct-2008
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Language(s):
Employer: Motorola
Department: Applied Research and Technology Center

Job Description

Motorola's Applied Research and Technology Center currently has two NLP research positions:

Basic Qualifications:

Basic qualifications include a Master's Degree plus additional experience in Computer Science; Computer Engineering; Electrical Engineering; Electrical and Computer Engineering; Computational Linguistics; or Linguistics. Please see the job listings at the application URL listed below for the full set of qualifications required.

Department Description:

The Text Analysis and Processing Lab is part of Motorola's Applied Research and Technology Center (ARTC), where Motorola researchers study the interaction of people, devices, content, services, and environments.

Scope of Responsibilities/Expectations:

The candidate's areas of specialization should include natural language processing, machine learning, or information retrieval. The candidate will be involved in projects employing advanced aspects of natural language processing, which may include machine learning and statistical approaches to natural language processing in projects related to information retrieval, information extraction, summarization, content matching and recommendation, topic identification, machine translation,

or statistical modeling. These projects will typically involve the use of high-level linguistic or semantic abstractions. The successful candidate will become part of

the Text Analysis and Processing Lab, which is part of a combined team within Motorola's Applied Research and Technology Center focusing on the advanced research and processing of textual, audio, and video streams. Specific Knowledge/Skills:

Experience in natural language processing required. Experience in machine learning strongly desired. Candidate should have good statistical NLP grounding. C++, Java, or Python experience a plus.

Mountain View Start-Up Environment Taxonomies, NLP: Knowledge Base Engineer, Mountain View Start-Up

<http://linguistlist.org/issues/19/19-3244.html>

Rank: Knowledge Base Engineer
Posted on: 24-Oct-2008
Deadline: Until Filled
Ling Field(s): Computational Linguistics
General Linguistics
Taxonomies, Knowledge Base
Language(s):
Employer: Mountain View Start-Up
Environment
Department:

Job Description

We are seeking a talented Knowledge Base Engineer to help us build, expand and refine taxonomies that serve as the basis of an intelligent search engine that matches jobs and candidates.

If you are interested in natural language and are trained in linguistics or related field, if you like to research and organize new information, and would enjoy learning more about the wide range of jobs that exist in the world, then this might be the job for you.

Essential functions:

The ideal candidate will successfully build, enhance, test, and maintain in-house taxonomies, and assist with other areas of the development process. Specifically:

- Proactively identify and develop concepts and terms for new industries or functional areas based on:

- *Data from in-house text analysis tools
- *Supporting research of secondary source materials
- *Consultation with Subject Matter Experts

- Refine and improve existing definitions in the Knowledge Base

- Contribute to job and resume test suites

- Troubleshoot, fix, verify, and document reported matching problems

- Maintain accurate, current records in our bug tracking system and documentation archives

Qualifications:

Educational background:

- Minimum BA/BS and well-rounded education
- Linguistic training and practical experience, especially in the fields of syntax, semantics, pragmatics, lexicography
- Strong language skills, with foreign language ability a big plus
- Some familiarity with computational linguistics, natural language processing, or text retrieval would be

useful

Relevant skills and experience:

- Experience building or working with taxonomies or ontologies highly desirable
- Interest in exploring, understanding and organizing data from fields outside your current areas of expertise
- Strong logical, analytical, organizational abilities with a high level of common sense and excellent follow-through
- Self-motivated, energetic, good attention to detail, fast learner
- Some programming experience and use of scripting tools in a Unix/Linux environment
- Commitment to meeting deadlines

This position is located in Mountain View, CA, in a small start-up environment.

NetBase Solutions, Inc. Computational Linguistics: Product Manager, NetBase Solutions

<http://linguistlist.org/issues/20/20-269.html>

Rank: Product Manager
Posted on: 28-Jan-2009
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Language(s): None
Employer: NetBase Solutions, Inc.
Department: Product Management

Job Description

NetBase, a well-funded, fast growing company with an impressive roster of top-tier Fortune 500 companies, seeks to grow its team with a creative, process-oriented product manager.

NetBase's ground-breaking solution combines search and text analytics technologies to help business users answer complex questions faster, more accurately, and with greater confidence by finding and extracting answers from the Internet and subscription content.

We are looking for a product manager who has led the product development process from early conception through engaging customers in visioning, prototyping, validating, and launching a product. Candidates should also have had experience in shaping a product through multiple stages of the life cycle.

Qualifications:

- 2-5 years work experience in product management
- Experience taking a product from concept to commercial availability
- Experience interfacing and managing customer and partner relationships
- Demonstrated ability to establish and run processes
- Outstanding communication, teamwork skills, and enthusiasm
- Experience in Agile development methodology (rapid iteration, screen mock-ups, story writing, etc.)
- High degree of integrity, passion, drive, flexibility and a self-starter
- Bachelors degree or higher, preferably in Computer Science

- A background in professional services, software development, or business development a strong plus

Other Desired Qualifications:

- Experience with semantic technology, computational linguistics, natural language processing (NLP), text analytics, Internet search technology, etc. Salary will be commensurate with experience.

Authorization to work in the US and relocation are required.

To apply: Please submit a resume and cover letter via email with the subject of 'Product Manager'.

Job Description

NetBase, a well-funded, fast growing company with an impressive roster of top-tier Fortune 500 companies, seeks to grow its team with a hands-on machine learning specialist. This is an exciting opportunity to be part of a growing and dynamic team that is committed to delivering the very best to our customers. Acceleration has great potential with an already sizable and enviable customer roster.

NetBase's ground-breaking solution combines search and text analytics technologies to help business users answer complex questions faster, more accurately, and with greater confidence by finding and extracting answers from the Internet and subscription content.

The Machine Learning Specialist role involves clustering/classification, topic identification, named entity tagging, lexicon acquisition and pattern identification from large corporations. The ideal candidate will have a PhD degree in Computer Science or related field with experience in natural language processing, computational linguistics, or information

retrieval/extraction. Strong programming skills are required. At least two years of experience working with real life NL systems is required. A strong research record is a plus. We look for people who are flexible (required in a startup), learn quickly, and love getting into the details.

Applications from candidates who are eligible to work in US will be immediately processed.

Other applications may be processed later. Salary will

be commensurate with education and experience.

Relocation is required.

To apply: Please submit a resume and cover letter via email to the application email address listed below with the subject of 'Machine Learning Specialist'.

Job Description

Postdoctoral Position in Computational Linguistics

'Language and Political Behavior' Northwestern University

Pending availability of funding, the Analytical Crisis and Reputation Management group at Northwestern University is seeking to fill a postdoctoral research position for the project 'Language and Political Behavior.' This project brings together researchers from the Departments of Linguistics and Managerial Economics and Decision Sciences as part of the Northwestern Institute in Complex Systems (NICO). Its goal is to analyze written and spoken text in business and politics in order to detect and trace issues and opinions, tonality of documents, and to explore the relationship between linguistic output and voting patterns, interest group positioning and survey data. The project also explores applications to political and reputational risk

management.

Candidates should hold a doctoral degree in Linguistics, Computer Science, or a related area. Requirements include: (i) a solid theoretical background and practical experience in quantitative methods in computational linguistics and/or information retrieval; (ii) excellent programming skills; and (iii) a strong motivation and proven ability to work and publish collaboratively.

The position is available immediately. The initial appointment will be for 12 months, with the possibility of extension by another 12 months, subject to performance and availability of funding. Financial compensation will be competitive and commensurate with the candidate's qualification. Applicants should arrange for two letters of reference to be sent directly to the same address. For full consideration, application materials including letters should arrive no later than January 31, 2009. For further information, contact Stefan Kaufmann at kaufmann@northwestern.edu. Northwestern University is an Equal Opportunity/Affirmative Action Employer, and applications from minority and women candidates are especially welcome. Hiring is contingent upon eligibility to work in the United States.

Rank: Associate Professor

Posted on: 27-Mar-2009

Deadline: 16-Apr-2009

Ling Field(s): General Linguistics

Modern English Language

Language(s): English

Employer: Nottingham University

Department: Division of English Studies

Job Description

Associate Professor in Modern English Language and Head of the Division of English Studies

Applications are invited for the above post in the Division of English Studies based at the University of Nottingham Ningbo, China. The newly established Division was founded in 2007, developing a range of Master's and B.A. programmes in the areas of applied linguistics, stylistics, discourse studies, modern literary studies, and language policy for higher education, EAP, and spoken English. The successful candidate will provide academic leadership and effective management for the Division of English Studies and the Centre for Research in Applied Linguistics.

Candidates must have a Ph.D. in a relevant discipline, an established track record in research, strong record of publication and attracting research funding and experience of teaching in relevant subjects at undergraduate and postgraduate level in an international English-speaking institution. Salary will be within the range £46,278 - £55,259 per annum; depending on qualifications and experience (salary can progress to £65,695 per annum, subject to performance). The post will be offered on a fixed-term contract with the University of Nottingham, Ningbo, China for a period of five years with effect from 1 September 2009, with the possibility of renewal. Informal enquiries regarding this vacancy may be addressed to:

Nuance Communications Gen Ling/Phonetics: Acoustic Data Creator/Administrator, Nuance

<http://linguistlist.org/issues/19/19-3575.html>

Rank: Acoustic Data Creator &
Administrator

Posted on: 18-Nov-2008

Deadline: Until Filled

Ling Field(s): General Linguistics
Phonetics

Language(s):

Employer: Nuance Communications

Department: Linguistics

Job Description

The Acoustic Data Creator & Administrator will work in a team responsible for delivery of linguistic resources that will be used in speech and language technology.

He or she will report to the Linguistic Resources Manager.

The person will work on a temporary basis and based in the Nuance Communications International offices, in Merelbeke (near Ghent). 2. Tasks and responsibilities:

The Acoustic Data Creator & Administrator is responsible for creation, description, administration, quality control, follow-up, support and maintenance of acoustic databases and their overviews. These acoustic databases are to be used for further speech technology development at different locations in Nuance worldwide. All of the acoustic data creation and administration efforts will be done considering the optimal cost, quality and planning requirements.

He or she will be responsible for:

- preparation, execution and follow-up of the data creation tasks,
- assuring the quality of the recorded speech by performing repeated checks in every step of the process,
- execution and follow-up of the sub tasks : recruiting, scheduling, recording, annotation
- executing quality control and feedback,
- set-up and testing of the recording scenario and the recording hardware,
- annotation of recorded data according to specifications and in a highly consistent manner,
- gathering all required inputs for documenting the speech database,
- reporting about progress, status, quality, cost etc. ,
- formulating, documenting and implementing agreed proposals about improving the scenario and procedures used,

- training and follow up of junior colleagues,
- support to partners involved in recording and annotation operations,
- all administration and classification related to the acoustic data,
- registering, labeling and producing the required archive and delivery copies,
- keeping library and catalogue databases up to date,
- quality assessment of acoustic data copies and descriptions,
- follow-up on acoustic data completeness and acceptance,
- reporting about progress and quality of the descriptions,
- classifications etc.,
- producing overviews to document work status, progress and planning,
- formulating proposals about improving working methods and concepts,
- feedback and support to local team(s) involved in acoustic data,
- documenting acoustic data using a description template.

3. Qualifications and profile:

- Have a positive and responsible attitude and likes to do field work, also abroad,
- Able to work independently and under stress,
- Have good communication skills,
- Experience in application of computer software and tools in Windows environment,
- Able to work accurately in a consistent manner,
- Good working knowledge of English,
- Have a logic and structured, problem solving

approach.

4. Education:

- At least two years of post high school education,
- Background in linguistics is a plus,
- Additional course for an area of interest: additional language, phonetics, linguistics.

Rank: Programmer
 Posted on: 15-Jan-2009
 Deadline: Until Filled
 Ling Field(s): Computational Linguistics
 Text Mining
 Language(s):
 Employer: PricewaterhouseCoopers
 Department:

Job Description

The PwC Center for Advanced Research (CAR) seeks an outstanding research programmer with extensive experience in text mining, summarization and feature extraction for a groundbreaking R&D project. CAR is a technology research and development organization charged with creating competitive advantage for PricewaterhouseCoopers by applying advanced technology and thinking to important practice problems. Located in the heart of Silicon Valley in the San Jose office, CAR thrives in a unique, collaborative, high performance environment with researchers, scientists and subject matter experts from all over the globe. We recruit self-motivated people who have a passion for innovation and changing the established order.

The successful candidate will develop powerful, scalable, and easy to use tools to extract features, topics and summaries from text documents. The tools will be embedded in a predictive data analysis application to be used by PwC personnel. The creativity and innovation of the new team-member will be central to the creation of a successful data analysis and prediction product.

Responsibilities:

- Design, implement and manage text mining, text summarization and feature extraction tools
- Develop and deliver long-term vision and architecture for text mining, summarization and feature extraction technologies and standards for the project; coordinate developments with research management and stakeholders

- Work with the team to elicit, define, and refine requirements
- Design, develop, and test scalable Java applications
- Attend and contribute to design review and code inspections
- Interact with end users to validate and evaluate software
- Review and contribute to system documentation

Requirements:

- M.Sc. or Ph.D. in Computer Science, or related field with at least 3 years of hands-on professional software development experience.
 - Experience with text and data mining, text summarization, information retrieval, feature extraction, data modeling tools and technologies.
 - Experience with the development and documentation of real-world applications.
 - Implementation experience in Java/J2EE, preferably on IBM WebSphere
 - Willingness to follow group coding standards and design
 - Excellent written and spoken communication skills
- Highly Desirable to have:
- Exposure to Social Network Analysis and Machine Learning techniques
 - Experience with Computational Linguistics Technologies
 - Experience with Adobe Flex
 - Experience with Database Technologies (Oracle, Lotus Notes, Trillium, Informatica)
 - Exposure to .NET technologies
 - Exposure to Agile Software Development
 - Ability to function independently and as part of a team under aggressive deadlines in a fast-paced

environment, convey a strong professional image, exhibit interest and positive attitude toward all assigned work, and strive for continued improvement. The successful candidate will enjoy the risk and opportunity of advanced technology development.

The position is based in San Jose, CA.

Travel Requirements: less than 10%

Princeton University Classics, Hellenic Studies & General Ling: Librarian, Princeton U

<http://linguistlist.org/issues/19/19-3702.html>

Rank: Librarian
Posted on: 02-Dec-2008
Deadline: Until Filled
Ling Field(s): General Linguistics
Classics, Hellenic Studies
Language(s): Greek, Ancient
Greek
Latin
Employer: Princeton University
Department: Library

Job Description

Librarian for Classics, Hellenic Studies and Linguistics

Please read full job description online at:

libweb.princeton.edu/hr/positions/JobLibrnClassicsHellenicStudies

Responsibilities:

The Princeton University Library seeks an energetic and creative subject specialist to build library collections and help shape library services in three fields in the humanities at Princeton: Classics, Hellenic Studies, and Linguistics. This librarian will also work closely with the Departments of History, Art and Archaeology, and other relevant area and

interdisciplinary studies programs. This is one of several subject specialist professional positions devoted to developing and interpreting Princeton's collections. The position reports to the Associate University Librarian for Collection Development. Responsibilities include: current and retrospective collection building in all formats;

managing sizable acquisitions funds and associated approval plans; advising on preservation, digitization, and other aspects of collection maintenance, including offsite storage; overseeing collections in study rooms in Firestone Library; and providing specialized research assistance to Princeton University faculty and students, researchers affiliated with neighboring institutions, and visiting scholars from the U.S. and abroad. The librarian also provides instruction in the use of print and electronic materials for philological, literary, cultural, and historical research; creates resource guides and Web sites to assist Princeton researchers; serves as the Library's key liaison to the Department of Classics and the Programs in Hellenic Studies and Linguistics; consults with members of the Technical Services Department to facilitate timely acquisitions and processing of materials to meet academic deadlines; and works closely with staff in Rare Books and Special Collections on acquisitions and to promote use of the wealth of original and specialized material at Princeton. This librarian represents Princeton in the relevant regional, national, and international professional and scholarly organizations.

Qualifications:

Required: an ALA-accredited Master's degree in library science, plus an advanced degree in Classics OR one of the disciplines associated with this position, OR an equivalent combination of education and professional library experience; proficiency in Latin, Greek, and Modern Greek; a minimum of three years of successful experience in a research library. Candidates must demonstrate mastery of the bibliographic tools, including electronic resources, available for the use of researchers especially in the humanities. Candidates should be knowledgeable about the American and European book trades, current and antiquarian, and the changing technological environment in research libraries; they should also demonstrate an interest in developing innovative services for researchers. Preferred: successful teaching experience, either in the classroom or in library instruction; experience with cooperative library projects such as the Center for Research Libraries and the Digital Library Federation; and knowledge of the strengths of other research collections, particularly in Classics.

Review of applications will begin immediately and will continue until the position is filled. Nominations &

applications (cover letter, resume, names, titles, addresses and phone numbers of three references) will be accepted only from the Jobs at Princeton website:

princeton.edu/jobs, Requisition #0800707

Q-go
Computational Linguistics: Researcher,
Q-go

<http://linguistlist.org/issues/20/20-3.html>

Rank: Researcher
Posted on: 02-Jan-2009
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Language(s):
Employer: Q-go
Department: Research

Job Description

We are looking for researchers in the field of computational linguistics, who can take Q-go's unique natural language search technology to the next level. You will build and test proofs of concept of new features and products of the Q-go Suite. You know all about the latest techniques for natural language processing and cannot wait to see them at work in real-world applications.

Function Skills

- Minimum of MA in Computational Linguistics, Artificial Intelligence, Computer Science or related field. PhD a plus.

- Experience with machine learning techniques
- At least 2 years research experience
- Experience in the Industry strongly preferred
- Fluent in Dutch and/or English. Additional language(s) a plus

About Q-go

Q-go was founded in 1999 and has grown to become a leading European supplier of Natural Language Search solutions. These solutions help banks, (health care) insurance providers, pension insurers, telecom companies and logistics providers improve their customer service and customer satisfaction, and lower their costs. Q-go applications represent over 120 man-years' worth of research by experts in the field of natural language processing. Q-go funnels 40% of the company's profits into R&D. The intelligent, linguistic technology-based software that Q-go develops makes sure that customers receive a direct, immediate answer to all of their questions from a company's website - online, in their own language, and with at least the same comprehensiveness and quality as the answers provided by call centres. Not only is this easier for organisations, it's also faster and cheaper.

Q-go's headquarters are located in Amsterdam, and the company has three local offices in Munich, Barcelona and Madrid.

Interested?

Are you interested in this vacancy and do you meet the requirements? Please send us your resume and motivation to the application email listed below or call Eveline Meurs at +31.20.5313800

Language(s): Chinese, Mandarin
Employer: Queens College/City University of New York
Department: Classical, Middle Eastern & Asian Languages

Job Description

The Department of Classical, Middle Eastern and Asian Languages and Cultures at Queens College, City University of New York, has authorization to make a tenure-track appointment in Chinese Language and Linguistics at the rank of Assistant Professor, to begin in the Fall semester of 2009. Responsibilities include overseeing and teaching in the Elementary Program in Chinese language, teaching undergraduate courses on Chinese linguistics, and contributing to departmental programs in Chinese and East Asian Studies and as well as to the College's liberal arts curriculum.

Applicants should have proven experience and a

demonstrated commitment to teaching Chinese language at all levels as well as evidence of an active research program in linguistics. Preference will be given to candidates with a research specialty in phonology, phonetics, semantics, and/or language acquisition. A Ph.D. and native or near-native competency in Chinese and English are required. Preference will be given to applicants who have a Ph.D. in hand at the time of application.

Review of completed applications will begin April 20, 2009. Submit to the address below (by mail only, not email or fax) a letter of application, curriculum vitae, and samples of scholarly work or writing. In addition, please provide three letters of reference. These may be sent directly or included with your application in signed/sealed envelopes.

Salary is commensurate with qualifications and experience, ranging from \$41,624 to \$71,974 at the rank of Assistant Professor. Excellent benefits. AA/EOC/ADA.

Radboud University Nijmegen

Dutch & Sign Language Phonetics: Post Doc, Radboud U Nijmegen

<http://linguistlist.org/issues/20/20-971.html>

Rank: Post Doc
 Posted on: 19-Mar-2009
 Deadline: 10-Apr-2009
 Ling Field(s): Phonetics
 Signed languages
 Language(s): Dutch Sign Language
 Employer: Radboud University Nijmegen
 Department: Centre for Language Studies

Job Description

This project forms part of SignSpeak, a European collaborative effort towards automatic recognition of sign language from video. The goal of this project is to investigate aspects of the phonetics of sign language production that relate to boundaries between signs. The central theme to be addressed is the sequential patterning of manual movements, including broad questions such as what kinds of coarticulation can be found in signed languages and what the nature is of the transitional movements between signs. A large corpus of 72 hours of dialogues by deaf signers from the Netherlands is available for analysis. Depending on the background of the candidate, it is also possible to perform experimental kinematic studies using motion tracking equipment.

In addition to carrying out phonetic research, the researcher is charged with the day-to-day supervision of two (deaf and hearing) assistants who annotate video recordings for the SignSpeak project.

Requirements:

The successful candidate has:

- a Ph.D. degree in sign language phonetics, spoken language phonetics, movement sciences, or a closely related discipline
- good writing and presentation skills
- a good knowledge of English
- at least basic signing skills in one signed language or is willing to acquire these skills

- a good track record of working in teams.

Organization

The Centre for Language Studies is one of the two research institutes at the Faculty of Arts, Radboud University Nijmegen. It has a staff of around 70 FTEs, including some 35 PhD students and postdoctoral researchers. About 45% of our research projects are externally funded, three of which have been granted prestigious EURYI/ERC awards. CLS received an outstanding research assessment in 2006. Focused on broadly theoretically based empirical research and affiliated with the on-campus Max Planck Institute for Psycholinguistics and the Donders Institute for Brain, Cognition and Behaviour, it provides a stimulating research climate and excellent opportunities for graduate training.

The present project is part of the European SignSpeak project, a joint effort of four research institutes, the European Union of the Deaf, and Telefónica, a Spanish telecommunication company. The project will be carried out in the research group on Signed Languages within the Grammar & Cognition programme of the Centre for Language Studies, in close collaboration with the other (deaf and hearing) team members. The research will be conducted within the Department of Linguistics in collaboration with Dr O.A. Crasborn, the SignSpeak coordinator for Radboud University. The proposed research will result in several scientific articles to be published in high-quality journals.

Conditions of employment

The total duration of the contract is three years. The researcher will be offered an initial contract for one year with the possibility of prolongation for another two years.

He/she will receive a salary dependent on qualifications and work experience between a minimum of €3,195 up to a maximum of €4,374 gross per month for a fulltime position.

Information:

Additional information and a summary of the research proposal can be obtained from Dr O.A. Crasborn (see contact information below).

Radboud University Nijmegen Dutch & Signed Languages: PhD position, Radboud U Nijmegen

<http://linguistlist.org/issues/20/20-972.html>

Rank: PhD position
Posted on: 19-Mar-2009
Deadline: 10-Apr-2009
Ling Field(s): Phonetics
Signed languages
Language(s): Dutch Sign Language
Employer: Radboud University Nijmegen
Department: Centre for Language Studies

Job Description

The role of the mouth in Sign Language of the Netherlands

Deaf people in the Netherlands are always bilingual to a certain extent: they have acquired sign language and spoken language, although not always from birth. This results in a continuum of communication modes in which spoken language and sign language are combined. This project focuses on the sign language end of the spectrum. The core questions are to what extent elements of spoken Dutch have become part of the lexicon of Sign Language of the Netherlands (NGT) and how and to what extent mouth actions are used flexibly in the communication between deaf signers, as instances of code-mixing between sign and speech. To answer these questions, the role of the mouth as an articulator in sign interactions will be analysed in the NGT Corpus, a 72-hour corpus of spontaneous and semi-spontaneous signing of deaf people from the Netherlands using different registers. The corpus contains signers from different generations, for whom the role of Dutch in education in the past decades changed with the transition from oralism to bilingualism. What is the impact of this changing role of spoken Dutch on the structure and use of Sign Language of the Netherlands? One of the hypotheses to be tested is that the youngest generation is most flexible and creative in the combination of mouth actions with signs.

Depending on the interests and background of the candidate, it will also be possible to look at child language data or use experimental methods to investigate the production or perception of mouth actions. Assistance from deaf colleagues in the research group is available for the coding and analysis of sign language data.

The successful candidate has:

- a Master's degree in Linguistics, Phonetics, Language & Speech Pathology, or a related discipline
- an interest in the statistical analysis of language corpora
- basic signing skills or is willing to take sign language courses as part of the project
- good writing and presentation skills
- a good knowledge of Dutch and English
- a good team player

Organization

The Centre for Language Studies is one of the two research institutes at the Faculty of Arts, Radboud University Nijmegen. It has a staff of around 70 FTEs, including some 35 Ph.D. students and postdoctoral researchers. CLS received an outstanding research assessment in 2006. Focused on broadly theoretically based empirical research and affiliated with the on-campus Max Planck Institute for Psycholinguistics and Donders Institute for Brain, Cognition and Behaviour, it provides a stimulating research climate and excellent opportunities for graduate training.

This project will be carried out in the research group on Signed Languages within the Grammar & Cognition programme of the Centre for Language Studies, in close collaboration with the other (deaf and hearing) team members. The research will be conducted at the Department of Linguistics under the direct supervision of Dr O.A. Crasborn. The proposed research will result in a Ph.D. thesis that may consist of scientific articles published in high-quality journals.

Conditions of employment

The total duration of the contract is 3.5 years. The Ph.D. student will receive an initial contract for 18

months with the possibility of prolongation for another 2 years.

The starting gross salary is €2,000 per month based on full-time employment. Additional Information:

Additional information and the text of the research proposal (in Dutch) can be obtained from Dr O.A. Crasborn (see contact information below).

Reed College

Various Subfields: Visiting Professor, Reed College

<http://linguistlist.org/issues/20/20-941.html>

Rank: Visiting Professor
Posted on: 17-Mar-2009
Deadline: 06-Apr-2009
Ling Field(s): Computational Linguistics
General Linguistics
Morphology
Phonology
Semantics

Language(s):
Employer: Reed College
Department: Linguistics

Job Description

Reed College seeks applications for a one-year position in Linguistics at the Visiting Assistant Professor level for the 2009-10 academic year, beginning in August 2009.

Reed College is a selective undergraduate liberal arts institution with a commitment to teaching excellence and scholarship. The appointee will join a small but comprehensive undergraduate linguistics department and offer five semester courses over the academic year, including a co-taught general introduction to the field. The position also involves supervising yearlong senior thesis projects. Ph.D. or A.B.D. in Linguistics required. Teaching and research experience are highly desirable.

We are interested in outstanding candidates in all areas

of Linguistics. However, we especially invite applications from candidates who can teach in 2 or more of the following areas: formal semantics, computational linguistics, language contact and creole studies, phonology, morphological theory, or the structure of an under-documented language or language family. Please send a letter of application describing teaching and scholarly interests, CV, and samples of scholarly work, to the address below (these materials must be sent via surface mail; electronic submissions will not be accepted). In addition, please have three letters of recommendation sent to the same address, or submitted by email to pearsonm@reed.edu. All application materials must be received by April 6, 2009.

Inquiries about this position may be sent to Matt Pearson (see contact information below).

An equal opportunity employer, Reed College values diversity and encourages applications from underrepresented groups.

Information Extraction: Senior Software Engineer, Skygrid, Inc.

<http://linguistlist.org/issues/20/20-721.html>

Rank: Senior Software Engineer

Posted on: 06-Mar-2009

Deadline: Until Filled

Ling Field(s): Computational Linguistics
Information Extraction

Language(s): English

Employer: SkyGrid, Inc.

Department:

Job Description

Senior Software Engineer – Information Extraction

SkyGrid has an exciting and challenging opportunity for a passionate, focused, and experienced innovator to join our engineering team. Help us create the next-generation of our SkyGrid Internet application. Our application provides real-time semantic analysis and personalized delivery of Internet news. Your role will be central to insuring that our system continues to provide high quality news to our clients.

As a Senior Engineer you will use your knowledge in fields such as information extraction, data mining, natural language processing, and computational linguistics to advance the capabilities of our core analytics. You will participate in the design, creation, and maintenance of our analytics infrastructure. The candidate is expected to take ownership of significant parts of our technology and continually improve the system.

Responsibilities

- Take responsibility for the core components of our semantic analytics engine while advancing the state of the art.

- Work with other software developers on our team to ensure that our internet application remains best of class.

- Take responsibility for delivering stable code, meeting specifications and timelines.

- Participate in ongoing code reviews and inspire and mentor junior developers to ensure consistent quality and adherence to internal standards. Qualifications

- PhD Degree in Computer Science or equivalent working experience.

- Experience in relevant fields such as information extraction, data mining, NLP, and computational linguistics.

- 5+ years of relevant software development experience.

- Experience in Python, Java, or C/C++.

- Proven problem-solving skills and track record of successful software delivery.

We offer a competitive salary with strong stock options, and full benefits. Please send your resume to the application address listed below. About SkyGrid:

SkyGrid's vision is to provide a powerful internet platform that brings all your news into one screen. The growing success of our SkyGrid platform is a result of leading-edge technology, easy-to-use products and a unique devotion to great customer service. SkyGrid is well-funded and our current customers include leading financial institutions. Our headquarters are located in Sunnyvale, CA.

SYSTRAN

French; English & Comp Ling, Corpus Ling, Translation: Comp ...

<http://linguistlist.org/issues/20/20-116.html>

Rank: Computational Linguist
Posted on: 12-Jan-2009
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Text/Corpus Linguistics
Translation
Lexicography
Language(s): English
French
Employer: SYSTRAN
Department: Linguistic Resources

Job Description

We are currently looking for a highly qualified computational linguist with native competence in English to join an international team for the development of MT corpus and dictionary resources.

Primary responsibilities are:

- Corpus-based dictionary development for our European language pairs involving English

- Linguistic support, training and application of statistical models for client projects

- Improvement of English analysis and automatic dictionary coding resources

- Integration and testing of linguistic resources

Required Skills:

The ideal candidate must have strong interest in developing and enhancing the capabilities of machine translation and meet the following requirements:

- Native competence of English and French

- Experience in developing and applying statistical and corpus-based methods to NLP applications

- Thorough knowledge of computational lexicography and NLP methods in general

- Strong skills in English and French morphology and syntax

- Fluency in other European languages is a plus

- Good working knowledge of Perl and other scripting languages

- Strong communication skills and ability to work in a team

Education and Experience:

Advanced degree in Computational Linguistics, Informatics, Linguistics or Translation Studies (Masters or Ph.D.), and 2+ years experience in an industrial or academic NLP environment

About SYSTRAN

SYSTRAN is the market leading provider of language translation software products and solutions for the desktop, enterprise and Internet that facilitate communication in 52 language combinations and in 20 vertical domains. With over three decades of expertise and research and development, SYSTRAN's software is the choice of leading global corporations, portals including AltaVista, Yahoo!, and Microsoft, and public agencies like the US Intelligence Community and the European Commission.

Use of SYSTRAN products and solutions enhance multilingual communication and increase user productivity and time-savings for B2E, B2B and B2C market segments as they deliver real-time language solutions for search, content management, online

customer support, intra or inter company collaboration, and eCommerce.

SYSTRAN is headquartered in Paris, France with a North American office located in San Diego, California, USA.

SYSTRAN (Code ISIN FR0004109197, Bloomberg: SYST NM, Reuters: SYTN.LN) is listed on EuroNext Paris, Compartment C.

Teachers College, Columbia University English & TESOL: Visiting Professor, Columbia University

<http://linguistlist.org/issues/19/19-3189.html>

Rank: Visiting Professor
Posted on: 20-Oct-2008
Deadline: Until Filled
Ling Field(s): Applied Linguistics TESOL
Language(s): English
Employer: Teachers College, Columbia University
Department: TESOL and Applied Linguistics

Job Description

The TESOL Program at Teachers College, Columbia University in New York City is seeking for its accredited site in Tokyo, Japan, a Visiting Professor (open rank) and Interim Academic Director with relevant research and teaching interests in TESOL or Applied Linguistics and demonstrated administrative experience.

Academic Responsibilities:

Provide academic leadership on the Tokyo site as TESOL Tokyo Program Coordinator. Advise master's students. Maintain an active professional profile. Teach two graduate courses per year in the TESOL Program.

Administrative Responsibilities:

Manage the Tokyo site of Teachers College, including working with the Japanese office staff and overseeing all

administrative activities, such as budget, accounting, marketing, and business plans. Collaborate with the TESOL Program at Teachers College in New York City on all academic matters. Build teamwork among the visiting, local and NYC faculties. Coordinate with all relevant administrative departments of TC's NYC campus (NYC TESOL Program, Department of Arts & Humanities, admissions, registrar, controller, academic computing, library, Office of the Provost). Academic Qualifications:

Earned doctorate in TESOL, Applied Linguistics or related field; evidence of scholarship potential in one or more of the following areas: language teaching methodology, teacher education, pedagogical linguistics, discourse analysis, sociolinguistics, second language acquisition, or language assessment. A record of successful teaching experience in English as a Foreign Language as well as demonstrated success in graduate-level teaching. Evidence of service to the field of TESOL or Applied Linguistics. Administrative Qualifications:

Demonstrated ability to perform multiple administrative duties over a range of areas. Graduate program coordination experience. Knowledge of American university policies and administrative structures. Experience in the initiation and development of new programs (certificate and graduate degree levels). Knowledge of and experience with educational marketing in East Asia, especially Japan. Experience with academic management and budgeting (international programs experience a plus). Familiarity with Japanese (or East Asian) culture. Some proficiency in Japanese (desirable). Evidence of ability to work collaboratively.

To apply for the position:

1) Address a cover letter detailing how you meet the qualifications for the position, along with a curriculum vitae, to Professor James E. Purpura, TC Japan Search Committee Chair (see application address below). Please e-mail the cover letter to Ms. Becca Meyer at: rim2105@columbia.edu. Ensure that the subject line reads "Visiting Professor/Interim Academic Director TC Japan" and that the attachments are in separate PDF or MS Word files. (If you are using Vista, please save the files in an earlier version.)

2) Have three letters of reference e-mailed to Ms. Becca Meyer at rim2105@columbia.edu. Ask referees to place "Visiting Professor/Interim Academic Director TC Japan" in the subject line. Have the referees address their letters to Professor James E. Purpura.

Review of applications will begin on November 2, 2008 and continue until the search is completed.

Texas A&M University

Spanish & Applied Linguistics:

Asst/Assoc Professor, Texas A&M U

<http://linguistlist.org/issues/19/19-3494.html>

Rank: Asst/Assoc Professor
Posted on: 14-Nov-2008
Deadline: Until Filled
Ling Field(s): Applied Linguistics
Language(s): Spanish
Employer: Texas A&M University
Department: Hispanic Studies

Job Description

Spanish Applied Linguistics. Associate Professor or advanced Assistant Professor.

The Department of Hispanic Studies at Texas A&M University invites applications in the field of Spanish Applied Linguistics, beginning September 1, 2009. We seek a colleague with expertise in one or more of the following areas: Spanish-English bilingualism, Spanish as a second and/or heritage language, and Spanish pedagogy at the university level. Ancillary interests might include computational linguistics, corpus linguistics, or

sociolinguistics.

Candidates must have: a Ph.D. in Spanish Applied linguistics, Hispanic linguistics, or other relevant field; at least near-native fluency in Spanish; the capacity to teach and supervise students at all levels, with evidence of strong organizational skills. Experience with CALL or coordinating language courses preferred. Applications will be considered until the position is filled, but initial interviews will be conducted at the MLA meeting in San Francisco, December 27-30, 2008. Interactive conference interviews may also be arranged.

A flagship institution, Texas A&M is an AAU, Research Intensive University. The 2005 NACUBO Endowment Study ranks Texas A&M University and Foundations as ninth among all U.S. institutions of higher learning in the market value of its endowment assets. Current enrollment is about 48,000. The Sterling Evans Library provides extensive technological and professional support for research and there are important collections of Cervantes and Colonial Mexico in our Special Collections Library. The College of Liberal Arts has 6000 majors in 13 departments and places special emphasis on development of diversity, internationalization and national research visibility of its faculty. The Department is in its fourth year as an independent, Ph.D.-grant unit with more than 20 full-time faculty, 174 undergraduate majors and 42 graduate students. It houses the Anuario de Estudios Cervantinos, Cine y, Comparative Linguistics Bibliography, and Hispanic Poetry Review. We offer a teaching load of 2-2 and provide generous research incentives through multiple sources such as the Glasscock Humanities Center, the Vice President for Research Program for Enhancement of Scholarly Activities and support for competitive grant development, including possibility of internal release time. We expect publications in nationally and internationally recognized, refereed presses and journals. College Station is the center of a metropolitan area with a population of approximately 190,000 with relatively low cost of living, affordable housing and ranked public schools. Minorities and women are strongly encouraged to apply. Texas A&M is an AA/EEO employer, deeply committed to diversity and responds to the needs of dual-career couples.

Applicants should send a CV, samples of recent publications, and three letters of recommendation to J. Lawrence Mitchell, Interim Head, at the address provided

below.

TextWise LLC

English & Computational Linguistics: Scientist, TextWise LLC

<http://linguistlist.org/issues/20/20-996.html>

Rank: Scientist
Posted on: 19-Mar-2009
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Language(s): English
Employer: TextWise LLC
Department:

Job Description

TextWise LLC is actively undertaking research, development, and productization of semantic technologies. As part of this effort, we have an immediate need for a research scientist to perform the following duties:

- Investigate and elaborate techniques for representing the semantic content of natural language texts.
- Develop language-specific and language-independent algorithms and heuristics.
- Develop software prototypes in order to test these algorithms and heuristics using real world data.
- Corpus analysis for the discovery of linguistic patterns and features.

- Develop and maintain content databases for development and testing.

- Design and perform evaluations of algorithms and prototypes. Required qualifications for this position are as follows:

- Masters or PhD in linguistics, computational linguistics, or closely related area.

- Competence in programming in one or more of the following: C/C++, Perl or Java.

- Experience in developing and applying corpus-based methods in text analysis.

- Fluency in English.

- Experience creating taxonomies and/or ontologies extremely desirable.

- Experience in machine learning techniques a plus.

- Fluency (speaking, reading, and language theory) of one foreign language preferred.

TextWise is a small company with a start-up atmosphere. The team style is collaborative and high energy. You will work daily with a team of scientists. In addition, you will also interact with the Software Engineers, Quality Assurance, Project Management, and Sales.

This position reports to the Chief Science Officer. Salary is commensurate with experience.

Employer: The Hong Kong Polytechnic University

Department: Department of Chinese and Bilingual Studies

Job Description

The Hong Kong Polytechnic University is the largest government-funded tertiary institution in Hong Kong, with a total student headcount of about 28,090, of which 14,260 are full-time students, 10,050 are part-time students, and 3,780 are mixed-mode students. It offers programmes at Doctorate, Master's, Bachelor's degrees and Higher Diploma levels. The University has 27 academic departments and units grouped under six faculties, as well as 2 independent schools and 2 independent research institutes. It has a full-time academic staff strength of around 1,300. The total consolidated expenditure budget of the University is in excess of HK\$4 billion per year.

The Department of Chinese and Bilingual Studies is strong in Applied Chinese Language Studies. It offers bachelor, master, and doctoral programmes in Translating, Interpreting, Bilingual Studies, Chinese Linguistics, Chinese Language teaching, and teaching Chinese as a second language. Within the Department, there is a Centre for Translation Studies, a Testing Unit, and a Chinese Language Centre which provides training in Chinese Language and Putonghua for the whole university. The

Department has a total of 70 academic staff members. Please visit our website for more information about the Department.

Assistant Professor in Chinese Linguistics

The appointee will be required to (a) engage in teaching and related learning activities, and contribute to curriculum design and development at degree and taught postgraduate levels; (b) engage in scholarly research in his/her area of expertise; and (c) undertake administrative duties in academic and departmental affairs.

Applicants should have (a) an earned doctoral degree in Linguistics or Applied Linguistics, with specialization in Psycholinguistics, Language Acquisition, Syntax, Phonetics or Phonology; (b) effective classroom teaching skills, preferably in English; (c) a proven track record in research in his/her area; (d) native or near native mastery of Chinese; and (e) a strong commitment to excellence in teaching and professional service. Remuneration and Conditions of Service

Salary offered will be commensurate with qualifications and experience. Initial appointment will be made on a fixed-term gratuity-bearing contract. Re-engagement thereafter is subject to mutual agreement. Remuneration package will be highly competitive. Applicants should state their current and expected salary in the application.

Application

Please submit application form via email to hrstaff@polyu.edu.hk; by fax at (852) 2764 3374; or by mail to the address provided below. If you would like to provide a separate curriculum vitae, please still complete the application form which will help speed up the recruitment process. Application forms can be obtained via the above channels or downloaded from polyu.edu.hk/hro/job.htm. Applicants who are not invited to an interview within two months of the closing date should consider their applications unsuccessful. The University of Hong Kong Language & Communication: Asst Prof, The University of Hong Kong

<http://linguistlist.org/issues/20/20-350.html>

Rank: Assistant Professor
 Posted on: 02-Feb-2009
 Deadline: Until Filled
 Ling Field(s): General Linguistics
 Language(s):
 Employer: The University of Hong Kong
 Department:

Job Description

Applications are invited for appointment as Assistant Professor in the Programme in Language and Communication of the Faculty of Arts, tenable from September 1, 2009 or as soon as possible thereafter (Ref.: RF-2008/2009-493). The appointment, held in the School of English, will initially be made on a three-year fixed-term basis, with the possibility of renewal. Appointee whose contract is renewed will have the opportunity to apply for tenure during the second three-year contract.

The School of English offers an integrated programme in English Studies, including undergraduate teaching and supervision of research students in English and American literatures, world literature in English,

sociolinguistics, critical linguistics, language acquisition, and English grammar. The Programme in Language and Communication of the Faculty of Arts is an undergraduate interdisciplinary programme which focuses

on the study and use of language, as well as languages in socio-cultural contexts. As an interdisciplinary programme, it incorporates different approaches of the departments that contribute to the programme. Further details, including information about the School and the Programme can be obtained at hku.hk/english and web.hku.hk/~langcom/langcomm. Please note that the School and the Programme are not involved in ESL teaching. Applicants should have a Ph.D. degree in a relevant discipline, possess an active research record and be prepared to teach and supervise at the B.A., M.A., M.Phil. and Ph.D. levels. The appointee should be able to contribute to the teaching of both the Programme in Language and Communication and the English linguistics programme. Applicants' area of specialization should include one or more of the following: World Englishes, sociolinguistics, language and communication, language and culture, text linguistics, discourse analysis, cognitive linguistics, history and culture of the English language.

Annual salary will be in the range of HK\$504,480 - 779,640 (approximately US\$1 = HK\$ 7.8) (subject to review from time to time at the entire discretion of the University), with starting salary depending on qualifications and experience. The appointment will attract a contract-end gratuity and University contribution to a retirements benefit scheme, totalling up to 15% of basic salary, as well as leave, and medical/dental benefits. Housing benefits will be provided as applicable. At current rates, salaries tax does not exceed 15% of gross income.

Interested candidates should submit a completed application form (152/708) (available at hku.hk/apptunit/), a C.V. and a sample of research work, and arrange to have 3 confidential referees' reports (quoting Ref.: RF-2008/2009-493) sent by the referees directly to the Assistant Registrar at the address provided below (fax: (852) 2540 6735 or 2559 2058; e-mail: senrappt@hku.hk). Review of applications will begin on March 15, 2009, and will continue until the post is filled. Candidates who are not contacted within 4 months of the date of their application submission may consider their applications unsuccessful.

Job Description

Founded in 1911, The University of Hong Kong is committed to the highest international standards of excellence in teaching and research and has been at the international forefront of academic scholarship for many years. Of a number of recent indicators of the University's performance, one is its ranking at 26 among the top 200 universities in the world by the UK's Times Higher Education Supplement. The University has a comprehensive range of study programmes and research disciplines, with 20,000 undergraduate and postgraduate students from 50 countries, and a complement of 1,200 academic members of staff, many of whom are internationally renowned.

Applications are invited for appointment as Professor (Ref.:

RF-2008/2009-506) in the School of English, tenable from as soon as possible. The appointment will initially be made on a three-year fixed-term basis, with the possibility of renewal. Appointee whose contract is

renewed will have the opportunity to apply for tenure during the second three-year contract.

Applicants must have a distinguished record of research and demonstrate a commitment to excellence in teaching. They must be able to conduct research and to teach at undergraduate and postgraduate (M.A., M.Phil. and Ph.D.) levels in the context of the School's work in English and American literatures, world literature in English, cross-cultural studies in English, sociolinguistics, critical linguistics, English language and linguistics, language and culture, and language and communication. Details about the School, including information about its research profile, are available on application, or on its website at hku.hk/english. Annual salary will be in the range of HK\$897,060 - 1,256,460 (approximately US\$1 = HK\$ 7.8) (subject to review from time to time at the entire discretion of the University). The appointment will attract a contract-end gratuity and University contribution to a retirements benefit scheme, totalling up to 15% of basic salary, as well as leave, and medical/dental benefits. Housing benefits will be provided as applicable. At current rates, salaries tax does not exceed 15% of gross income.

Job Description

The University of Hong Kong is launching the Society of Scholars in the Humanities, a society of young scholars involved in cutting-edge research. It is designed to encourage critical and creative thought both within and between the disciplines in the Arts and Humanities. There are three research Scholarships for 2009 (Ref.: RF-2008/2009-553). There will be an open competition based purely on research potential for scholars working in the following areas: Art History, Comparative Literature (including Film Studies), English Literature, Linguistics, History, Music, Philosophy. Each Scholarship is for two years and is non-renewable. Applicants are invited from all educational institutions across the world. The Scholarships are intended for researchers early in their careers to carry out innovative research; candidates are expected to be either graduate students in the final stages of their Ph.D. studies, or researchers who have been awarded their Ph.D. degree for not more than two years from the date of application. Details about the Society are available at the website provided above.

Scholars will be provided with free accommodation and breakfast at the Robert Black College, office space, one return airfare per year, a research grant of up to HK\$15,000 a year, and a stipend of HK\$23,000 per month (Scholars who have not yet been awarded a Ph.D. degree will receive a salary of HK\$19,000 per month). Successful candidates will be appointed as Research Scholar.

Although the Scholarship is primarily designed to encourage original research, Scholars will be expected to teach one course per year, interact with staff and students, present their research in colloquia and conferences, and

organize a lecture series. All Scholars are expected to be resident in Hong Kong during the teaching semesters and may carry out research abroad for up to 100 days a year.

The application form along with CV, research proposal (max. 1500 words) and two referees' reports must be received by the School of Humanities by the deadline. All Scholarships begin on September 1, 2009. Further particulars and application forms can be obtained at

humanities.hku.hk/home/sohscholars.html#applications. Enquiries about the Scholarship can be directed to Ms. Vivian Chu, Secretary of the Society of Scholars (e-mail: scholars@hku.hk). There are no interviews. Successful applicants will be notified no later than June 30, 2009. The University is an equal opportunity employer and is committed to a No-Smoking Policy

The School of Languages, Linguistics and Cultures at The University of Manchester, UK, is seeking to fill the position of Lecturer in

Psycholinguistics.

The salary scale is £32,458 - £44,931 p.a., depending on experience and qualifications.

The post is available from 1 September 2009.

Reference: HUM/80308

Candidates with a research specialism in any area of psycholinguistics are encouraged to apply. An ability to provide teaching at undergraduate and postgraduate level in child language development will be an advantage. Candidates should have proven ability and potential in research, with a developing record of publications in any area of psycholinguistics. The post-holder will be expected to contribute to research activities within the area of psycholinguistics, generate scholarly publications, submit research grant applications and participate in research supervision at PhD level. The post is an outstanding opportunity for an ambitious scholar to develop their career in an environment conducive to excellence in research and teaching.

The appointed candidate will be expected to take an active interest in teaching, find ways of encouraging student learning and be prepared to adopt different methodologies for teaching and assessment to suit different student groups. The candidate will be expected to contribute to teaching at both undergraduate and postgraduate level. The successful candidate must be able to collaborate closely with colleagues in the delivery of teaching and learning, be willing to take a share of responsibilities for student progress and academic management, and above all be eager to make a full commitment to our ideals of collegiality and academic integrity at all levels of activity.

Essential

- a doctorate, completed or near to completion, in any area of psycholinguistics.
- proven ability and potential in research with a developing record of publications.
- the proven ability to contribute to a scholarly environment of international research excellence.
- the ability to teach course units in psycholinguistics.
- a strong commitment to high-quality, research-led teaching.

- the ability to fulfil required administrative responsibilities efficiently.

- a strong commitment to collegiality.

Desirable

- the ability to teach course units in the area of child language development

- the ability to teach course units in further areas of linguistics and/or English language studies

- excellent presentational skills necessary for lectures, seminars and small group teaching.

- good IT skills.

During the first four years of appointment, the probationary period, any appointee who has not previously held a full-time university post will normally be expected to bear no more than two-thirds of a typical teaching load and will not be expected to undertake any major administrative duties. For further details see

The University of Montana

Japanese & Applied Ling: Instructor, The University of Montana

<http://linguistlist.org/issues/20/20-967.html>

Rank: Instructor
 Posted on: 18-Mar-2009
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 Language(s): Japanese
 Employer: The University of Montana
 Department: Modern & Classical Languages & Literatures

Job Description

Visiting Instructor of Japanese Language and Literature

The University of Montana invites applications for a one-year non-renewable adjunct instructorship in Japanese (with a five-course load), beginning Fall 2009. Applicants with an A.B.D./Ph.D. are preferred, but M.A.s in the field with prior tertiary JSL teaching experience will also be considered. Candidates must also exhibit native or near-native fluency in Japanese and English and have documentation of excellence in teaching. A specialization in JSL pedagogy or applied linguistics or in a field of Japanese literature (with strong language-teaching skills and interests) is required. Courses to be taught are Beginning and Advanced level Japanese, plus one elective upper-division course in language (such as advanced readings) or literature (classical or medieval areas preferred).

Qualified applicants should send materials (current curriculum vitae, graduate transcript, three current letters of reference, and a videotape, at least 15 minutes long, showing teaching in a Japanese language class) to Professor Robert W. Acker, Chair, at the address provided below. Review of applications will begin April 8, 2009 and continue until the position is filled.

The University of Montana is an EOE/Affirmative Action employer. The position announcement can be made available in alternative formats upon request.

The University of Texas at Arlington

Applied Ling: Asst Prof, The University of Texas at Arlington

<http://linguistlist.org/issues/19/19-3297.html>

Rank: Assistant Professor
 Posted on: 29-Oct-2008
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 TESOL
 Language(s):
 Employer: The University of Texas at Arlington
 Department: Linguistics & TESOL

Job Description

The Department of Linguistics and TESOL at The University of Texas at Arlington invites applications for a tenure-track position at the rank of Assistant Professor in TESOL, to begin in fall 2009.

Candidates will have a doctorate in Applied Linguistics or a closely related field by the time of the appointment. Candidate should exhibit a secondary area of expertise in one of the following areas:

psycholinguistics, sociolinguistics, assessment, quantitative research methods, computational linguistics, computer-assisted language learning (CALL) or another area that complements the existing offerings of our department. Candidate will be expected to cover courses in

methods/materials, second language acquisition,

contrastive analysis and related areas, as well as a practicum. Excellent opportunities for outreach and service-learning exist in the linguistically diverse city of Arlington and its surroundings. Candidates with prior experience in

outreach/service-learning are encouraged to provide supporting

documentation in this area.

The Department has a thriving PhD program, strong MA programs in linguistics and in TESOL, and a Graduate Certificate in TESOL. Our graduate student organization hosts an annual student conference. The Department is also in the process of building its undergraduate offerings, which currently includes a linguistics minor. The Department also includes the English Language Institute, which offers intensive English instruction at various levels. Successful candidates must demonstrate a coherent research agenda, evidence of success and continued promise in publishing in this area, ability to supervise graduate students, and ability to teach undergraduate and graduate courses, particularly in areas of second language pedagogy. Applications from members of underrepresented groups are especially encouraged.

The University of Texas at Arlington is a doctoral, research-intensive public institution of over 25,000 students located in the heart of the Dallas-Fort Worth Metroplex, a region with excellent cultural, recreational and entertainment facilities.

A letter of application describing teaching and research interests, current curriculum vitae, two writing samples, and three letters of reference from those most familiar with the applicant's work should be sent to the address provided below.

For more information about the department, visit our website, or contact by phone (817) 272-3133.

Review of the applicants will begin Dec 1, 2008 but will continue until successful candidates are identified.

Preliminary interviews are planned for the 2009 LSA Annual Meeting in San Francisco. We are also considering conducting phone interviews for preliminary

stages of this process.

This is a security sensitive position, and a criminal background check will be conducted on finalists.

UT Arlington is an Equal Opportunity & Affirmative Action Employer.

Job Description

FY 08/09- 15

Required:

Ph.D. in Applied Linguistics or closely related field required by August 2009, demonstrated evidence of and potential for continuing scholarship in an applied area of

linguistics and interest in program development. Graduate coursework in theoretical and applied areas of linguistics. Position begins in Fall 2009.

Preferred:

applied emphasis in second language acquisition theory and practice and/or theoretical emphasis in phonology, semantics/pragmatics or syntax as applied to linguistics courses; experience working with minority students, teaching ESL, developmental writing and/or reading; interest in distance learning, web-based and computer assisted instruction.

To apply:

submit a letter of interest and curriculum vitae to the address provided below. After initial consideration, additional documents will be required including official transcripts of all university degrees, names of three references, and sample of published/presented scholarly work. Review of applications will begin November 1st, 2008; position open until filled. To learn more about the university and college, please visit our websites at www.utpa.edu and coah.utpa.edu/

UTPA is an Affirmative Action/Equal Opportunity employer. Women, minorities, and qualified individuals with disabilities are encouraged to apply. This position is security-sensitive as defined by the Texas Education Code 51.215(c) and Texas Government Code §411.094(a) (2). Texas law requires faculty members whose primary language is not English to demonstrate proficiency in English as determined by a satisfactory grade of 500 or greater on the International Test of English as a Foreign Language (TOEFL).

Tuebingen University

Phonetics/Phonology, Semantics: Asst Prof, Tuebingen University

<http://linguistlist.org/issues/20/20-22.html>

Rank: Assistant Professor
Posted on: 05-Jan-2009
Deadline: Until Filled
Ling Field(s): Phonetics
Phonology
Semantics

Language(s):
Employer: Tuebingen University
Department: Department of Linguistics

Job Description

The Department of Linguistics at Tuebingen University offers two junior positions (phonology/phonetics and semantics) with the beginning of summer semester 2009.

For both positions duties include teaching at the undergraduate and the graduate level. The teaching load is four hours per week, i.e. two courses per semester. Furthermore, the candidates are expected to conduct original research in their area of expertise, and to actively participate in larger linguistic research endeavours at Tuebingen University.

Candidates should hold a PhD at the time of the appointment.

The appointments should start as soon as possible after April 1, 2009, and not later than October 1, 2009. Interviews will be conducted until the positions are filled. Please send your material (a cover letter, CV including list of publications, statement of research and teaching interests, names of up to three references) electronically to the address indicated below.

1. Phonology/Phonetics

The successful candidate will be an expert in phonology and phonetics, with a strong background in experimental methods. A secondary specialization in psycholinguistics, morphology or pragmatics will be considered a plus. Salary will be on the German E13 scale ('Wissenschaftlicher Mitarbeiter'). The appointment will be for four years.

2. Semantics:

The successful candidate will be an expert in formal semantics. A secondary specialization in another area of linguistics, especially in pragmatics, psycholinguistics or syntax will be considered a plus.

Depending on the position in the career, the salary will be on the German A13 ('Akademischer Rat auf Zeit') or E13 ('Wissenschaftlicher Mitarbeiter') scale. The appointment will be for three years, with the possibility of renewal for another three years.

Employer: Tufts University
Department: Center for Cognitive Studies

Job Description

The Center for Cognitive Studies at Tufts University has a position for 2009-10 for a postdoctoral fellow with research interests in linguistics or psycholinguistics, to work under the direction of Co-Director Ray Jackendoff. Individuals are encouraged to apply who have an interest in applying Conceptual Semantics, the Parallel Architecture, or the Simpler Syntax Hypothesis to new areas of empirical investigation, or to build connections between these theories and other frameworks such as formal semantics, HPSG, and Optimality Theory. In addition to pursuing research, the fellow will participate in teaching linguistics courses in the Tufts Cognitive and Brain Sciences program and will also participate in interdisciplinary seminars and working groups sponsored by the Center for Cognitive Studies. The fellow will receive a competitive stipend. Applicants should submit a short research proposal of no more than 3 single-spaced pages; a curriculum vitae; a one-page description of approach to teaching/mentoring and teaching experience; and three letters of recommendation.

Tufts is an EO/AAE employer.

As Prof. Jackendoff is on leave this semester, please send application materials to the address provided below.

U.C. Santa Cruz

Phonology: Visiting Professor, U.C. Santa Cruz

<http://linguistlist.org/issues/20/20-520.html>

Rank: Visiting Assistant Professor
 Posted on: 17-Feb-2009
 Deadline: 17-Apr-2009
 Ling Field(s): Phonology
 Language(s):
 Employer: U.C. Santa Cruz
 Department: Linguistics

Job Description

The Department of Linguistics at the University of California, Santa Cruz announces the opening of a visiting position in phonology for 2009-10 (subject to administrative approval of funding).

Applicants should have the Ph.D. degree in Linguistics and a research and teaching specialization in phonology. The incumbent will be expected to contribute breadth to our undergraduate curriculum and will also contribute to the graduate curriculum. Applicants should provide evidence of excellence in teaching. The campus is especially interested in candidates who can contribute to the diversity and excellence of the academic community through their research, teaching, and service, and it particularly values those who can play leadership roles in pursuing the goal of increasing diversity within the campus community.

The department has Ph.D. and M.A. programs in theoretical linguistics focused on syntax, semantics, and phonology, with a developing strength in experimental methodologies. It also sponsors two undergraduate majors. The teaching load for this position will be four courses divided among three quarters beginning in Fall 2009. Further information about the department, its faculty, students, and programs is available at ling.ucsc.edu/ and at lrc.ucsc.edu.

The Department of Linguistics is in the Division of Humanities, which also includes the Departments of American Studies, Feminist Studies, History, History of Consciousness, Language Program, Literature, Philosophy, and the Writing Program. The Division has a strong tradition of collaborative and interdisciplinary

work, and we especially encourage applications from strongly qualified candidates eager to extend their teaching and research activities across departmental and disciplinary boundaries.

Salary: \$53,200 – \$59,500, commensurate with qualifications and experience
 Minimum Qualifications: Ph.D. in Linguistics, in hand by the time of appointment; demonstrated record of excellence in research and in teaching. Position Available: July 1, 2009. There is a possibility of renewal for 2010-11 (subject to administrative approval and the availability of appropriate funding).

Applicants should supply a letter of application, curriculum vitae, three letters of recommendation*, and other supporting documents (e.g., teaching evaluations, copies of research papers, etc.). Send materials to James McCloskey, Chair, at the address provided below. Please refer to Position #T09-39 in all correspondence.

The position will remain open until filled, but in order to be considered at the initial screening, the complete application (including letters of recommendation and other supporting documents) must be received by the department by April 17, 2009.

*All letters will be treated as confidential documents; please direct your references to UCSC's confidentiality statement at

Job Description

ICREA Senior: 2009 Call for Permanent Senior Researcher Posts. Expression of interest by the Dept of Translation and Language Sciences at Universitat Pompeu Fabra.

The Department of Translation and Language Sciences at Universitat Pompeu Fabra (Barcelona, Catalonia, Spain) is interested in hosting a senior researcher funded through the 'ICREA Senior' program. The target research areas are Interpreting and Translation Studies (audiovisual translation, localisation, specialised translation, etc). ICREA (Catalan Institution for Research and Advanced Studies) is a foundation jointly promoted by the Department of Innovation, Universities and Enterprise of the Catalan Government, and the Catalan Foundation for Research and Innovation (FCRI). In this year's call ICREA has announced 25 posts (in all fields of research) for strong candidates with excellent leadership capabilities and an outstanding research record. ICREA researchers, although employed directly by ICREA, work in a host university or research center in Catalonia. Candidates apply directly to ICREA. The specific terms for the ICREA contracts as well as the conditions and guidelines for application are available at the ICREA website listed below.

Any application for 'ICREA Senior' must include an expression of interest from a university department or research center. Candidates who are interested in the expression of interest from the Department of Translation and Language Sciences at UPF must contact Dr. Anna Espunya at the email address listed below, attaching a CV and a description of their line of work. The Department

will get back to the eligible candidate by April 6, so that the application can be completed before April 14, which is the UPF deadline for this ICREA call. For more information on the Department of Translation and Language Sciences see the website listed above.

Morphosyntax
Language(s): German, Standard
Employer: Universitätsklinikum
Hamburg-Eppendorf
Department: GB Personal, Recht & Organisation

Job Description

Unsere Poliklinik für Hör-, Stimm- und Sprachheilkunde sucht ab sofort eine/n Wissenschaftliche/n Angestellte/n

Diese Position ist - vorbehaltlich der Mittelfreigabe - mit der Hälfte der regelmäßigen wöchentlichen Arbeitszeit vorerst für drei Jahre befristet zu besetzen. Das DFG-Projekt befasst sich mit dem Thema: „Spracherwerb bei schwerhörigen Kindern“. Die Datenerhebung erfolgt im Raum Hamburg und im Raum Bonn/Köln/Düsseldorf/Essen. Es besteht die Möglichkeit zur wissenschaftlichen Weiterbildung, insbesondere zur Anfertigung einer Dissertation. Die eigenen im Projekt erzielten Arbeitsergebnisse können für die Promotion verwendet werden.

Ihr Aufgabengebiet: Zu Ihren Aufgaben gehören wissenschaftliche Dienstleistungen im Projekt. Zudem obliegt Ihnen die Erhebung und linguistische Auswertung von Sprachdaten schwerhöriger Kinder (Schwerpunkt: Morphosyntax).

Ihr Profil: Sie haben ein abgeschlossenes Hochschulstudium in einem linguistischen Fach. Des Weiteren besitzen Sie fundierte linguistische Kenntnisse der Morphologie sowie den generativen Syntax des Deutschen. Ihre Erfahrungen mit empirischen psycholinguistischen Verfahren und statistische Auswertungsmethoden setzen wir voraus. Wünschenswert sind Kenntnisse im Themenfeld Schwerhörigkeit.

Wir bieten Ihnen ein Entgelt nach Tarifvertrag TV-KAH (in Anlehnung an TVöD/TV-Ärzte). Darüber hinaus nehmen Sie an ausgesuchten Fort- und Weiterbildungen teil. Zudem haben Sie die Möglichkeit unseren

Betriebskindergarten flexibel und kostengünstig zu nutzen. Neben einer attraktiven Altersversorgung profitieren Sie von zahlreichen

Vergünstigungen, z. B. die verbilligte Nutzung der öffentlichen Verkehrsmittel. Wir treffen unsere Personalentscheidungen nach Eignung, Befähigung und fachlicher Leistung. Schwerbehinderte Menschen werden bei gleicher Eignung bevorzugt berücksichtigt. Darüber hinaus fördern wir die Gleichstellung von Frauen und fordern Frauen deshalb ausdrücklich auf sich zu bewerben. Ihre vollständige Bewerbung richten Sie bitte bis zum 26. Januar 2009 an das Universitätsklinikum Hamburg-Eppendorf, GB Personal, Recht & Organisation, Frau Schild, PCO 5, Kzf.:2009-01/03, Martinistr. 52, 20246 Hamburg.

Rank: Full Professor

Posted on: 05-Jan-2009

Deadline: 04-Feb-2009

Ling Field(s): Pragmatics

Semantics

Syntax

French Linguistics

Language(s): French

Employer: Universiteit Gent/Ghent University

Department: Department of French

Job Description

The faculty of Arts and Philosophy has a vacancy for a professorship, starting from October 1, 2009. It concerns a position as Full Professor (hoogleraar) or Senior Full Professor (gewoon hoogleraar) in the Department of French, charged with academic teaching (in French), scientific research and carrying out scientific duties in the field of French Linguistics.

Profile:

- on the day of application, candidates should hold a Ph.D. degree in Romance languages with doctoral thesis or a degree recognized as equivalent;

- candidates are required to have research experience in the field of modern French linguistics (syntax, semantics, pragmatics), proved by contributions to international conferences and by recent publications in national and international peer reviewed journals and/or books;

- assets:

a) research in the field of language variation and/or contrastive linguistics; b) organization and supervision of research programs in the field of French linguistics and proof of acquisition of external funding;

- having proved experience in international mobility, amongst others through participation in research programs at research institutions not linked to the university where the highest degree was obtained;

- candidates are required to be experienced academic teachers and tutors, having supervised doctoral research in the field of modern French linguistics. Teaching experience will have to be documented on the basis of a pedagogical dossier.

The candidates are requested to submit:

- the necessary attestations of competence (copies of degrees);

- a brief outline (of max. 1500 words) explaining their views on academic teaching, research and service in relation to this vacancy.

Selection procedure:

1. candidates will be short-listed on the basis of their curriculum vitae bibliography and the outline;

2. short-listed applicants will be invited for an interview, on the basis of which the final selection will be made.

More detailed information on this vacancy can be obtained from Prof. Dominique Willems (phone: +32 (9) 264 40 44, e-mail:

dominique.willems@ugent.be).

In principle this full-time position will lead to a tenured position. However, in the case of a first appointment as professor, the Board of Governors of Ghent University may decide to appoint the candidate for a maximum period of three years, after which he/she may be eligible for tenure following a positive evaluation. A workable knowledge of Dutch may be part of the evaluation.

Depending on the specific profile of the selected candidate, the rank of Full Professor or Senior Full Professor will be granted.

Applications must be sent in duplicate by registered mail to the rector of Ghent University (see application address below) using the specific application forms for Autonomous Academic Staff ('ZAP'), including the necessary attestations of competence (copies of degrees), the 4th of February, 2009 at the latest.

The application forms for Autonomous Academic Staff (ZAP)

- can be obtained at Ghent University, Department of Personnel and Organization, Sint-Pietersnieuwstraat 25, 9000 Gent.

- can be requested by phone: +32 (0) 9 264 31 29 or +32 (0) 9 264 31 30.

- can be downloaded from the internet (see application URL below)

Application Address:

Rank: Assistant Professor
 Posted on: 03-Oct-2008
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 TESOL
 Language(s): English
 Employer: University of Alabama
 Department: Department of English

Job Description

Contingent on budget approval, the Department of English of The University of Alabama invites applications for a tenure-track position in applied linguistics at the assistant professor level. The position begins August 16, 2009. Teach in the graduate applied linguistics/TESOL program, as well as offering linguistics courses (e.g., introduction to linguistics) in the undergraduate curriculum.

Requirements:

A Ph.D. in Applied Linguistics or related field by August 16, 2009. A specialization in second language acquisition with a strength in language teaching methodology. Evidence of successful teaching experience. Candidates should be able to teach a range of graduate courses in applied linguistics, and a range of undergraduate courses in linguistics. Applicants must demonstrate evidence of the ability to establish and conduct a scholarly research agenda.

Preferred Qualifications:

Proficiency in at least one other language besides English, international experience, previous involvement with an intensive language institute

To apply, go to the URL listed below and complete the online application. Attach a letter of application and curriculum vitae. Mail three letters of recommendation to the Applied Linguistics Search Committee, ATTN: Dr. Catherine Davies at the address provided below. The position will remain open until filled.

The University of Alabama is an Affirmative Action/Equal Opportunity Employer. Applications from women and minorities are encouraged.

Application Address:

Dr. Catherine Davies
 Box 870244
 Tuscaloosa, AL 35487
 USA

University of Alaska Fairbanks

Various Langs & Ling Publishing/Editing: Editor, U of Alaska

<http://linguistlist.org/issues/20/20-210.html>

Rank: Editor
 Posted on: 22-Jan-2009
 Deadline: 16-Feb-2009
 Ling Field(s): General Linguistics
 Linguistic Publishing/Editing

Language(s):
 Employer: University of Alaska Fairbanks
 Department: Alaska Native Language Center

Job Description

The Alaska Native Language Center is currently recruiting an editorial specialist to oversee all aspects of its publication program, including both print and new media distribution. This position is the editor of a scholarly press at the Alaska Native Language Center publishing books in and on Alaska's twenty Native languages. The Alaska Native Language Center is a center for research and teaching of Native languages and also houses an extensive archive.

The editor position oversees all aspects of the publication program at ANLC and associated Alaska Native programs. This includes planning and directing the production of publications from the early manuscript stage to the final design and printing. The editor works with linguists and other scholars and authors to ensure accuracy.

Applicants should hold at least a bachelor's degree with advanced skills in English or journalism. Preference will be given to applicants with experience working with linguistic data and/or knowledge of Alaska Native languages, history, and culture.

This is a full-time, permanent, benefited position. Details can be found online. Applications will be accepted online (see application URL below) through Feb 16, 2009.

The University of Alaska is an Equal opportunity/Affirmative Action employer and educational institution.

Phonology
Language(s):
Employer: University of Alberta
Department: Linguistics

Job Description

Postdoctoral fellowship in exemplar-based phonology

The Department of Linguistics at the University of Alberta invites applications for a one-year Postdoctoral Fellowship, beginning early 2009 (start date is negotiable), on exemplar-based approaches to phonology. A fundamental question of linguistic theory is how spoken language is encoded in the mental lexicon. The standard view, that phonological patterns are learned over symbolic representations, has increasingly come into

question, as failing to provide a natural account of frequency effects and gradient sound change. An alternative view is that words and phrases are stored as clusters of exemplars, including detailed, individuated memories of the speech signal. Speech processing, under this view, involves massive comparison of exemplars, with phonological patterns (as well as low-level patterns of gradient phonetic variation) emerging as abstractions over the raw data.

A cutting-edge area of inquiry, then, is the development of explicit computational models which perform this sort of comparison on real, variable-length speech signals. The Postdoctoral Fellow will be expected to participate actively in the conceptualization, implementation, and testing of such models, and dissemination of results. Further details of this project, part of an international collaboration with computer scientists at University of Sheffield (Speech and Hearing), can be found at

ualberta.ca/~kirchner/PEBLS.

The fellowship will be at the rate of \$31,500-\$42,000 (Canadian) per annum, plus benefits and research-related travel expenses.

Preference will be given to applicants with a specialization in phonology, phonetics, or computational linguistics, and with good programming skills, including some familiarity with (or willingness to learn) Matlab/Octave. Applicants should have recently completed, or be in the final stages of completing, their Ph.D.

The application should include a cover letter outlining past experience and research interests, CV, and two or three academic writing samples. Letters of recommendation should be sent directly by three referees. These materials may be sent electronically or by surface mail. The position remains open until filled.

Applications for the assistantship should be sent to Robert Kirchner at the address provided below.

 Syntax
 Language(s): English
 Russian
 Employer: University of Amsterdam
 Department: Language and literature/ACLCL

Job Description

Tundra Yukagir is a nearly extinct language spoken in the utmost northeast of the Sakha Republic (Yakutia). The population is approximately 700, but at present the number of fluent speakers is dramatically low with some 50 people still speaking their mother tongue properly. Tundra Yukagir forms, with Kolyma Yukagir, an isolated Paleo-Asian language family. Despite typological correspondences, Tundra and Kolyma Yukagir are mutually unintelligible due to large differences in both lexicon and morphology that presumably date back some two millennia.

The aim of the project is:

1) a full description of the language, both as regards its morphosyntax and as regards its phonology, based on a transcribed spoken corpus; 2) a contribution to answering the typological question whether the Yukagir language family is isolated or possibly related to Altaic or Uralic languages; 3) in cooperation with local linguists: contribution to the development of courseware for the revitalization of the language.

The research methodology is linguistic fieldwork (recordings, interviews, elicitation, transcription and analysis) with native speakers and local linguists. The role of the Ph.D. student within this project is to provide a grammatical description of the Tundra Yukagir language, with an emphasis on morphology and syntax.

University of Bielefeld
Computational Linguistics: W2
Professor, University of Bielefeld

<http://linguistlist.org/issues/20/20-352.html>

Rank: W2 Professor
 Posted on: 03-Feb-2009
 Deadline: 10-Mar-2009
 Ling Field(s): Computational Linguistics
 Language(s):
 Employer: University of Bielefeld
 Department: Linguistics

Job Description

The Faculty of Linguistics and Literary Studies at the University of Bielefeld will be appointing a Professor ('W2-Professur') for Applied Computational Linguistics at the earliest possible opportunity. The successful applicant will cover the full breadth of the field of Applied Computational Linguistics. Especially welcome are specialisations in:

- dialog modeling
- text generation and text parsing
- language variation and language evolution
- computational semantics
- text technology

The successful candidate must be prepared to cooperate in the consortial research in which linguistics in Bielefeld

is involved (Special Research Group 273 'Alignment in Communication' and the Excellence Cluster 'Cognitive Interaction Technology'), and will be responsible for teaching and student supervision in the BA programme 'Text Technology', as well as the BA, MA and PhD programmes in computational linguistics.

The conditions for appointment are a completed course of university studies and a first class doctorate in a relevant field, with additional scientific achievements whose evaluation will be restricted to the current hiring procedure (§36 HG legal requirement).

Queries should be directed to Prof. Barbara Job (see contact information below).

The University of Bielefeld is an equal opportunities employer. Applications by candidates with physical impairments are encouraged. Applications by women are encouraged. Other attributes (suitability, ability, academic achievement) being equal, applications by women will be preferred, provided that there are no reasons to the contrary in the person of a competing applicant.

Applications must not be submitted in special applications folders. uni-bielefeld.de

Job Description

The Program in Classics at the University of California, Davis seeks a lecturer to teach Hindi/Urdu for the 2009#10 academic year. The lecturer will teach eight courses over three quarters, September 21, 2009 # June 12, 2010. There may be teaching assistant support. Successful candidates will also be considered to co#teach an intensive 15#unit course in Hindi/Urdu during the 2010 Summer Session.

University of Cyprus English & Applied Ling; Socioling: Visiting Prof, U of Cyprus

<http://linguistlist.org/issues/20/20-416.html>

Rank: Visiting Professor
Posted on: 10-Feb-2009
Deadline: Until Filled
Ling Field(s): Applied Linguistics
Sociolinguistics
Language(s): English
Employer: University of Cyprus
Department: Department of English Studies

Job Description

Pending final approval, the Department of English Studies at the University of Cyprus is looking to fill two visiting positions (rank open) for the fall semester, starting September 1, 2009 (first day of classes: September 7; last day of classes: December 5, followed by an exam period up to the 20th). Each Visitor is expected to teach three courses, but a one-course reduction may be negotiated on the basis of research activities that involve a current member of staff.

Visiting Applied Linguist (Rank Open)

The successful candidate is expected to be teaching an M.A. course in Applied Linguistics (first-year M.A. in TEFL students) and at most two undergraduate electives (3rd- and 4th-year students). The elective can cover any area the candidate is willing to teach after consultation with the Department's Linguistics Section.

Visiting Sociolinguist (Rank Open)

The successful candidate will probably be teaching the undergraduate compulsory course in Sociolinguistics (3rd-year students) and at most two undergraduate electives (3rd- and 4th-year students). The elective can cover any area the candidate is willing to teach after consultation with the Department's Linguistics Section.

Note: There is a possibility that either post might be extended to the spring semester.

Teaching takes place on Mondays & Thursdays or Tuesdays & Fridays; undergraduate courses convene twice per week in a 75-minute slot, M.A. courses convene for 4 hours per week (on one or two days), all subject to departmental scheduling.

The visitor's salary depends on the rank he or she gets hired at, but it is competitive. Please note that potential Visiting Lecturers must have been awarded a Ph.D. and that potential Visiting Assistant Professors must have held a full-time academic job for at least three years after their Ph.D. by the time of application.

For all visiting positions:

- salary will cover four months (September to December 2009)
- and a third of the 13th salary will be paid as well;
- the salary is tax-free (whether for one or two semesters);
- social contributions are minimal (currently 6.3%).

Please note also that the University of Cyprus will not cover

transportation to and from Cyprus, sustenance or accommodation, or research trips and equipment.

There is no set deadline for application, but incoming applications will be evaluated as they come in. We are likely to make a decision sooner rather than later.

The application package should at least contain:

- a statement of interest
- a full, current CV

Any description of your research activities and plans will be taken into consideration for a teaching load reduction if the candidate is interested. By default, the successful candidate will be teaching three courses. Note that the class size of undergraduate compulsory courses is likely to be around 40, of electives no more than 20, and of the M.A. course around 10-15. The University of Cyprus is a Greek-speaking university, but all courses in the Department of English are taught in English. Knowledge of Greek is neither a requirement nor necessary.

To apply for either of these positions, and inquire about additional information, please contact Dr. Grohmann via email (kleanthi@ucy.ac.cy).

Syntax

Syntax-Semantics Interface

Language(s): French

Employer: University of Cyprus

Department: Department of French Studies and
Modern Languages

Job Description

Le Département d'Études françaises et de Langues vivantes annonce la mise au concours d'un Poste menant à la permanence (Lecteur ou Professeur Assistant).

Le ou la candidat.e sélectionné.e sera spécialisé.e en Linguistique Française (Morphosyntaxe et/ou Syntaxe et/ou Interface Syntaxe-Sémantique). Une parfaite maîtrise de la langue française est exigée. La connaissance du grec serait un avantage. Les conditions minimales requises portent sur l'expérience universitaire, les compétences avérées dans le domaine de la recherche et dans l'organisation de programmes de second et troisième cycles. Plus précisément :

Pour le grade de Lecteur: Les postulant.e.s doivent détenir un Diplôme de Docteur délivré par une Université reconnue et prouver un potentiel d'enseignement et de recherche universitaires.

Pour le grade de Professeur Assistant: En sus des conditions requises pour le grade de Lecteur, les postulant.e.s doivent faire état :

- D'une expérience professionnelle d'enseignement ou de recherche universitaire autonome totalisant, après l'obtention du Doctorat, 3 années au moins dans la fonction universitaire ou équivalente (Centre de recherche, etc.).

- De publications de travaux: articles originaux parus dans des revues scientifiques internationales d'autorité connue, monographies, ouvrages publiés dans des maisons d'édition connues, aux fins d'attester une activité de recherche personnelle et originale.

La nationalité chypriote n'est pas exigée.

Le dossier comportant les pièces justificatives ainsi que les documents détaillés ci-après devra être déposé le 22 juin 2009, à 14h00 au plus tard, auprès du Directeur du Service des Ressources Humaines à l'adresse ci-dessous. Téléphone : +357 22 89 41 58

Télécopie : +357 22 89 44 80

I- Une lettre de demande précisant le grade et le domaine auxquels il est postulé ainsi que la date à laquelle le ou la postulant.e estime pouvoir entrer en fonctions en cas de sélection.

II- Un Curriculum Vitae (6 exemplaires)

III- Un bref état des travaux et des projets de recherche (1.500 mots – 6 exemplaires).

IV- Une liste des publications (6 exemplaires).

V- Des exemplaires des trois publications les plus représentatives (6 exemplaires).

VI- Les copies des diplômes produits.

VII- Trois lettres de recommandation de répondant.e.s universitaires à envoyer directement à l'Université. Leurs noms et adresses complètes devront être inclus dans le dossier de candidature, et les lettres devront arriver avant la date limite de dépôt du dossier.

L'état des travaux et des projets de recherche ainsi que le Curriculum Vitae doivent être soumis en grec ou turc (à défaut en anglais) et en français. Les soumissions incomplètes ou déposées après la date limite ne seront pas examinées.

Le salaire annuel brut correspondant à ces postes (13e mois inclus) est de : Professeur assistant Échelon A13-A14 Euros 52,688.35 – 71,059.56 Lecteur Échelon A12-A13 Euros 44,496.01 – 65,167.18

Pour plus d'informations, vous pouvez contacter le Service des Ressources Humaines (tél. : 00357 22 89 41 58) ou le Secrétariat du Département d'Études françaises et de Langues vivantes (tél. 00357 22 89 43 70, email: akoufalidou@ucy.ac.cy)

Employer: University of Glasgow
Department: Department of English Language

Job Description

ESRC Postdoctoral Research Assistant/Associate: "Timing in Accents of English" The Department of English Language at the University of Glasgow invites applications for a postdoctoral position in this exciting two-year ESRC-funded project, directed by Dr Rachel Smith, commencing August 2009. This new project focuses on variation in speech timing patterns in accents of English. It has two goals: 1) to explore how accents differ in the timing patterns that they permit in particular word shapes and larger prosodic structures; and 2), to investigate the role that these differences play in speech comprehension and in the way spoken interaction unfolds among speakers of different dialects.

The successful appointee will contribute to the design, running, and analysis of speech production and perception

experiments, and as an author to the project's outcomes.

Salary: £25,623-£28,839 or £31,513 - £35,469 per annum (depending on experience).

Informal enquiries may be made to Dr Rachel Smith (see contact information below).

Applications should be made on-line at www.gla.ac.uk/jobs (reference number: 00015), where further particulars of the position can be found. If you are unable to apply on-line, please contact the University of Glasgow on +44 (0)141 330 3898 for an application pack.

Job Description

Stellenangebote 'Luxemburgischer Familiennamenatlas (LFA)'

Stellenantritt: 1. Mai 2009 für die Dauer von drei Jahren

Im Rahmen des Forschungsprojektes 'Luxemburgischer Familiennamenatlas' des Laboratoire de linguistique et de littératures luxembourgeoises (Prof. Dr. Peter Gilles) der Universität Luxemburg in Kooperation mit der Universität Trier (Prof. Dr. Claudine Moulin) werden vier Stellen für Linguisten ausgeschrieben.

zwei PostDoc-Mitarbeiterstellen (collaborateur scientifique sur projet) (M/F) zwei Promovendenstellen (AFR grants) (M/F)

Das neu eingerichtete, vom Fonds National de la Recherche finanzierte Forschungsprojekt wird die Verbreitung von Namen, Namentypen und Namenbildungsweisen in Luxemburg dokumentieren und in interdisziplinärem Kontext erschließen. Neben grundsätzlichen namenkundlichen

Forschungsaspekten (Etymologie, Sprachgeschichte, Verbreitungsareale, Sprachkontaktspekte etc.) werden auch Fragen der Mehrsprachigkeit, der Mobilität, der Interkulturalität und der Identität prototypisch analysiert. Die Ergebnisse werden in Form eines Atlases (gedruckt und digital) präsentiert.

Mission:

- Erschließung des luxemburgischen Namengutes
- Erstellen von namenkundlichen Karten und sprach- und kulturhistorischen Begleitartikeln
- Bearbeitung von sprachwissenschaftlichen Einzelphänomenen

Profil:

- Promotion bzw. Master-/Magisterabschluss in der Linguistik mit Schwerpunkt in der historischen Linguistik, der Namenkunde und/oder der strukturellen Linguistik
- Eigenverantwortlichkeit, Kreativität, Fähigkeit zur Teamarbeit
- Sprachkenntnisse: Deutsch; Kenntnisse des Luxemburgischen und Französischen sind von besonderem Vorteil

Die junge und stetig wachsende Universität Luxemburg (seit 2003) bietet ein dynamisches Forschungsumfeld in einem interdisziplinären, internationalen und multilingualen Kontext in Verbindung mit einem attraktiven Gehalt.

 Department: Department of Portuguese

Job Description

The University of Macau is a government-funded institution located in the Macao Special Administrative Region of the People's Republic of China. The Department of Portuguese of the Faculty of Social Sciences and Humanities is seeking to appoint a Professor in Portuguese Studies

(Ref No:FSH/DPORT/PS/03/2009).

Qualification

The successful candidate will demonstrate academic involvement in Portuguese Studies at an international level, a strong sense of, and respect for the Portuguese language as a world language with two standard forms and existing in more than one variety, a strong awareness of Lusophone culture internationally, and a broad understanding of, and appreciation for, the whole area of Portuguese Studies. The successful candidate will have a

distinguished record of publication at an international level. While preference will be given to specialists in the area of Portuguese Language Studies, and such areas as Portuguese as a Foreign or Second Language, and Portuguese Language Acquisition Studies will be of special interest, applications from candidates with

specializations relevant to other academic areas in the Department of Portuguese will also be considered. Applications are particularly encouraged from those who may have a research record in cross-cultural areas. Key components of this position will be the further development of the undergraduate and postgraduate programmes in line with international best practice, and the development of the Department's research output at an international level. The appointee will be required to contribute strategic leadership in these areas. The creation of a centre for research of the Portuguese-speaking countries is anticipated, and the successful candidate for the above position would be expected to make a significant contribution to the development of the centre.

Candidates should also have appropriate administrative experience at a senior level and must be able to demonstrate substantial leadership abilities. The appointee will be required to teach courses at the undergraduate and postgraduates levels and to provide MA and PhD thesis supervision.

Position and Taxable Annual Salary

The position offered and taxable salary level shall be determined according to the appointee's academic qualifications, current position, and professional experience. Under special circumstances where a Chair Professorship is offered, a higher remuneration is possible. Current local maximum income tax rate is 12%. Applicants should visit the Departmental webpage (umac.mo/fsh/dp/index.htm) to gain an understanding of current staff interests and research strengths. For details about the 'Terms of Academic Appointment', please refer to:

isw.umac.mo/recruitment/showTermsAppoint.do.

The Faculty of Social Sciences and Humanities will only appoint a suitably qualified candidate.

Professor: MOP759,920 - MOP826,000 (USD1 approx. =MOP8)

Application Procedure

Applicants should visit the application website listed below and apply online at isw.umac.mo/recruitment/.

The University of Macau reserves the right not to appoint a candidate. Applicants with less qualification and experience can be offered lower position under special circumstances. Personal data provided by applicants will be kept confidential and used for recruitment purpose only.

University of Maryland Cognitive Sci: Post-bac Research Fellows, University of Maryland

<http://linguistlist.org/issues/20/20-1003.html>

Rank: Post-bac Research Fellows

Posted on: 20-Mar-2009

Deadline: 21-Apr-2009

Ling Field(s): General Linguistics
Cognitive Science

Language(s):

Employer: University of Maryland

Department: Linguistics

Job Description

Multiple Research Assistant/Fellowship Positions

The Department of Linguistics at the University of Maryland is looking to fill up to three full-time positions for post-baccalaureate researchers. Starting date for all positions is summer or fall 2009. Salary is competitive,

with benefits included. The positions would be ideal for individuals with a B.A. degree who are interested in gaining significant research experience in a very active lab as preparation for a research career. Applicants must be US or Canadian citizens or permanent residents, and should have completed a B.A. or B.S. degree by the time of appointment. Previous experience in linguistics is required, and relevant research experience is preferred.

Applicants may request to be considered for all positions. Review of applications for all positions will begin immediately, and will continue until the positions are filled. For best consideration, apply by April 21st. Position #1: Research Assistant in Psycholinguistics/Cognitive Neuroscience This person will take a leading role in research projects in

psycholinguistics and cognitive neuroscience of language. The person will be involved in all aspects of the design, testing and analysis of studies of language comprehension in adults, using behavioral and neuroscientific techniques, including ERP and MEG brain recordings (training provided). The person will also play a key role in the management of an active lab group. Previous experience in linguistics and/or psycholinguistics is preferred. The ability to interact comfortably with a wide variety of people (and machines) is a distinct advantage. The position is for a one year initial appointment, with the possibility of extension beyond that time. For more information contact Dr Colin Phillips, colin@umd.edu.

Positions #2-#3: Baggett Research Fellowships
2009-2010

One-year Baggett Fellowships are full-time positions intended for individuals with a B.A. or B.S. degree who are interested in gaining research experience in an active interdisciplinary environment before pursuing graduate study in some area of linguistics or cognitive science. One or two fellowship positions are available for the 2009-2010 year. Salary is competitive, with benefits included.

Applicants for all positions should submit a cover letter (outlining relevant background and interests, including potential faculty mentors), a current CV, and names and contact information for 3 potential referees (letters are not needed as part of the initial application), and a writing sample. Fuller details at ling.umd.edu/baggett. All

application materials should be submitted electronically to Jeff Lidz (see contact information below). NOTE: Put 'Baggett Fellowship' in the subject line. Prospective fellows should feel free to send a preliminary letter of interest to Dr Lidz or Dr Phillips.

The Cognitive Neuroscience of Language Lab is a well-integrated community of over 40 faculty, students and research staff, engaged in research on many areas of language, ranging from acoustics to semantics, in children and adults, normal and disordered populations, and covering around 10 languages. The lab has facilities for behavioral testing of infants, children and adults, two eye-tracking labs, an ERP lab and a whole-head MEG facility. The lab is affiliated with the Department of Linguistics and with the Neuroscience and Cognitive Science Program.

The University of Maryland is an Affirmative Action/Equal Opportunities Title IX employer. Women and minority candidates are especially encouraged to apply.

Rank: Researcher
Posted on: 25-Nov-2008
Deadline: Until Filled
Ling Field(s): Anthropological Linguistics
Cognitive Cultural Anthropology
Language(s):
Employer: University of Maryland
Department: Center for Advanced Study of Language

Job Description

The University of Maryland Center for Advanced Study of Language (CASL) is seeking to expand its research and analysis team in the area of Language and Culture. Applications are invited for a Research Scientist to join CASL's interdisciplinary research program investigating a range of basic issues and applied problems related to working with or learning foreign languages. Current projects include the development of cultural knowledge prototypes and scenarios to aid government professionals. The successful candidate will assist in the development of research projects that enable government employees, especially foreign language professionals, to improve their performance.

Appointments to CASL are as members of the research faculty of the University of Maryland under renewable three-year contracts, with highly competitive salary (12 months) and benefits.

Qualifications: Candidates must have an earned Ph.D. in Anthropology, Linguistics, Psychology or a related field with a focus on Language and Culture, preferably from a cognitive point of view, and a record of individual research achievement pointing to a strong promise of publication. The center is seeking people who will play a leading role in the strategic direction of CASL and will participate in multiple research projects in their field. Candidates' research and publications should demonstrate the ability to tackle interdisciplinary research and to work collaboratively with a range of institutions and researchers.

Candidates must hold U.S. citizenship and be willing to obtain the appropriate security clearance.

Application: For consideration, apply online at the URL provided below and submit letter of application, curriculum vitae, and three writing samples. References will be requested later from candidates selected for an interview. The position will remain open until a suitable candidate is selected. Applications may also be sent to the address provided below. The University of Maryland is an affirmative action, equal opportunity employer. Women and minorities are encouraged to apply.

Rank: Researcher
Posted on: 25-Nov-2008
Deadline: Until Filled
Ling Field(s): Language Acquisition
Second Language Acquisition
Language(s):

Employer: University of Maryland
Department: Center for Advanced Study of
Language

Job Description

The University of Maryland Center for Advanced Study of Language (CASL) is seeking to expand its research team in Second Language Acquisition (SLA). CASL invites applications for a Research Scientist to work in its interdisciplinary research program on foreign/second language acquisition, maintenance, and enhancement. CASL seeks a scholar with specialization in cognitive SLA and strong training in quantitative and experimental research methods. A secondary research interest in technology in language learning is highly desirable. The successful candidate will work with a

multidisciplinary team on research projects that enable government employees, especially foreign language professionals, to improve their performance. Appointments to CASL are as members of the research faculty of the University of Maryland under renewable three-year contracts, with a highly competitive salary (12 month) and benefits.

Qualifications: Candidates must have an earned Ph.D. in Second Language Acquisition, Second Language Studies, or a related field (but with significant specialization in SLA) and should possess a record of research achievement on cognitive SLA issues and a strong record of publication. The Center is seeking people who will play a leading role in the strategic direction of CASL and will participate in multiple research projects in their field. Candidates' research and publications should demonstrate the ability to tackle complex, interdisciplinary research and to work collaboratively with a range of institutions and researchers.

Candidates must hold U.S. citizenship and be willing to obtain the appropriate security clearance.

CASL, established in 2003, is the nation's 10th university-affiliated research center. Its mission is to conduct state-of-the-science research that results in improved performance on language tasks relevant to the work of government language professionals. Our research focuses on improving knowledge of less commonly taught languages; enhancing the acquisition and maintenance of foreign language capability by government professionals;

advancing the capacity to use foreign language skills in a government profession; and improving the quality of human language technology. Application: For consideration, apply online at the URL provided below and submit letter of application, curriculum vitae, and three writing samples. References will later be requested from short-listed candidates. The position will remain open until a suitable candidate is selected. Application may also be mailed to the address provided below.

Job Description

Researchers from the University of Minnesota Medical School and School of Public Health are seeking an individual fluent in Spanish and Quichua (preferably the dialect spoken in the Ecuadorian provinces of Pichincha and Imbabura) to transcribe 39 interviews. The interviews range in length from approximately 10 minutes to 45 minutes; most interviews are about 20 minutes in length. While the interviews were conducted primarily in Spanish, many of the interviews contain brief Quichua statements; and approximately 10 interviews were conducted primarily in Quichua. All interviews need to be transcribed, and the Quichua-language portion of the interviews needs to be translated into Spanish. The hourly rate for this project is \$10-20; determination of an exact hourly rate will depend upon skill, language fluency, experience, etc. If you have questions or would like to learn more about this project, please do not hesitate to contact Rebekah Heckmann (see contact information below).

Employer: University of North Carolina at
Charlotte
Department: English - Applied Linguistics
Program

Job Description

UNC Charlotte invites applications for the position of assistant professor of English specializing in Sociolinguistics or Anthropological Linguistics beginning August, 2009.

Required qualifications include: Ph.D. and demonstrated expertise; evidence of a strong potential for professional development as a scholar; and evidence of potential for successful teaching. Preferred qualification: background in the history of English varieties.

UNC Charlotte strives to create an academic climate in which the dignity of all individuals is respected and maintained. Therefore, we celebrate diversity that includes, but is not limited to ability/disability, age, culture, ethnicity, gender, language, race, religion, sexual orientation, and socio-economic status. AA/EOE.

This appointment is a 9-month position. The teaching load for tenure-track faculty in their first four years is 2/2; in subsequent years it is set in relation to research productivity. Our linguists also advise ESL students working on M.Ed. theses and projects. The department offers Bachelor's and Master's degrees (the latter with emphasis areas in Applied Linguistics and English for Specific Purposes); we further participate in a doctoral program in Curriculum and Instruction in the College of

Education and collaborate with Languages and Culture Studies, Cognitive Science, International Studies, Gerontology, and other programs.

For consideration, apply online at jobs.uncc.edu (position # 5218) with a letter of application, vita, and the names of three referees. Candidates invited to interview will be asked to provide an official transcript, a writing sample, and three original letters of recommendation to Dr. Malin Pereira, Chair, Department of English, at the address provided below. Screening of applicants will begin October 15, 2008, and will continue until the position is filled.

Please direct inquiries to Ralf Thiede, Dept. of English / Applied Linguistics Program.

University of Oslo Linguistic Theories: Post Doc, University of Oslo

<http://linguistlist.org/issues/20/20-190.html>

Rank: Post Doc
Posted on: 19-Jan-2009
Deadline: 04-Feb-2009
Ling Field(s): Linguistic Theories
Language(s):
Employer: University of Oslo
Department: Department of Linguistics and
Scandinavian Studies

Job Description

A post-doctoral research fellowship in linguistics (SKO/post code 1352) is available at the Department of Linguistics and Scandinavian Studies, University of Oslo.

The post-doctoral research fellowship is for a period of 3 years and will be attached to the project "Language, Culture and Identity in Migrant Narratives". The successful applicant is expected to investigate a research area within "The Negotiation of Identity in Spoken Migrant Narrative Discourse", with a special emphasis on an historical perspective to identity in narratives. The data for the proposed postdoctoral project may involve migrants in Norway or beyond. Cf. the project description on the department's home page:

hf.uio.no/iln/forskning/forskningsprosjekter/ski/.

For more information about the department visit our website.

The main purpose of post-doctoral research fellowships is to qualify researchers for work in top academic positions within their disciplines. Applicants must hold a degree equivalent to a Norwegian doctoral degree in an academic area which is relevant to the proposed project.

Applicants must submit a project description, including a schedule of activities. It is to be assumed that the project will be completed within the 3-year period.

The appointee will be expected to engage with existing research groups in the Faculty of Humanities and to contribute to the further development of the scholarly community.

We are looking for strongly motivated and competent candidates, with high academic qualifications in the relevant area of research.

Short listed applicants will be called to an interview at the University of Oslo.

Guidelines for appointments to post-doctoral research fellowships at the University of Oslo may be obtained at

uio.no/admhb/reglhb/personal/tilsettingvitenskapelig/guidelinespostdoctor.xml

The University of Oslo has a goal of recruiting more women in academic positions.

Women are encouraged to apply. The University of Oslo also has a goal of recruiting more individuals with an immigrant background to academic positions in Norway. Individuals with an immigrant background are encouraged to apply. The University of Oslo has an agreement for all employees, aiming to secure rights to research results a.o.

Government wage scale: 57-62 (NOK 435 700 - NOK 477 800)

Ref.no: 2008/1595

Applicants should submit five copies of:

- Project description (max. 10 pages)
- A list of published and unpublished works
- Curriculum vitae (with full information about

education, former positions, pedagogical and administration experience), including one set of certified copies of certificates

- Names and contact information of two references

- Three copies of doctoral dissertation together with three copies of scientific works (printed or non-printed) that the applicant wishes to be considered by the evaluation committee

Applications may be written in Norwegian or English. Please mark applications with ref.no. 2008/1595 and send to the address listed below.

University of Osnabrueck, Germany Psycholing; Neuroling: Junior Professor, University of Osnabrueck

<http://linguistlist.org/issues/20/20-760.html>

Rank: Junior Professor

Posted on: 09-Mar-2009

Deadline: 24-Apr-2009

Ling Field(s): Psycholinguistics
Neurolinguistics

Language(s):

Employer: University of Osnabrueck,
Germany

Department: Institute of Cognitive Science

Job Description

The interdisciplinary Institute of Cognitive Science of the University of Osnabrück offers a junior professorship to be filled as soon as possible. The contract will be initially for three years with the possibility of an extension for a further period of three years, provided the intermediate evaluation has been passed successfully.

Psycho-/Neurolinguistics

(Salary level W1)

The successful applicant will represent the discipline of Neurolinguistics or Psycholinguistics within Cognitive Science with regard to both teaching and research in his or her own responsibility and will act independently also with regard to the acquisition of external research funds. The position involves research in the areas of Neuro-/Psycholinguistics. Candidates are expected to interdisciplinarily collaborate with several of the other research groups at the Institute of Cognitive Science (Artificial Intelligence, Cognitive Psychology, Computational Linguistics,

Neurobiopsychology, Neurocybernetics, Neuroinformatics, and Philosophy of Cognition). Furthermore, the position involves teaching with a focus on neuro-/psycholinguistic approaches in the international B.Sc., M.Sc., and Ph.D. programs of Cognitive Science.

Requirements are a doctorate in Neuro-/Psycholinguistics or closely related subject area; excellent research qualifications documented by an outstanding dissertation and publications in international reviewed journals; interest and documented experience in interdisciplinary work; thorough familiarity with linguistic theory, brain research, and experimental methods. Very good knowledge of English as well as very good teaching qualifications are required. Applicants should have completed their doctorate within the past five years.

Contact and further information: Prof. Dr. Peter Bosch (see contact information below)

Classes taught by the successful applicant are offered to foreign and German students of the international B.Sc., M.Sc., and Ph.D. programs "Cognitive Science". All classes are taught in English. Further information on the Cognitive Science programs and the Institute of Cognitive

Science can be found at our website.

Osnabrück University is an equal opportunity employer. Women are therefore particularly encouraged to apply. Disabled applicants with equivalent qualification will be treated preferentially.

Candidates are invited to send their applications with the usual documentation (including CV, lists of publications and taught courses, names and addresses of three referees, and a sketch of a research program) no later than 24.04.2009 to the Director of the Institute of Cognitive Science at the address provided below.

University of Oxford Romance Linguistics: Researcher, University of Oxford

<http://linguistlist.org/issues/20/20-406.html>

Rank: Researcher
Posted on: 09-Feb-2009
Deadline: 20-Feb-2009
Ling Field(s): General Linguistics
Morphology
Romance Linguistics

Language(s):
Employer: University of Oxford
Department: Faculty of Medieval and Modern Languages

Job Description

Research Assistantship for AHRC-funded project on Romance historical morphology.

Academic-related research-staff grade 7: salary

£28,839-35,469

The Faculty seeks a Research Assistant to work on the current AHRC-funded project entitled 'Autonomous Morphology in Diachrony: comparative evidence from the Romance languages'. This fixed-term post is available from 1 April 2009 until 31 December 2010.

Responsibilities of the Research assistant

The successful candidate will:

— help identify and evaluate the project's corpus of Romance inflectional data, establishing how these can be consulted if unavailable in Oxford — be responsible for the entry of data onto the project's database — help oversee presentation of the database on the project's website — familiarize him/herself with developments in morphological theory — familiarize him/herself with developments in Romance linguistics — assist in presentations and discussions

— help co-ordinate arrangements for international Workshops connected to the project

— participate regularly in various classes and meetings in connection with the project

Candidates should have general knowledge of morphological theory, and of the Romance languages and Romance linguistics, and a detailed knowledge of at least two Romance languages. The successful candidates should possess a higher degree (normally Ph.D.), and research experience in linguistics. The candidates should have good IT skills, and preferably some experience of databases.

The Research Assistant will be provided with workspace and IT equipment in the Faculty of Medieval and Modern Languages, which will be their normal place of work.

The closing date for applications is noon on Friday 20 February. Interviews will be held on Friday 27 February. Applications (4 copies) consisting of a curriculum vitae, a covering letter indicating how your research experience relates to the project, and the names and addresses of two referees, should be sent to Professor Martin Maiden at the address provided below (tel: 01865 270488). Applicants should ask their referees to write directly Professor Maiden by the same deadline. E-mail applications will be

considered. Further particulars may be obtained from the above address or downloaded from www.mod-langs.ox.ac.uk

University of Oxford Sociolinguistics: Post Doc, University of Oxford

<http://linguistlist.org/issues/20/20-511.html>

Rank:	Post Doc
Posted on:	17-Feb-2009
Deadline:	06-Mar-2009
Ling Field(s):	Sociolinguistics
Language(s):	
Employer:	University of Oxford
Department:	Faculty of English

Job Description

Salary: £28,839 - £31,513 (As of 1 October 2008; a higher salary may be available in exceptional cases)

A two-year research and teaching appointment in Sociolinguistics from October 2009 for an outstanding academic at an early stage of his or her career.

These fellowships are funded by the Andrew W. Mellon Foundation as part of a wider Oxford University initiative which is designed: to provide an intensive and supported career development opportunity for outstanding academics at an early stage of their career; and to promote equality of opportunity by helping to create a more diverse pool of potential candidates for future academic posts at Oxford.

Applicants must have obtained his or her doctorate by 1

October 2009, and should not normally have completed it earlier than 1 October 2005. The post is open to applicants working in any area of sociolinguistics, but we would particularly welcome applications from those with interests in language contact, creole linguistics or the varieties of English used in postcolonial settings.

This post is a joint appointment between the Faculty of English and the Faculty of Linguistics, Philology and Phonetics. A college association will be arranged for this post, and it is envisaged that the postholder will be based in the college, but will undertake teaching for both Faculties and for the College.

Rank: Post Doc
Posted on: 09-Feb-2009
Deadline: 06-Mar-2009
Ling Field(s): Semantics
Language(s):
Employer: University of Oxford, UK
Department: Philosophy / Linguistics, Philology and Phonetics

Job Description

Postdoctoral fellowship in Semantics

Grade 7, £28,839 - £35,469 per annum

A fixed-term research and teaching appointment in Semantics is available from 1 October 2009 for two years. Candidates with a background in either philosophy or linguistics will be considered, though a strength in semantics is required.

This initiative is designed to provide an intensive and supported career development opportunity for an outstanding academic at an early stage of his or her career, and to promote equality of opportunity by helping to create a more diverse pool of potential candidates for future academic posts at Oxford or elsewhere.

Applications for this post are especially welcome from women and ethnic minorities, who are under-represented among the University's academic staff (section 38 of the Sex Discrimination Act 1975 and section 48 of the Race Relations Act 1976 apply).

This Fellowship is offered jointly by the Faculty of Philosophy and the Faculty of Linguistics, Philology, and Phonetics. The successful candidate must have obtained his or her doctorate by 1 October 2009, and should not normally have completed it earlier than 1 October 2005. He or she will have a proven track record of research in the area of Semantics, and will demonstrate potential for producing outstanding research in this area within the period of the Fellowship.

Postdoctoral Fellows are offered the opportunity to develop their expertise in both research and teaching. They will also have an academic mentor as well as a personalised career and professional development package, including the opportunity to undertake the University's Postgraduate Diploma in Learning and Teaching.

Further particulars, including details of how to apply, can be obtained from the Faculty websites (philosophy.ox.ac.uk and

ling-phil.ox.ac.uk).

The deadline for receipt of applications and references is Friday 6 March 2009.

The University of Oxford is an equal opportunities employer.

 Teaching Chinese
 Language(s): Chinese, Mandarin
 Employer: University of Pittsburgh
 Department: East Asian Languages and
 Literatures

Job Description

The Department of East Asian Languages and Literatures of the University of Pittsburgh seeks two full-time, non-tenure-stream assistant instructors for the Chinese language program, for appointment beginning September 1, 2009, pending budgetary approval. Successful candidates should possess native or near-native proficiency in all skill areas of Chinese and English, hold at least an M.A. degree in language pedagogy or related field, and have teaching experience at the college level, linguistic knowledge of Chinese language, and familiarity with current theories in second language acquisition and language pedagogy. Duties include both recitation and lecture. In addition to language teaching, the instructor will be asked to work closely with the language coordinator and contribute to developing overall effectiveness of the language program in the department. Applicants should send a letter of application, CV, transcript from last university attended, three letters of reference (at least one of them should specifically address the candidate's training, experience, and strength in Chinese language teaching), statement of language teaching philosophy in Chinese and English to the Chinese Language Assistant Instructor Search Committee at the address provided below. For more information, contact Paula Locante (see contact information below). Applications will be screened as they arrive and the search will close on March 6, 2009.

The University of Pittsburgh is an Affirmative Action, Equal Opportunity Employer. Women and members of minority groups under-represented in academia are especially encouraged to apply.

University of Potsdam German, Standard & Hist Ling: Full Prof, University of Potsdam

<http://linguistlist.org/issues/20/20-512.html>

Rank: Full Professor
Posted on: 17-Feb-2009
Deadline: 07-Mar-2009
Ling Field(s): Historical Linguistics
Variational Linguistics
Language(s): German, Standard
Employer: University of Potsdam
Department: German Studies

Job Description

Am Institut für Germanistik der Philosophischen Fakultät der Universität Potsdam ist zum Wintersemester 2010/11 eine W3-Professur für Geschichte und Variation der deutschen Sprache zu besetzen.

Die Stelleninhaberin/der Stelleninhaber soll die historische

Sprachwissenschaft des Deutschen in Verbindung mit

Sprachvariationsforschung in Forschung und Lehre vertreten und dabei empirische Arbeit mit theoretischen linguistischen Fragestellungen verknüpfen. Erwünscht sind Schwerpunkte in einem oder mehreren der folgenden Bereiche: Dialektologie, historische Soziolinguistik, historische Sprachstrukturforschung und historisch ausgerichtete Kontakt- und Mehrsprachigkeitsforschung.

Erwartet wird die Bereitschaft zur fächerübergreifenden Zusammenarbeit mit den im Profilbereich der Philosophischen Fakultät ausgewiesenen interdisziplinären Schwerpunkten sowie die Beteiligung an fachspezifischen Studiengängen des Instituts ebenso wie an den fachübergreifenden Studiengängen, an denen das Institut beteiligt ist

(Kommunikationslinguistik, Fremdsprachenlinguistik, Kognitionswissenschaft). Erfahrungen in der akademischen Selbstverwaltung und mit der Einwerbung von Drittmitteln sowie bei der Organisation von Forschungsvorhaben im internationalen Rahmen werden vorausgesetzt. Erwünscht sind Erfahrungen im Bereich der Curriculumsentwicklung und der universitären

Organisation. Einstellungsvoraussetzungen für Professorinnen und Professoren sind nach § 38 Brandenburgisches Hochschulgesetz (BbgHG) ein abgeschlossenes Hochschulstudium, pädagogische Eignung, besondere Befähigung zu wissenschaftlicher Arbeit und zusätzliche wissenschaftliche Leistungen, die durch eine Habilitation oder gleichwertige wissenschaftliche Leistungen nachgewiesen oder im Rahmen einer Juniorprofessur erbracht worden sind. Das Berufungsverfahren wird nach den §§ 39, 40, 41 des BbgHG durchgeführt. Bei der ersten Berufung in ein Professoren-Amt ist das Angestellten- bzw. Beamtenverhältnis gemäß § 40 Abs. I BbgHG grundsätzlich zu befristen. Ausnahmen kommen insbesondere in Betracht, wenn Bewerber/innen aus dem Ausland oder aus dem Bereich außerhalb der Hochschulen für ein

Professoren-Amt sonst nicht gewonnen werden können (besonderes

Gewinnungsinteresse). Bei einer späteren Übernahme in das Beamtenverhältnis auf Lebenszeit bzw. in das unbefristete Angestelltenverhältnis ist ein erneutes Berufungsverfahren nicht erforderlich.

Die Universität Potsdam strebt eine Erhöhung des Anteils der Frauen in Lehre und Forschung an. Deshalb werden qualifizierte Wissenschaftlerinnen um ihre Bewerbung gebeten. Schwerbehinderte werden bei gleicher Qualifikation bevorzugt.

Die Universität Potsdam ist seit 2002 Prädikatsträgerin des Total E-quality Science Award und besitzt das Zertifikat 'familiengerechte hochschule'.

Job Description

Position No. 086606

A position of Assistant Professor in Modern Chinese Language and Culture will be vacant from August 1, 2009 for a period of three years at the Sønderborg campus of the University of Southern Denmark, Department of Business Communication and Information Science. The successful applicant will be affiliated with the newly founded programme in international business and modern languages (Chinese) situated at the Sønderborg Campus. The successful applicant will be fluent in Chinese, both spoken and written. Applicants will have research experience in one or more of the following areas:

- Chinese Language with a focus on business communication
- Intercultural communication with a focus on China and Chinese speaking societies
- Politics and history of China and Asia
- Chinese society and modern culture in China

Documented experience in teaching Chinese is required as is a strong profile in one or more of the areas mentioned above.

Additional information about the position is available from the Head of the Department of Business Communication and Information Science, Lotte Weilgaard, phone +45 6550 1309, email

lotte@sitkom.sdu.dk.

The successful applicant will be employed in accordance with the agreement between the Ministry of Finance and AC (the Danish confederation of Professional Associations).

Applications will be assessed by an expert committee. When the evaluation committee has submitted its report, the applicant will receive the part of the evaluation that concerns him/her.

As part of the overall assessment of the applicant's qualifications, an interview may be applied.

The University encourages all interested persons to apply, regardless of age, gender, religious affiliation or ethnic background.

The application in 4 copies must include the following: 1) a curriculum vitae demonstrating teaching experience, Certificates/Diplomas, 2) a list of all publications indicating which publications are most relevant for the position, 3) four copies of 5 relevant publications, 4) a list of all enclosures. All enclosures must be numbered, signed and assembled in sets. Please send the application, marked "Job ID 086606" and enclosures, including publications on which the applicant wishes to rely – all in 4 copies, to the address provided below.

University of Tromsø**Phonology: Post Doc, University of Tromsø**

<http://linguistlist.org/issues/20/20-93.html>

Rank: Post Doc
 Posted on: 08-Jan-2009
 Deadline: 16-Feb-2009
 Ling Field(s): Phonology
 Language(s):
 Employer: University of Tromsø
 Department: Faculty of Humanities, CASTL

Job Description

Post doctoral research fellow in theoretical linguistics at The Center for Advanced Study in Theoretical Linguistics (CASTL) at The Faculty of Humanities. The following reference number must be quoted in your application: 08-5687 CASTL at the Faculty of Humanities at The University of Tromsø, seeks applications for a position as post doctoral research fellow in linguistics. The position of post doctoral research fellow is for a fixed term of 2 years with a possibility of 1 year prolonging.

A doctoral degree is a prerequisite for appointment in the position of post doctoral research fellow: A Norwegian doctoral degree within linguistics or an equivalent foreign doctoral degree recognized as equivalent to a Norwegian doctoral degree.

The successful applicant must be willing to engage himself/herself in the ongoing development of his/her discipline and the university as a whole. The resources associated with the position are for research,

research-related activities and research administration. Appointment for more than one fixed term period at the same institution is not permitted. The main objective of appointments to positions of post doctoral research fellows is to qualify the appointee for employment in scientific top positions. Applications must be accompanied by a proposal for the qualifying work and shall include a work schedule. Appointments are made on the understanding that the appointee shall complete his/her project within the contract term. A plan shall after employment be drawn up showing how the project that forms the basis for the appointment in the position of post doctoral research fellow shall be implemented. The plan shall form part of (an appendix to) the employment contract for the fixed term and shall cover the project description and work schedule.

The plan shall also state who is responsible for providing academic supervision. The person responsible for providing academic supervision and the employee both have a duty to report to the employer in case of inadequate implementation of the plan.

Faculty of Humanities has about 120 positions; of these 20 are technical or administrative positions. The faculty deals with research and teaching in Comparative Literature, General Linguistics, Documentation Science with Library Science, English, Finnish, French, Greek and Latin studies, Art History, Nordic, Russian, Sámi and German. The Faculty consists of two institutes, Department of Culture and Literature and the Department of Linguistics and A Norwegian Center of Excellence (CASTL).

The Center for Advanced Study in Theoretical Linguistics, CASTL, is funded by The Norwegian Research Council and the University of Tromsø. Our primary research activity is within generative grammar, especially syntax and phonology. The successful applicant will be working in the area of phonological theory. Preference will be given to applications whose research interacts closely with those of other phonologists at CASTL. Applicants can strengthen their applications by demonstrating experience with experimental work, teaching, and/or supervising students. While this is not a teaching position, involvement in - and at times responsibility for - research seminars will be expected.

Job Description

The University of Washington English Department invites applications for an Associate Professor position in TESOL/Applied Linguistics. This is a tenured, full-time position in the English Department; PhD required. However, responsibilities will be split between the English Department and the UW English Language (ESOL) Programs. The successful candidate will teach half-time in the UW MATESOL Program and serve as a liaison with the English Language Programs, working on curricular research and initiatives, and ongoing program evaluation. The department offers a MATESOL Program as well as a doctoral track in Language and Rhetoric. Demonstrated excellence in teaching is required. All qualified candidates are encouraged to apply; however, we are particularly interested in active scholars with expertise in English for Academic Purposes, second language writing, and program evaluation. Research/teaching expertise in any of the following areas is a plus: globalization, language testing bilingualism/multilingualism, research methods, teaching methods, and critical applied linguistics. Supervising doctoral dissertations will be an integral part of his/her responsibilities. The English Department is dedicated to the goal of building a culturally diverse and pluralistic faculty and staff committed to teaching and working in a multicultural environment and strongly encourages applications from women, minorities, individuals with disabilities and other eligible veterans. University of Washington faculty engage in teaching, research and service. The University of Washington is an affirmative action, equal opportunity employer. Final budgetary approval pending.

Review of applications will begin as they are received; preference will be given to applications postmarked by December 10, 2008. Send letter of application and CV to the application address listed below.

University of Wisconsin-Madison General Ling: Project Manager/Assoc Research Specialist, U of ...

<http://linguistlist.org/issues/20/20-541.html>

Rank: Project Manager -- Associate
Research Specialist
Posted on: 19-Feb-2009
Deadline: Until Filled
Ling Field(s): General Linguistics
Language(s):
Employer: University of Wisconsin-Madison
Department: Waisman Center

Job Description

Official title: Research Specialist (T16DN) or Associate Research Specialist (T16FN)

Bachelor's degree required. A degree in psychology, communicative disorders, or linguistics is preferred. Degree in related field considered. A minimum of one year behavioral research experience in an academic setting is preferred. Strong interpersonal skills and ability to work in ethnically, economically, and racially diverse settings essential. Background working with minority children in preschools or elementary schools highly advantageous. The successful candidate will possess: 1) Excellent oral and written communication skills 2) Organizational skills and attention to detail 3) An ability to prioritize 4) Excellent interpersonal skills 5) Knowledge of computers with an understanding of common Microsoft programs. Experience with programming in R (or related languages) is highly desirable.

This position involves the conduct of research on factors that affect success in learning to read among minority, principally African American, children. The position involves managing and coordinating activities among the individuals (undergraduates, graduate students, post docs, research assistants) conducting research at

settings such as preschools and elementary schools. This individual will schedule and coordinate researchers in the field; training testers; collate and organize data, and perform simple data analyses. The incumbent will also participate in creating materials for behavioral studies involving Standard American English and African American English. This individual will also manage the lab on a day-to-day basis.

Specific duties will include, but are not limited to:

- working with teachers and administrators at preschools and elementary schools
- scheduling testing at such settings
- coordinating schedules of field researchers
- training field researchers
- coordinating distribution and collection of consent forms
- collecting, checking, coding, and inputting research data
- R-scripting to analyze research data
- assist with management of research funds
- general laboratory maintenance

Must be available a minimum of 5 half days per week or 3 full days per week, including Mondays. (50 to 100% position)

A criminal background check will be conducted prior to hiring.

A period of evaluation will be required.

Deadline: 27-Feb-2009
Ling Field(s): Historical Linguistics
Diachronic English Linguistics
Language(s): English
Employer: University of Zurich
Department: Dept. of English

Job Description

The Faculty of Arts of the University of Zurich invites applications for a Professorship in English Language to be filled as soon as possible. Applicants should have demonstrated competence in diachronic English linguistics and the history of the English language (in particular Old and/or Middle English); candidates are also expected to have experience in teaching Medieval English literature. Substantial publications beyond the doctoral thesis and a functionally adequate command of German are prerequisites.

The University strives to increase the proportion of women in research and teaching. Therefore, applications from suitably qualified female academics are particularly welcome. Applications with CV, a list of publications (without the publications themselves) and a list of courses offered in the past should be sent by February 27, 2009, to the address provided below.

University of Wisconsin-Milwaukee

English & Comp Ling: Post Doc, University of Wisconsin-Milwaukee

<http://linguistlist.org/issues/19/19-3223.html>

Rank: Post Doc
 Posted on: 23-Oct-2008
 Deadline: Until Filled
 Ling Field(s): Computational Linguistics
 Discourse Analysis
 Natural Language Processing
 Language(s): English
 Employer: University of Wisconsin-Milwaukee
 Department: Health Sciences

Job Description

We are looking for a consultant or a research associate for participating in the Bio-Discourse Relation project. Bio-Discourse Relation is a project to annotate discourse connectivity in biomedical text, and to explore discourse connectivity for biomedical text-mining. This project explores discourse representation, annotation, parsing, and the applications (e.g., information retrieval and summarization). 1-5 years of support. University of Wisconsin-Milwaukee is a doctoral/research extensive university and Wisconsin's premier public urban institution, offering a comprehensive liberal arts, sciences and professional education at the undergraduate and graduate level to its 28,000 students.

UWM offers competitive salary and startup packages, commensurate with experience. Further information about UWM may be found at www.uwm.edu. UWM is an equal opportunity/affirmative action employer. Employment will require a criminal background check. For the UWM Campus Security Report see cleryact.uwm.edu, or call the Office of Student Life at (414) 229-4632 for a paper copy.

For those interested, please email or call Hong Yu.

Uppsala University

Turkish & Turkic Languages: Asst Prof, Uppsala University

<http://linguistlist.org/issues/20/20-519.html>

Rank: Assistant Professor
 Posted on: 17-Feb-2009
 Deadline: 12-Mar-2009
 Ling Field(s): Ling & Literature
 Turkic languages
 Language(s): Turkish
 Employer: Uppsala University
 Department: Linguistics and Philology

Job Description

Senior Lecturer (Assistant Professor) in Turkic languages at the Department of Linguistics and Philology, Uppsala University

See the full text of the announcement at:

personalavd.uu.se/ledigaplatser/1642unlekt_eng.html

Duties: The post comprises teaching, research, and administration. Teaching primarily involves courses in Turkic languages and literatures with special emphasis on Turkish. Teaching also includes responsibility for courses and course administration as well as supervision of undergraduates and doctoral candidates. Duties also comprise staying abreast of developments in the holder's own subject area, and of societal developments in general that are of importance to working at the University.

Eligibility requirements: Under the Higher Education Ordinance, applicants are eligible for employment as Assistant Professor (Senior Lecturer) if they hold a doctoral degree or have the equivalent academic competence, have completed training in tertiary-level teaching or acquired equivalent knowledge in other ways, and have demonstrated competence in teaching. The post requires excellent skills in using Turkish in speech and writing, and good proficiency in English as well. A knowledge of Swedish is a desirable qualification. The holder of the post will be expected to be able to teach in Swedish after no more than two years of employment. Assessment criteria: In the ranking of eligible applicants equal consideration will be given to academic competence and teaching skills. Academic competence in synchronic,

diachronic, and comparative Turkic linguistics with the main emphasis on Turkish, including Ottoman Turkish, and a non-Oghuz Turkic language is necessary for the position. Attention will also be paid to experience in teaching Turkic literatures as well as social and historical backgrounds.

Equal care will be taken in scrutinizing teaching skills and academic competence. Assessment of teaching ability will consider planning, production of own teaching materials, execution, and evaluation of teaching as well as thesis direction and examination. For more information, see 'Guidelines for Hiring Teachers,' Chapter 7, Guidelines for Assessing Qualifications of Teachers.

Helpful suggestions for the presentation of qualifications can be downloaded from the following Web address:

humfak.uu.se/sprakvet/organisation/meritvarderingvrvav.php
Applications, marked with reg. no. UFV-PA 2008/1642, must be addressed to the Vice-Chancellor of Uppsala University and must reach the postal address provided below, fax +46 (0)18-471 2000 or e-mail registrator@uu.se. Applications sent by fax or e-mail must be followed by a signed original not more than one week after the deadline for applications.

The Uppsala University Hiring Ordinance and Guidelines for Hiring Teachers are available at: www.personalavd.uu.se/anstordning.

Application Address:

Registrars Office , Vice-Chancellor
Box 256
Uppsala, SE-751 05
Sweden

Vantage Linguistics

Morphology, Semantics, Syntax:

Consultant, Vantage Linguistics

<http://linguistlist.org/issues/20/20-142.html>

Rank: Consultant
Posted on: 13-Jan-2009
Deadline: Until Filled
Ling Field(s): Morphology
Semantics
Syntax
Natural Language Processing
Language(s):
Employer: Vantage Linguistics
Department: Research & Development

Job Description

Company description: As a world leader in the development of linguistic software solutions, Vantage Linguistics continues to set the benchmark for innovation and excellence in language-based research and artificial intelligence. Vantage Linguistics offers superior linguistic solutions that meet the challenges to effectively find, process, and communicate information in today's global marketplace. Holding nearly 40 patents in natural language processing and artificial intelligence, Vantage Linguistics provides both pioneering technologies and acquired offerings formerly associated with renowned companies such as INSO, Lernout & Hauspie, Sail Research Labs, and WexTech.

Required Languages: Afrikaans, Catalan, Czech, Chinese, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Icelandic, Italian, Japanese, Malay, Norwegian (Nynorsk and Bokmål), Polish, Portuguese, Russian, Spanish, Swedish.

Main responsibilities:

- Serving as a language expert for software development
- Morphological and syntactic tagging of words
- Providing linguistic judgment on various assets
- Light translation tasks from English to the target language

Requirements:

- Native fluency in (at least) one of the required languages
- B.S. in Linguistics required, M.S. degree is advantageous
- Excellent knowledge of morphological and syntactic rules and features
- Strong computer skills
- Solid problem solving skills and can-do attitude
- Efficient and reliable
- Familiarity with major language variants (for example British versus American)

The ideal candidate would also have:

- Corporate work experience
- Familiarity with scripting languages

All work will be done offsite so the candidate will need to have an up-to-date computer with Internet connection. Contracts are project-based. For consideration, send resume and cover letter to the application email provided below.

Verilogue, Inc.

General Linguistics: Conversation Analyst, Verilogue, Inc.

<http://linguistlist.org/issues/20/20-552.html>

Rank: Conversation Analyst/Applied Linguist
 Posted on: 19-Feb-2009
 Deadline: Until Filled
 Ling Field(s): Discourse Analysis
 General Linguistics
 Language(s): English

Employer: Verilogue, Inc.
 Department: Analytics

Job Description**About Verilogue:**

Verilogue brings patients, physicians and the healthcare industry together to share information, enhance disease understanding and participate in medical marketing research. In order to develop more effective medicines and communication materials for patients and physicians, the healthcare industry requires more insightful customer data.

Overview:

Our Analytics Group applies linguistic and conversation analytic methods to physician-patient conversations, delivering deep insights about disease education, treatment selection, and emotional and attitudinal influences on interactions, among other aspects of physician-patient encounters. Verilogue is seeking an applied linguist with experience in conversation and discourse analysis, corpus linguistics, conceptual metaphor theory (CMT), and/or traditional market research to support the delivery of strategic research reports and other projects.

Primary Job Responsibilities:

- Analyzing large bodies of conversational data;
- Aggregating and reporting insights and findings in PowerPoint format;
- Rapidly developing an understanding of the health care and pharmaceutical industry;
- Developing material for and facilitating discussions during client workshops; and,
- Developing external communications, including marketing newsletters, articles for scholarly and consumer publications, conference presentations, etc.

Key Competencies:

- Leadership skills, personal incentive, and a

demonstrated ability to undertake and successfully conclude projects with minimal supervision;

- An understanding of basic principles of analyzing language-in-use, conceptual metaphors, and discourse structure;

- Ability to work under pressure and meet deadlines, both autonomously and collaboratively;

- A sharp eye for detail, precise thinking, the ability to make close, analytical judgments, and a practiced sense of order and organization;

- Experience in corpus or text analysis, conversation analysis, sociolinguistics, and/or ethnographic research; and,

- Solid computer and software competency in a PC/Windows environment, including Microsoft Office (particularly Word, Excel, Outlook, and PowerPoint).

Qualifications:

- Excellent academic credentials: graduate-level coursework in linguistics preferred; advanced undergraduate coursework acceptable;

- At least two years experience in a professional or business environment; and,

- Experience applying linguistic expertise to real language data. Compensation and Benefits:

Verilogue provides a base salary, bonus and equity plans commensurate with candidate experience and position requirements. Health and welfare benefits include medical, prescription, dental and vision plans. Other benefits include a 401(k) retirement plan, life and accidental death insurance, paid vacation and holidays. Our employees also enjoy flexible schedules and a casual work environment.

Verilogue rewards personal excellence in the pursuit of our common goals and is extraordinarily respectful of the individual and of the creative, intellectual and cultural diversity of our team. Our culture has allowed us to attract and retain talented individuals who are driven by a vision of the way we will transform the practice of health care communication. If you are interested in joining Verilogue, please e-mail your resume and salary requirements to the application email listed below or fax your resume to

866-379-3306.

Verilogue, Inc. is an equal opportunity employer.

VICOMTech

Computational Linguistics: Research Project Manager, VICOMTech

<http://linguistlist.org/issues/19/19-3502.html>

Rank: Research Project Manager
Posted on: 17-Nov-2008
Deadline: Until Filled
Ling Field(s): Computational Linguistics
Language(s):
Employer: VICOMTech
Department: Human Speech and Language Technology Group

Job Description

VICOMTech, an international applied research center in Interaction and Communication Technologies located in San Sebastian (Spain) is looking for a Computational Linguist. We are looking for someone who combines an interest in linguistics and software engineering, with the ambition to do research in multilingual computational linguistics and at the same time transfer this knowledge to companies and institutions in the form of advanced research prototypes developed to solve real-world needs. The selected candidate will have an important role in the Human Language Technologies Department, including project management responsibilities and definition of research priorities.

Our requirements are:

- PhD in Computational Linguistics or related field.

- Good English and Spanish language skills (other languages are a plus). If you are:

- A researcher with management abilities and interests.

- A team player with an ambitious and creative personality.

We offer:

- A multilingual (Spanish, Basque, English, French, German, etc.) research environment.
- A multidisciplinary research team, specialized in all forms of human-computer interaction.
- The opportunity to develop management as well as research skills.

Westminster College

Applied Linguistics: ESL

Faculty/Director, Westminster College

<http://linguistlist.org/issues/20/20-309.html>

Rank: ESL Faculty/Director
 Posted on: 30-Jan-2009
 Deadline: Until Filled
 Ling Field(s): Applied Linguistics
 Language(s):
 Employer: Westminster College
 Department: Arts and Sciences

Job Description

Westminster College seeks a director for its newly formed ESL Institute. The successful candidate will be culturally competent, hold a Ph.D. in linguistics with a TESL concentration, applied linguistics, or English as a Second Language Education, and have experience in working with

international ESL students in a comprehensive ESL environment.

Administrative experience appreciated. The director will hold faculty rank. Responsibilities include 18 hours of teaching, overall supervision of the Summer Institute, and general faculty responsibilities.

Westminster College is an equal opportunity employer committed to diversity. We strongly encourage candidates from groups historically under-represented in higher education to apply for this position. Applicants should submit a letter of application, curriculum vitae, evidence of teaching effectiveness (e.g., sample syllabi and/or course evaluations), writing sample, and three letters of reference to Mary Jane Chase, Dean of Arts and Sciences, by regular mail (see application address below), or by email. For more information, please visit our website.

Yale University

Phonetics, Phonology: Lecturer/Visiting

Asst Professor, Yale U

<http://linguistlist.org/issues/20/20-66.html>

Rank: Lecturer/Visiting Assistant
 Professor
 Posted on: 07-Jan-2009
 Deadline: 15-Mar-2009
 Ling Field(s): Phonetics
 Phonology
 Language(s):
 Employer: Yale University
 Department: Linguistics

Job Description

Yale University expects to make a one-year visiting appointment for 2009-2010 in the area of Phonetics and Phonology, at the level of Lecturer or (in the case of someone who holds an appointment in another university) Visiting Assistant Professor. The appointee will be expected to teach two courses per semester and to participate in the supervision of undergraduate and graduate students as appropriate. Courses to be taught should include General Phonetics and at least one term of an introductory phonology sequence; additional courses will be arranged on the basis of the appointee's research background and interests. Candidates should be assured of having completed the Ph.D. by September, 2009. Prior teaching experience will be an advantage.

Yale University is an affirmative action/equal opportunity employer. Yale values diversity among its students, faculty, and staff and strongly encourages applications from women and underrepresented minorities. Applications should include a cover letter, a current CV, one or two examples of research and the names of three potential references. Please do NOT ask for reference letters to be sent to us; we will solicit recommendations for candidates whose applications we wish to pursue further. Applications should be sent by regular mail only.

Morphology: Post Doc, Yale University

<http://linguistlist.org/issues/20/20-143.html>

Rank: Post Doc
Posted on: 14-Jan-2009
Deadline: 15-Feb-2009
Ling Field(s): Morphology
Language(s):
Employer: Yale University
Department: Linguistics

Job Description

The Department of Linguistics at Yale is seeking to appoint a postdoctoral associate in the area of morphology for a period of two years

(non-renewable) beginning September 1, 2009. Our department is committed to integrating a variety of methodologies in studying the nature of human language, including theoretical, experimental, computational, and comparative perspectives. The postdoctoral associate will participate fully in and contribute to the intellectual life of the department, interacting with faculty and students on research and teaching at least one course or seminar per year (possibly jointly).

Candidates should send an application including (a) a cover letter describing their research interests and the kind of research collaborations they envision with department faculty, (b) a current CV, (c) two or three representative pieces of research. In addition, applicants should arrange for three reference letters to be sent to the address below. All requirements for their doctoral degree must be completed by the start of the appointment.

Salary: competitive.

Yale University is an Affirmative Action/Equal Opportunity Employer, and we especially encourage applications from women and members of

under-represented minorities.

All applications must be sent by regular mail. No email submissions. Reference letters may be sent by email.

Zayed University**English; Arabic & Applied Ling;
 Asst/Assoc Prof, Zayed University**

<http://linguistlist.org/issues/20/20-655.html>

Rank: Asst/Assoc Professor
 Posted on: 03-Mar-2009
 Deadline: 03-Apr-2009
 Ling Field(s): Applied Linguistics
 Sociolinguistics
 Language(s): Arabic, Standard
 English
 Employer: Zayed University
 Department: Human Resources

Job Description

Zayed University is seeking to hire Assistant, Associate, Full Professors for its Bilingualism and Bilingual Center.

The UAE Center for Bilingualism and Bilingual Education (UAE CBBE) is a newly-established Research Excellence Center at Zayed University (Abu Dhabi campus) funded by the UAE's National Research Foundation. The UAE CBBE will be engaged in basic and applied linguistics research with the aim to generate knowledge about and to promote academic and professional proficiency in Modern Standard Arabic (MSA) and English among

Arabic-speaking peoples of the UAE, the Gulf, and the wider Arab world. The UAE CBBE invites applications for several researcher positions in applied linguistics, corpus linguistics and sociolinguistics at Zayed

University's Abu Dhabi campus, with appointments starting in September 2009. We are seeking colleagues who possess a strong commitment to applied linguistics research excellence and to supporting high-level bilingual proficiency.

In addition to full-time appointments, we also welcome inquiries from colleagues interested in entering into a joint appointment with their current institution or in a visiting appointment.

The UAE CBBE seeks to appoint researchers with specializations in one or more of the following:

- Ethnographic approaches to intercultural and multilingual communication and literacies in academic and professional contexts
- Language learning and teaching, particularly as it relates to advanced language learners of Arabic and English
- Language assessment and testing, particularly as they relate to academic and professional literacies in Arabic and English
- Multilingual communication corpora
- Language policy and planning
- Arabic sociolinguistics
- Arabic language education

Successful applicants will be expected to collaborate on research projects that contribute to the overall mission of the UAE CBBE. Successful applicants might undertake some teaching in academic writing (Arabic or English) and applied linguistics.

This is a unique opportunity to join a new research center that is actively working to strengthen applied linguistics research to enhance language education in one of the world's most dynamic nations.

Requirements:

- A Ph.D. in Applied Linguistics or a related field from a recognized university, with research expertise in one or more of the specializations listed above
- Demonstrated capacity to achieve research and

publication outcomes

- Demonstrated capacity to identify research opportunities and cooperate with international research partners

- Strong interpersonal and inter cultural skills and capacity to work in a team environment

- Ability to liaise with a diverse range of research partners and stakeholders

- Evidence of commitment to excellence in language education

- High-level proficiency in English is required

- High-level proficiency in Arabic is desirable

The benefits package is highly attractive, with competitive salaries free of tax in the United Arab Emirates.

For further information contact the Center Director, Prof. Ingrid Piller. In addition to completing the online application form, attach one document containing a letter of application, a current CV and the names and contact details of three referees.
